PART I - BUSINESS AND GENERAL INFORMATION

ITEM 1. BUSINESS

Description of Business

1) Business Development

- a) The Corporation is a publicly listed company that was incorporated with the Philippine Securities and Exchange Commission (“SEC”) on 15 July 1995 as Palawan Consolidated Mining Company Inc. On 12 February 1997, the SEC approved the change in corporate name from Palawan Consolidated Mining Company Inc. to EBECOM Holdings, Inc. On 25 September 2003, the SEC approved another change in corporate name to ARIES Prime Resources Inc. On 15 October 2009, the corporate name was further changed to MJC Investments Corporation (“MJIC”) [PSE: MJIC].

On 15 August 2012, SEC approved the increase in the authorized capital stock of the Corporation from Four Hundred Million Pesos (P400,000,000.00) to One Billion Five Million Pesos (P1,500,000,000.00) and the corresponding amendment to the Corporation’s Articles of Incorporation as evidenced by the

Certificate of Filing of Amended Articles of Incorporation (Amending Article VII thereof) and the Certificate of Approval of Increase of Capital Stock dated 15 August 2012 issued by the SEC on even date.

The increase in authorized capital stock was needed to accommodate the entry of new investors and new capital needed by the Corporation to build its first tourism project, i.e., a hotel, entertainment and tourism hub (the "Hotel Project"), to be located in San Lazaro Tourism and Business Park ("SLTBP") in Santa Cruz, Manila. Thus, on 24 October 2012, the Board of Directors of the Corporation authorized the Corporation to proceed to negotiate and accept new investments.

On 17 January 2013, the Board of Directors of the Corporation accepted the offer of a group of Hong Kong investors headed by Mr. Teik Seng Cheah, through their Philippine corporations, to subscribe to 450,000,000 shares of the Corporation's common shares with a lock-up period of two (2) years. Mr. Teik Seng Cheah is a Hong Kong-based investment banker and sits in the Board of various private equity companies in Hong Kong, China and Malaysia.

On 10 August 2015, the SEC approved the change of name of the Corporation to MJC Investments Corporation doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino.

The total consideration for the subscription to 450,000,000 common shares of the Corporation is P450,000,000.00. The Investors paid the whole amount of their respective subscriptions in cash totaling to P450,000,000.00 upon the execution of their respective Subscription Agreements.

On 26 June 2013, during the annual stockholders meeting where 94% of the outstanding capital stock were present and/or represented by proxy, the stockholders (including the majority of the minority stockholders) unanimously approved the following:

1. Equity infusion by way of subscription to 450,000,000 primary shares of the Corporation by the group of investors headed by Mr. Teik Seng Cheah (Please note that this refers to the subscription made by the Strategic investors on 17 January 2013);
2. Additional equity infusion by way of subscription to primary shares by the group of investors headed by Mr. Teik Seng Cheah and other interested stockholders and related parties should the need arises under the Corporation's capital build-up program to have additional funds for the completion of the hotel and entertainment project at the SLTBP.

On 11 July 2013, the Board of Directors of the Corporation accepted the offer of the same group of Strategic Investors headed by Mr. Teik Seng Cheah, through their Philippine corporations, to subscribe to additional 875,000,000 shares of the Corporation's common shares with a lock-up period of two (2) years. The total consideration for the subscription to 875,000,000 common shares of the Corporation is P875,000,000.00.

The subscriptions to the 875,000,000 shares were made by the Strategic Investors on 3 October 2015. Additional subscription from non-related parties of 189,513,013 common shares was also made on the same day. All subscriptions made on this day were paid in cash.

None of the existing directors and controlling shareholders, and none of the officers or directors of the existing controlling corporate shareholders invested in the aforesaid 875,000,000 shares issued to the group led by Mr. Teik Seng Cheah.

On 23 September 2013, the SEC approved the Corporation's increase in authorized capital stock from One Billion Five Hundred Million Pesos (P1,500,000,000.00) to Five Billion Pesos (P5,000,000,000.00) and the corresponding amendment to the Corporation's Articles of Incorporation as evidenced by the *Certificate of Filing of Amended Articles of Incorporation (Amending Article VII thereof)* and the *Certificate of Approval of Increase of Capital Stock* dated 23 September 2013 issued by the SEC on even date.

On 14 January 2015, the group of Strategic Investors subscribed to additional 673,791,662 common shares. All subscriptions made on this day were paid in cash.

As of 31 December 2015, the Corporation has an outstanding capital stock of P3,174,405,821 out of the P5 billion authorized capital stock. The Manila Jockey Club, Inc. is the single biggest investor of the Corporation owning 22.31% of the shares of stock.

The Corporation has utilized the equity infusion by its stockholders for the construction of the Winford Hotel and Casino on a 0.75-hectare property in Sta. Cruz, Manila. The complex has a 21-storey hotel tower and an entertainment center consisting of 5,000 square meters with parking spaces for 900 cars. The hotel will have 128 world class internationally-designed rooms with a grand ballroom, swimming pool and roof deck with helipad. The formal inauguration of the complex will be on April 21, 2017

The registered office address of the Company is Winford Hotel and Casino, MJC Drive, Sta. Cruz, Manila.

- b) The Corporation is not involved in any bankruptcy, receivership or similar proceedings.
- c) No material reclassifications, merger, consolidation, or purchase or sale of significant amount of assets not in the ordinary course of business occurred during the calendar year ending December 31, 2018.

2) Business of Issuer

As provided for in its Amended Articles of Incorporation, the Corporation is formed primarily "to acquire by purchase, lease, or otherwise, lands or interest in lands and realty, and to own, hold, improve, develop said land or lands or real estate so acquired, and to build or cause to be built on any lands owned, held, occupied, or acquired, buildings, facilities, and other structures with their appurtenances, for residential, commercial, mixed-use, leisure, gaming, amusement, and entertainment purposes, and to rebuild, enlarge, alter, improve, or remodel any building or other structures now or hereafter erected on any lands or real estate so owned, held, or occupied, and to manage and operate, or otherwise dispose of any lands or real estate or interests in lands or real estates and in buildings and other structures at anytime owned or held by the corporation."

ITEM 2. PROPERTIES

The Company acquired from Manila Jockey Club, Inc. a 7,510 square meters lot in Sta. Cruz, Manila where the Hotel and Entertainment Complex was constructed. On 6 January 2016, the company held the ceremonial opening of the ground floor gaming and entertainment of Winford Hotel located within the San Lazaro Tourism and Business Park in Sta. Cruz Manila. On 21 April 2017, the Company held the grand opening of the Winford Hotel and Casino, a five-star hotel with casino in the heart of Metro Manila in Greater Chinatown. The hotel consists of 128 internationally designed deluxe hotel rooms with a grand ballroom, swimming pool, gym and spa, coffee shop and dining area, retail outlets and a seven-level parking structure, among other amenities and services.

ITEM 3. LEGAL PROCEEDINGS

There are no legal proceedings involving the Corporation.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of security holders, through solicitation of proxies or otherwise, during the fourth quarter of 2018.

PART II - OPERATIONAL AND FINANCIAL INFORMATION

ITEM 5. MARKET FOR ISSUER'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

1) Market Information

MJC common shares are listed in the Philippine Stock Exchange (PSE). The high and low market prices of MJC shares for each quarter of the past two calendar years, as reported by the PSE, are shown below:

Quarter Period	CY 2019		CY 2018		CY 2017	
	High	Low	High	Low	High	Low
1st Quarter	3.39	2.57	3.69	3.25	3.97	3.00
2nd Quarter			3.69	3.36	4.22	3.18
3rd Quarter			3.73	3.32	3.60	2.99
4th Quarter			3.50	2.56	4.01	3.15

Source: Philippine StockExchange, Inc.

As of April 12, 2019, the closing price of the Company's common shares in the PSE is at Php2.80.

2. Holders

As of December 31, 2018, there are approximately Four Hundred Thirty Three (433) holders of the common shares of the Corporation. The Corporation has no other class of shares.

The list of the top twenty (20) stockholders of the Corporation as recorded by RCBC Stock Transfer, the Corporation's stock transfer agent, is as follows:

**Top Twenty Stockholders
As of 31 December 2018**

Name	No. of Shares	%	Title of Class
1. PCD NOMINEE CORPORATION (Filipino)	2,284,228,597	71.96%	Common

Comparison of Operating Results for the Years Ended December 31, 2018 and 2017

Revenue

Revenue includes revenue share in gaming operations, revenue from operation of hotel, food and beverages, bingo, rental and other revenue. Total revenue for years ended December 31, 2018 and 2017 amounted to ₱623.0 million and ₱469.4 million, respectively.

The significant accounts that contributed to the increase are as follows:

- Revenue share in gaming operations increased by ₱82.7 million or 29% from ₱283.2 million in 2017 to ₱365.9 million in 2018. The increase is a result of the opening of the third floor area of the casino in 2018, which enabled the increase in gaming tables from 24 in 2017 to 28 in 2018 and the increase in electronic gaming machine (slot machines) from 326 units in 2017 to 416 units in 2018. In addition, foot traffic in the property increased from 1.0 million in 2017 to 1.6 million in 2018.
- Revenue from hotel rooms increased by ₱13.3 million or 17% from ₱76.8 million in 2017 to ₱90.1 million in 2018. The increase is attributable to the increase in occupancy rate during the

year from 62% in 2017 to 72% in 2018. Of the 128 rooms available each day, average occupied room per day is 91 room in 2018, which is higher than the 76 rooms in 2017.

- Revenue from food and beverage increased by ₱28.7 million or 58% from ₱49.9 million in 2017 to ₱78.6 million in 2018. The increase is attributable to the increase in foot traffic due to the increase in hotel guests and casino players in 2018.
- Revenue from bingo operations increased by ₱19.9 million or 77% from ₱25.9 million in 2017 to ₱45.8 million in 2018. The increase is attributable to the introduction of monthly and quarterly events which offers attractive prizes and rewards.
- Revenue from rental increased by ₱5.1 million or 23% from ₱22.3 million in 2017 to ₱27.4 million in 2018. The increase is due to the additional lessees within the hotel. In addition, since most of the rental agreement with the lessees includes a variable portion, which are mostly based on sales, the Group benefited from the additional revenue generated by the lessees which is significantly higher due to the increase in foot traffic in the property.

Total operating costs and expenses for the years ended December 31, 2018 and 2017 amounted to ₱1,179.6 million and ₱1,050.1 million, respectively. The significant increase in the total operating costs and expenses is due to higher taxes and licenses, gaming fees, contracted services, salaries and wages, costs of food, beverages and tobacco, security services, repairs and maintenance, utilities and other expense.

The significant cost and expenses that contributed to the increase are as follows:

- Contracted services increased by ₱14.6 million or 25% from ₱59.0 million in 2017 to ₱73.6 million in 2018. The increase is due to increase in number of required manpower for its hotel and food and beverage operations and gaming marketing and membership services attributable to the increased in Group's operations.
- Gaming fees increased by ₱17.7 million or 37% from ₱48.1 million in 2017 to ₱65.8 million in 2018. Gaming fees consist of the revenue share of PAGCOR in the Group's bingo revenue and the Group's subsidiary's manpower cost for its gaming operations. Furthermore, gaming fees also include prizes and rewards distributed for the monthly and quarterly bingo special events. The increase in gaming fees is directly attributable to the related increase in revenue from bingo operations.
- Salaries and wages increased by ₱11.6 million or 22% from ₱52.3 million in 2017 to ₱63.9 million in 2018. The increase in salaries and wages is attributable to the Group's employment of the two key management positions. In addition, the Group also employed additional employees as the Group's operation has been steadily increasing.
- Bad debt expense in 2018 resulted from the assessment made by management on certain nontrade receivables of the Company, which management assessed to be with higher likelihood of not being collected.
- Repairs and maintenance increased by ₱7.4 million or 22% from ₱33.0 million in 2017 to ₱40.4 million in 2018. The increase can be attributable to the cost for the maintenance of air condition/ventilation as the Group engages itself to additional service providers engaged for the maintenance of motor controller and pump equipment found in the casino and hotel and the inspection of air quality systems. Another factors are the increase of electrical and mechanical expenses which can be attributed to the various repairs to the building and the increase of system and software maintenance.
- Security services increased by ₱9.0 million or 33% from ₱27.5 million in 2017 to ₱36.5 million in 2018. The increase is due to the full year implementation of the minimum wage hike ordered on October 16, 2017. In addition, during the year, the Group increased its security line personnel and K9 handler due to the increase in the foot traffic the hotel and casino have experienced.
- Taxes and licenses increased by ₱31.4 million from ₱3.7 million in 2017 to ₱35.2 million in 2018. The significant increase is due to the amortization of the prepaid real property tax amounting to ₱29.0 million. In addition, there is an amortization of filing and listing fees paid in advance amounting to ₱3.1 million.

- Service fee increased by ₱5.9 million or 23% from ₱25.7 million in 2017 to ₱31.6 million in 2018. The increase is due to the management fee being charged by service provider, engaged in providing consultancy, advisory, and technical services in relation to the operation, management and development of the casino amounting to ₱4.9 million. In addition, the Group enters into a new contract with a service provider for the strategy and planning development, conceptualization, production of advertising materials and marketing of the Group's banquet and hotel rooms. This increased the expense incurred by ₱1.0 million.
- Advertising and marketing expenses decreased by ₱6.4 million or 17% from ₱37.7 million in 2017 to ₱31.3 million in 2018. The decrease is due to the decline in the advertising from TV, radio and social media directly paid by the Group since it employs a service provider to do much of its promotion during the year as well as the transactions with various advertising companies in exchange of their goods and services and reduction of complimentary food and beverages given to guests.
- The cost of food, beverage and tobacco increased by ₱10.0 million or 48% from ₱21.0 million in 2017 to ₱31.0 million in 2018. The increase is due to the increase in the number of guests in hotel, casino, concert, banquet and bingo events throughout the year. The cost rise by ₱5.5 million and ₱4.1 million for food and beverage, respectively. This is also directly attributable to the increase in revenue from food and beverage for the year.
- Banquet expenses increased by ₱6.4 million or 40% from ₱16.2 million in 2017 to ₱22.6 million in 2018. The increase is due to the significant increase in the number of banquet events from 149 events in 2017 to 192 events in 2018.
- Other expenses of the Group decreased by 87% or ₱45.4 million. The decrease is due to the cost containment measure implemented by the Group.

Interest Expense

Total interest expense amounting to ₱189.5 million is lower by ₱19.8 million or 9% as compared to prior year's ₱209.3 million. Interest expense decreased as a result of the payment of ₱700 million principal amount in 2018.

Comparison of Operating Results for the Years Ended December 31, 2017 and 2016

Revenue and Operating Costs and Expenses

Revenue includes 40% share in gaming operations, from operations of hotel, food and beverages, from bingo operations, rentals and others. Total revenue for years ended December 31, 2017 and 2016 amounted to ₱469.4 million and ₱222.0 million, respectively. The commencement of the full operations of the Group started in October 2016 and the grand opening held in April 2017.

Total operating costs and expenses for the years ended December 31, 2017 and 2016 amounted to ₱1,050.1 million and ₱541.0 million, respectively. The significant increase in the total operating costs and expenses is due to higher depreciation, salaries and manpower cost, utilities, service fees and marketing and promotions, various maintenance, security services and hotel operating supplies.

The significant increase is due to the following:

- Depreciation and amortization amounting to ₱517.5 million compared to prior year's ₱242.2 million is 49.3% of the total operating cost and expenses. Increase is due to depreciation of building improvements and acquisition of property and equipment during the year.
- Salaries and manpower contract services amounting to ₱111.3 million compared to prior year's ₱95.4 million is 10.6% of the total operating costs and expenses. The increase is due to additional key management personnel and manpower this year.

- Utilities amounting to ₱86.6 million compared to prior year's ₱66.0 million is 8.2% of the total operating cost and expenses. Increase is due to higher gaming capacity, increase in the number of slot machines and hotel occupancy this year. Further, the Group has fully utilized its resources as operations became completely functional, i.e. ballroom. Also, continuous increase of water bills for the months is due to the increasing number of hotel guests and occupants.
- Service fees amounting to ₱25.7 million compared to prior year's ₱17.4 million is 2.5% of the total operating costs and expenses. The increase is due to the recognition of consultancy, advisory and technical services in relation to the operation, management and development of the casino.
- Gaming fees amounting to ₱48.1 million compared to prior year's ₱22.8 million is 4.6% of the total operating costs and expenses. The increase is due to the full year minimum guaranteed fees paid to PAGCOR as compared to 2016.
- Advertising and marketing amounting to ₱37.7 million, security expense amounting to ₱27.5 million, repairs and maintenance amounting to ₱33.0 million, and hotel operating supplies amounting to ₱53.8 million compared to prior year's ₱6.5 million, ₱27.6 million, ₱1.7 million, and ₱15.9 million, respectively. The increase is due to various marketing activities implemented this year to further promote gaming and hotel operations, higher security expenses, various facility and software maintenance and higher hotel operating costs due to higher room occupancy and increase in the number of banquet events.

Interest Expense

Total interest expense amounting to ₱209.3 million compared to prior year's ₱128.2 million. Interest expense increased as compared to prior year because a portion of the interest expense was capitalized as borrowing cost in the prior year.

Comparison of Operating Results for the Years Ended December 31, 2018 and 2017

The operations of the hotel and casino started only in 2016 as the hotel and gaming facilities were in construction phase in 2016 and 2015.

Total revenue amounting to ₱623.0 million is 32.7% higher from last year's ₱469.4 million. Due to the cost containment measure implemented by the Group this year, loss before income tax amounting to ₱746.0 million is 5.6% lower from last year's ₱790.2 million.

The Group aims to further improve its financial performance in the succeeding years through the expansion of gaming facilities and implementation of cost reduction measures.

6.2 Analysis of Statements of Financial Position

	For the Year Ended December 31			% Change 2018 vs. 2017	% Change 2017 vs. 2016

Discussion on Significant Change in Financial Condition as of December 31, 2018 and 2017

Total assets amounted to ₱6,700.6 million as of December 31, 2018, which decreased by ₱248.4 million or 3.6% from ₱6,949.0 million as of December 31, 2017.

1. For the year ended December 31, 2018, cash and cash equivalents amounting to ₱472.4 million, decreased by ₱86.5 million or 15.5% from ₱558.9 million in 2017 due to the following:

- a) In 2018, net cash flows from operating activities amounting to ₱70.6 million, which resulted from the difference in revenue generated during the period amounting to ₱623.0 million, cash operating expenses amounting to ₱664.7 million, and changes in the working capital amounting to ₱112.3 million.

Cash operating expense in 2018 mainly pertains to utilities expenses (₱93.7 million), contracted services (₱73.6 million), gaming fees (₱65.8 million), salaries and wages (₱63.9 million), among others.

- b) Net cash flows used in investing activities amounting to ₱328.3 million comprise mainly of acquisition of property, plant and equipment amounting to ₱239.3 million and increase on

other noncurrent assets amounting to ₱141.9 million which was partially offsets to the decrease on advances to contractors, amortization of operating equipment and recognition of receivable arising from its permit to operate (PTO) related to gaming equipment with a total of ₱52.9 million.

- c) Net cash flows from financing activities amounting to ₱170.6 million comprise mainly the receipt of deposit for future stock subscription amounting to ₱1,056.1 million and payment of the principal and interest of its loan payable amounting to ₱885.5 million.
2. Receivable increased by ₱31.4 million or 17.3% from ₱212.4 million in 2017 to ₱181.0 million in 2018. The increase is primarily due to the increase in trade receivables from non-related parties amounting to ₱29.6 million. This increase is brought by the increase in the Group's receivable to its lessee. Also, the group reconized receivable arising from PTO related to gaming equipment amounting to ₱57.1 million. The increase in the receivables account is partially offset by the recognition of allowance for doubtful account with its nontrade receivables amounting to ₱57.1 million and decrease in the receivable arising from its PTO related to gaming equipment amounting to ₱2.2 million.
3. Inventories decreased by ₱7.7 million or 27% from ₱28.3 million in 2017 to ₱20.6 million in 2018. The decrease is the result of consumption of playing cards used in its gaming operation. In 2017, the Group maintained a large number of inventories related to playing cards that are carried forward this year. This number of playing cards sustained the 2018 operations.
4. Prepayment and other current assets decreased by ₱22.5 million or 53% from ₱42.2 million in 2017 to ₱19.7 million in 2018. The significant decrease mainly pertains to the amortization of real property tax which was paid in 2017 amounting to ₱29.6 million. This is partially offset by the down payments made for playing cards and operating equipment amounting to ₱7.1 million
5. The increase of ₱37.8 million of the Group's input VAT is the result of the current year services rendered to the Group and purchase of various supplies for operations.
6. Other noncurrent assets increased by ₱296.6 million or 204% from ₱145.7 million in 2017 to ₱442.3 million in 2018. The increase is mainly due to recognition of noncurrent portion of receivable arising from PTO related to gaming equipment amounting to ₱382.2 million which partially offset by the decrease in advances to contractors and suppliers and the amortization for operating equipment amounting to ₱85.6 million.
7. Accounts payable and other current liabilities increased by ₱243.3 million or 78% from ₱310.9 million in 2017 to ₱554.2 million in 2018. The increase is mainly attributed by the additional unpaid service fee for the year amounting to ₱41.3 million, unpaid gaming equipment amounting to ₱185.7 million and the remaining came from additional billings from contractors.
8. Retention payable decreased by 50.4% due to completion of the Group's projects during the year and payment of the Group amounting to ₱140.7 million.
9. Contract liabilities increased by ₱12.5 million as a result of the adoption of the new revenue recognition standard.
10. Loans payable decreased by ₱692.9 million or 20% from ₱3,479.4 million in 2017 to ₱2,786.5 million in 2018. The decrease is due to the payment of the principal amount amounting to ₱700.0 million and the accretion of interest amounting to ₱7.1 million.

11. Increase in deposit for future stock subscription increased by ₱1.0 billion or 97% from ₱1.1 billion to ₱2.1 billion in 2018 resulted from the additional cash provided by the shareholders in anticipation of the planned stock rights offering.

Discussion on Significant Change in Financial Condition as of December 31, 2017 and 2016

Total assets amounting to ₱6,949.0 million, increased by ₱257.6 million or 3.8% from ₱6,691.4 million in 2016.

1. For the year ended December 31, 2017, cash and cash equivalents amounting to ₱558.9 million, increased by ₱433.9 million or 347.1% from ₱125.0 million in 2016 due to the following:
 - a) In 2017, net cash flows used in operating activities amounted to ₱149.5 million, which resulted from the difference in revenue generated during the period amounting to ₱469.4 million, cash operating expense amounting to ₱532.6 million and changes in working capital of ₱86.3 million.

Cash operating expense in 2017 mainly pertains to utilities expenses (₱86.6 million), service fee (₱25.7 million), salaries and wages (₱52.3 million), gaming fees (₱48.1 million), security expenses (₱27.5 million), advertising and marketing (₱37.7 million), among others.
 - b) Cash flow used in investing activities amounting to ₱300.4 million comprise mainly of acquisition of property, plant and equipment amounting to ₱361.1 million for building improvements of the casino floor, and other non-gaming equipment purchases, partially offset by the application of advances amounting to ₱61.4 million and increase amounting to ₱0.7 million for purchases of uniforms and linens.
 - c) Net cash flows provided by financing activities amounted to ₱884.3 million comprise mainly of deposit for future stock subscription amounting to ₱1,086.1 million and payment of interest amounting to ₱201.8 million.
2. Receivable increased by ₱43.1 million from ₱137.9 million as of December 31, 2016 to ₱181.0 million as of December 31, 2017 primarily due to the increase in the receivable from PAGCOR amounting to ₱26.8 million as a result of the increase in share of the Group from the net gaming revenue. In 2017, PAGCOR reverted the provision for progressive jackpot increments to winnings which was previously recognized as deduction in the share in net gaming revenue. In addition, other trade receivable increased due to the increase in hotel bookings towards the end of the year and the increase in number of concessionaire and lessees.
3. Inventories amounting to ₱28.2 million is increased by ₱6.9 million or 32.4% from ₱21.3 million in 2016. The increase resulted from the acquisition of gaming cards, seals and dice used in gaming operation. This is in anticipation of the expansion of the gaming operation in 2018 as the Company is planning to open the third floor area of the casino.
4. Prepayment and other current assets amounting to ₱105.0 million, decreased by ₱19.5 million or by 15.7% from ₱124.5 million in 2016 due to the decrease in advances to contractors amounting to ₱61.4 million that were applied to the payment to contractors upon completion of the building. This was offset by the increase in the prepaid real property taxes of ₱29.6 million for 2018, increase in prepayments, creditable withholding taxes, and deposits of ₱4.1 million, ₱1.0 million, and ₱7.2 million, respectively.
5. Property and equipment amounting to ₱5,630.3 million is decreased by ₱123.7 million or by 2.1% from ₱5,754.0 million in 2016 primarily due to the full year recognition of depreciation of the building that was completed in December 2016.

6. Other noncurrent assets amounting to ₱83.0 million, decreased by ₱32.0 million or by 27.8% from ₱115.0 million in 2016 which primarily relates to the depreciation for operating equipment.

Total liabilities amounting to ₱5,180.2 million is increased by ₱1,047.1 million or by 25.3% from ₱4,133.1 million in 2016. The increase primarily relates to higher trade and accrued payables and deposit for future stock subscription.

Key Performance Indicators

The following are the comparative key performance indicators of the Group and the manner of its computation for the year ended:

Indicators	Manner of Computation	2018	2017
Current ratio	$\frac{\text{Current Assets}}{\text{Current Liabilities}}$	0.54:1	0.64:1
Debt-to-Equity Ratio	$\frac{\text{Total Liabilities}}{\text{Total Equity}}$	1.10:1	1.43:1
Asset-Liability Ratio	$\frac{\text{Total Assets}}{\text{Total Liabilities}}$	1.18:1	1.34:1
Return on Assets	$\frac{\text{Net Income (Loss)}}{\text{Total Assets}}$	(11%)	(11%)
Basic Earnings (Loss per share)	$\frac{\text{Net Income (Loss)}}{\text{Outstanding Common Shares}}$	(₱0.235)	(₱0.249)

Current ratio is regarded as a measure of the Group's liquidity or its ability to meet maturing obligations. For the year ended December 31, 2018, the current ratio is 0.54:1 compared to 0.64:1 of the prior year. The outstanding liabilities in 2018 mostly consist of balances of payables to contractors and suppliers for the services and/or goods provided for the Group's day-to-day operations; accruals pertaining to payroll, employee benefits, utilities, travel and transportation, meeting and conferences, security service fees, professional fees and others wherein billings/settlements thereof are expected to be provided/resolved in the next financial year; and the current portion of loans arrangement with local banks. The Group has ₱0.54 current assets to support every ₱1.00 of their current liabilities.

The debt to equity ratio measures the riskiness of the Group's capital structure in terms of relationship between funds supplied to creditors (debt) and investors (equity). For the year ended December 31, 2018, the debt to equity ratio has decreased by 0.33 from 1.43 of 2017 to 1.10 of 2018.

The asset-liability ratio, exhibits the relationship of the total assets of the Group with its total liabilities. For the year ended December 31, 2018, the asset-liability ratio is 1.18:1 from 1.34:1 as of that of December 31, 2017. The ratio indicates that the Group has ₱1.18 of assets to satisfy every ₱1.00 of liability to creditors/suppliers through asset facilitation. Moreover, the effect of high assets to liabilities ratio indicates that the Group can still take additional financing through credit arrangements with banks and financial institutions.

Return on assets allowed the Group to see how much income (loss) generates per peso asset. For the year ended December 31, 2018 and 2017, the return on assets is both negative 11%.

For the year ended December 31, 2018, the Group's loss per share amounts to ₱0.235 which decreased from ₱0.249 that of prior year.

There are no material off-balance sheet transactions, arrangements, obligations and other relationships of the Group with unconsolidated entities or other persons created during the reporting period.

Plans of Operation

MJC Investments Corporation (MJIC) is a publicly-listed company whose business focus is in the rapidly-growing tourism and entertainment industry. Listed in the Philippine Stock Exchange under the ticker symbol "MJIC", the company is majority-owned by a group of strategic investors with long and substantial experience in financial and tourism-related projects, with the Manila Jockey Club, Inc., a listed company, as the biggest single stockholder.

It owns and operates Winford Manila Resort and Casino, a luxury hotel, entertainment, and tourism complex located in Sta. Cruz, Manila, offering world-class accommodations within its 0.75-hectare property, an 18-storey high-rise development with 128 premium hotel rooms, high-end restaurants, a columnless, 600+ capacity ballroom, 800 parking spaces, and over 9,000 square meters of internationally designed indoor entertainment space regularly presenting Filipino singers and performers. Its three-floor gaming area has 28 tables and 441 slot machines and electronic table games as of April 2019. The cost of the hotel and entertainment complex is estimated at PHP8 Billion.

The Group has rapidly increased its operation. An additional floor gaming area was opened last April 2018. The expansion added more gaming tables and slot machine positions to accommodate the drastic increase of its clientele. Electronic table games were also added to increase game mix offerings on the casino floor. As of December 31, 2018, the gaming capacity was increased from 24 in 2017 to 28 gaming tables in 2018 and from 326 in 2017 to 416 slot machines in 2018. By the end of the year, the company aims to increase its gaming capacity from 28 to 40 tables and from 441 slot machines up to 600 machines. Electronic table games were also introduced to provide additional game mixture in the casino floor. The Group continuously increased their membership acquisition through their active casino marketing programs, continuous events and aggressive casino promotions. Marketing initiatives includes competitor membership card matching programs, points earning from gaming activities and redemption of acquired points with their increasing partner merchants. Also, the Group introduced monthly and quarterly bingo events which offers attractive prizes and rewards.

Non-gaming operations such as hotel, food and beverage, and banquets have also improved. The Group surpassed its last year's hotel revenue by strategically increasing its room rates and by constantly providing excellent customer service while maintaining cost efficient hotel operations. To further create awareness and generate revenue, the Group supported membership meetings of different travel associations; taps nearby schools, hospitals, establishments and companies with large databases; established merchant partnership program with known credit card companies; participates in various travel tour and business expo here and abroad; keeps its alliance with travel and tour agencies; activates booking engine in the Group's website and upkeeps strong relationship with Department of Tourism and Tourism Promotions Board to capture international market by supporting familiarization tours.

The Group is fully committed to provide all their guests with the best experience possible. The Group has received several awards from Expedia, Hotel.com, Orbitz and more, which shows that the Group's emphasis on excellence wasn't gone unnoticed by their guests and industry leaders.

The Group plans to raise additional fund through stock rights offering to partially pay its debt servicing requirements.

ITEM 7. FINANCIAL STATEMENTS

The consolidated financial statements and supplementary schedules listed in the accompanying Index to Financial Statements and Supplementary Schedules are filed as part of this annual report under Item 13.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

External Audit Fees and Services

The Group paid its external auditors the following fees in the past two years.

	Audit Fees (<i>with VAT</i>)
2018	P1,120,000.00
2017	P896,000.00

The audit committee approved the policies and procedures for the services. No other fees were paid to said auditors for other services. There were no disagreements with the SGV & Co. on any matter of accounting and financial disclosures.

PART III - CONTROL AND COMPENSATION INFORMATION

(up to present); Corporate Information and Compliance Officer, MJC Investments Corporation (up to present). He resides at 84 D. Tuason Street, B.F. Homes, Parañaque, 1718 Metro Manila.

(2) Significant Employees

There are no employees not included in the list of executive officers who are expected to provide significant contribution to the business.

(3) Family Relationships

Alfonso V.G. Reyno III is the son of Alfonso R. Reyno, Jr.

(4) Involvement in Certain Legal Proceedings

To the knowledge and/or information of the Corporation, the present members of the Board of Directors or the Executive Officers are not, presently, or during the last six (6) years, involved or have been involved in criminal, bankruptcy or insolvency investigations or proceedings.

ITEM 10. EXECUTIVE COMPENSATION

Information as to the aggregate compensation paid or accrued during the last two (2) years and estimated to be paid in the ensuing year to the Company's Chief Executive Officer (CEO), Vice President and Chief Finance Officer is presented below. Also included in the tabular presentation is the

compensation paid to or accrued for other officers. The stated annual salary includes the mandatory thirteenth (13th) month pay.

SUMMARY COMPENSATION TABLE (in thousand Php)

Name and Principal Position	Year	Salary	Bonus	Other Annual Compensation
The CEO and four most highly compensated Executive Officers: <ul style="list-style-type: none"> • CEO – Alfonso R. Reyno, Jr. • Vice President – Alfonso Victorio G. Reyno, III • Corporate Secretary – Ferdinand A. Domingo • Corporate Information and Compliance Officer – Lemuel M. Santos 	2019	10,865	-	-
	2018	10,865	-	-
	2017	10,865	-	-
			-	-
All other Executive Officers and Directors as a group unnamed	2019	22,592	-	-
	2018	21,143	-	-
	2017	11,617	-	-

All directors are entitled to per diem of ₱10,000.00 to ₱15,000.00 for their attendance at each meeting of the Board. Likewise, they are entitled to reimbursements of transportation, communication, and representation expenses in the amount of ₱3,000.00 for their attendance at every Board Meeting. The director's fees amounted to ₱680,000.00, ₱776,000.00, and ₱553,000.00 in 2018, 2017 and 2016 respectively.

The corporation has no standard arrangement with regard to the remuneration of its existing directors and officers aside from the compensation received as herein disclosed and stated.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(1). Security Ownership of Certain Record and Beneficial Owners

As of December 31, 2018, the following are the persons or groups known to the Corporation to be directly or indirectly the record and/or beneficial owner of more than 5% of the Corporation's voting securities:

Title of Class	Name, Address of Record Owner and Relationship with Issuer	Name of Beneficial Owner and Relationship with Record Owner	Citizenship	No. of Shares Held	Percent
Common	PCD Nominee Corporation 37F Tower 1, The Enterprise Center, 6766 Ayala Ave. cor. Paseo de Roxas, Makati City Stockholder	PCD Participants*	Filipino	2,284,228,597	71.96%

*PCD Nominee Corporation (“PCNC”) is a wholly owned subsidiary of Philippine Central Depository, Inc. (“PCD”) and is registered owner of the shares in the books of the Company’s transfer agent. PCD participants deposit eligible securities in PCD through a process of lodgment, where legal title to the securities is transferred and held in trust by PCNC. The participants of PCD are the beneficial owners of such shares.

(2). Security Ownership of Management

The table below shows the securities beneficially owned by all directors and executive officers of the Company as of December 31, 2018.

<u>Title of Class</u>	<u>Name of Beneficial Owner</u>	<u>Amount and Nature of Beneficial Ownership</u>	<u>Citizenship</u>	<u>Percent</u>
Common	Alfonso R. Reyno, Jr.	26,320,408 (Direct)	Filipino	0.83%
Common	Chai Seo Meng	1 (Direct)	Singaporean	Nil
Common	Alfonso Victorio G. Reyno III	1 (Direct)	Filipino	Nil
Common	John Anthony B. Espiritu	1 (Direct)	Filipino	Nil
Common	Gabriel A. Dee	1 (Direct)	Filipino	Nil
Common	Jose Alvaro D. Rubio	1 (Direct)	Filipino	Nil
Common	Walter L. Mactal	1 (Direct)	Filipino	Nil
Common	Jeffrey Rodrigo L. Evora	1 (Direct)	Filipino	Nil
Common	Dennis Ryan C. Uy	1 (Direct)	Filipino	Nil
Common	Laurito E. Serrano	1 (Direct)	Filipino	Nil
Common	Victor P. Lazatin	1 (Direct)	Filipino	Nil
Common	Ferdinand A. Domingo	240,022 (Direct)	Filipino	0.01%
Common	Lemuel M. Santos	1 (Direct)	Filipino	Nil

Directors and executive officers as a group hold a total of 26,560,441 common shares, equivalent to approximately 0.84% of the Company’s issued and outstanding capital stock.

(3). Voting Trust Holders of 5% or more

The Corporation is not aware of any voting trust or similar agreement involving persons who hold more than 5% of the Corporation’s securities.

(4). Changes in Control

There were no material changes in the control of the Corporation since the beginning of the Corporation's last calendar year.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Parties are considered to be related if one party has the ability, directly, or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

In the normal course of business, the Group has transactions and account balances with related parties as follows:

Entity	Relationship	Nature	2018		2017		Terms	Condition
			Amount	Receivable (Payable)	Amount	Receivable (Payable)		
Manila Jockey Club, Inc. (MJCI)	Stockholder	Deposit for future stock subscription (Note 18)	₱84,979,217	(₱237,233,646)	₱152,254,429	(₱152,254,429)	Noninterest-bearing	Unsecured, unguaranteed
		Advances ^(a) (Note 14)	—	(4,970,819)	—	(4,970,819)	Noninterest-bearing; due and demandable	Unsecured, unguaranteed
		Commission from the off-track betting ^(b) (Note 8)	167,932	371,013	293,962	304,099	Noninterest-bearing; due and demandable	Unsecured, unimpaired

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR ANNUAL INCOME TAX RETURN

The management of **MJC INVESTMENTS CORPORATION** Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino ("the Company") is responsible for all information and representations contained in the Annual Income Tax Return for the year ended December 31, 2018. Management is likewise responsible for all information and representations contained in the financial statements accompanying the (Annual Income Tax Return or Annual Information Return) covering the same reporting period. Furthermore, the Management is responsible for all information and representations contained in all the other tax returns filed for the reporting period, including, but not limited to the value added tax and/or percentage tax returns, withholding tax returns, documentary stamp tax returns, and any and all other returns.

In this regard, the Management affirms that the attached audited parent company financial statements for the year ended December 31, 2018 and the accompanying Annual Income Tax Return are in accordance with the books and records of **MJC INVESTMENTS CORPORATION** Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino, complete and correct in all material respects. Management likewise affirms that:

- (a) the Annual Income Tax Return has been prepared in accordance with the provisions of the National Internal Revenue Code, as amended, and pertinent tax regulations and other issuances of the Department of Finance and the Bureau of Internal Revenue;
- (b) any disparity of figures in the submitted reports arising from the preparation of financial statements pursuant to tax accounting rules has been reported as reconciling items and maintained in the Company's books and records in accordance with the requirements of Revenue Regulations No. 8-2007 and other relevant issuances;
- (c) **MJC INVESTMENTS CORPORATION** Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino has filed all applicable tax returns, reports and statements required to be filed under Philippine tax laws for the reporting period, and all taxes and other impositions shown thereon to be due and payable have been paid for the reporting period, except those contested in good faith.

Report on the Audit of the Parent Company Financial Statements

Opinion

We have audited the parent company financial statement of MJC INVESTMENTS CORPORATION [Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino] (Formerly MJC Investments Corporation) (the Company), which comprise the parent company statements of financial position as at December 31, 2018 and 2017, and the parent company statements of comprehensive income, parent company statements of changes in equity and parent company statements of cash flows for the years then ended, and notes to the parent company financial statement, including a summary of significant accounting policies.

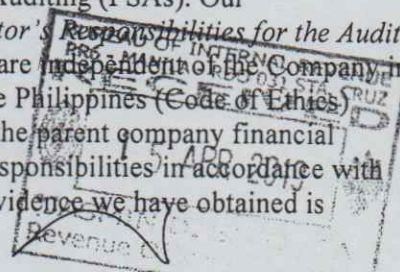

In our opinion, the accompanying parent company financial statement present fairly, in all material respects, the financial position of the Company as at December 31, 2018 and 2017, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Parent Company Financial Statement section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the parent company financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the parent company financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the parent company financial statements, including the disclosures, and whether the parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on the Supplementary Information Required Under Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the parent company financial statements taken as a whole. The supplementary information required under Revenue Regulations 15-2010 in Note 28 to the parent company financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the financial statements. Such information is the responsibility of the management of MJC INVESTMENTS CORPORATION [Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino] (Formerly MJC Investments Corporation). The information has been subjected to the auditing procedures applied in our audit of the financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditor's report is Adeline D. Lumbres.

MJC INVESTMENTS CORPORATION

Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino

(Formerly MJC Investments Corporation)

NOTES TO PARENT COMPANY FINANCIAL STATEMENTS

1. Corporate Information

MJC INVESTMENTS CORPORATION [Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino] (the Parent Company) is incorporated in the Philippines. The Parent Company was incorporated on July 15, 1955 as Palawan Consolidated Mining Company, Inc. and was listed in the Philippine Stock Exchange (PSE) on November 11, 1955. In 2005, the SEC approved the extension of the Parent Company's corporate life for another fifty (50) years starting July 2005.

The Parent Company's primary purpose is to acquire by purchase, lease or otherwise, lands or interest in lands and realty, and to own, hold, improve or develop said land or real estate so acquired, and to build or cause to be built on any lands owned, held, occupied or acquired, buildings, facilities, and other structures with their appurtenances, for residential, commercial, mixed-use, leisure, gaming, amusement and entertainment purposes.

The following are the series of changes in corporate name of the Parent Company and their effective dates of change as approved by the Philippine Securities and Exchange Commission (SEC):

Date	Corporate Name
February 12, 1997	Ebecom Holdings, Inc.
September 25, 2003	Aries Prime Resources, Inc.
September 30, 2008	MJCI Investments, Inc.
October 15, 2009	MJC Investments Corporation
June 29, 2015	MJC INVESTMENTS CORPORATION Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino

The registered office address of the Parent Company is Winford Hotel and Casino, MJC Drive, Sta. Cruz, Manila.

On March 18, 2010, the Parent Company was granted a permit to operate (PTO) by the Philippine Amusement and Gaming Corporation (PAGCOR) for the establishment, maintenance and operation of a casino, PAGCOR San Lazaro, within the San Lazaro Tourism and Business Park in Sta. Cruz, Manila. The permit shall be for a period of ten (10) years, commencing on January 6, 2016, the date of actual operation of PAGCOR San Lazaro. On November 25, 2015, PAGCOR extended the term of the PTO to fifteen (15) years commencing from the start of commercial operations of PAGCOR San Lazaro (see Note 2).

On April 21, 2016, the Parent Company incorporated its wholly owned subsidiary, TSLC, in the Philippines and registered it with the SEC. The authorized and subscribed capital stock of TSLC is ₱20.0 million with a par value of ₱1.00 per share. TSLC's primary purpose is to establish, engage, operate and manage, gaming enterprises, amusement, entertainment and recreation centers, as well as providing services including but not limited to business process outsourcing services to foreign clients, support solutions, such as back office technology support, call or contact center activities, data entry and encoding, data management, general human resource functions, business planning, accounts receivable management, general financial support services, customer support services and customer

relationship management, sales support and other industry specific purposes, and to companies and operations, and other clients, and to do any and all things necessary for or conducive to the attainment of such purposes, including, articles of merchandise necessary or desirable in its operations, the provision of professional, consulting and other related services, and the licensing of application, software and other solutions required or related to the above services. The principal place of business of TSLC is at Winford Hotel and Casino, MJC Drive, Sta. Cruz, Manila. On May 16, 2016, TSLC was granted the authority by PAGCOR to bring in pre-registered foreign players to play in designated junket gaming areas within PAGCOR San Lazaro (see Note 2).

Authorization for the Issuance of Parent Company Financial Statements

The parent company financial statements were approved and authorized for issuance by the Board of Directors (BOD) on April 3, 2019.

2. Agreements with PAGCOR

The following are the significant contracts entered by the Parent Company with PAGCOR:

a. PTO granted to the Parent Company

As discussed in Note 1 to the parent company financial statements, the Parent Company was granted a PTO by PAGCOR for the establishment, maintenance and operation of PAGCOR San Lazaro on March 18, 2010. The PTO shall be for a period of fifteen (15) years commencing on January 6, 2016, the date of actual operation of PAGCOR San Lazaro. Management has assessed that the Parent Company is the operator of PAGCOR San Lazaro, in accordance with the provisions of the PTO.

The agreement provides that while the Parent Company is in the process of forming its own management team and is cognizant of PAGCOR's expertise, experience and competence in gaming operations, the Parent Company requested PAGCOR to manage PAGCOR San Lazaro by giving PAGCOR an exclusive and direct control to supervise and manage PAGCOR San Lazaro's casino operations.

For the duration of the agreement, the Parent Company shall receive forty percent (40%) of PAGCOR San Lazaro's monthly gross gaming revenues after deducting the players' winnings/prizes, the taxes that may be imposed on these winnings/prizes, franchise tax, and applicable subsidies and rebates.

Upon revocation, termination or expiration of the PTO, the Parent Company undertakes to ship out of the Philippine territory, the gaming equipment and gaming paraphernalia in pursuance of Presidential Decree (P.D.) 519 and Letter of Instruction 1176 within 60 calendar days from the date of receipt or possession of the gaming equipment and gaming paraphernalia.

For income tax purposes, the Parent Company's revenue share in gaming operations is exempt from income tax in accordance with Section 13 of P.D. 1869, as amended, otherwise known as the "PAGCOR Charter". Under P.D. 1869, earnings derived from the operation of casinos shall be imposed a 5% franchise tax, in lieu of all kinds of taxes, levies, fees or assessments of any kind, nature or description, levied, established or collected by any municipal, provincial, or national government authority.

b. *Traditional Bingo Operation of the Parent Company*

On January 19, 2016, the Parent Company was granted by PAGCOR the right to operate a traditional bingo operation at Winford Hotel and Casino. The terms of the bingo operation shall be coterminous with the term of the PTO. Under the agreement, the Parent Company shall remit, on a monthly basis, to PAGCOR 15% of the total gross receipt from sale of bingo tickets and cards, including electronically stored bingo cards played through an electronic device, instant game tickets and bingo game variant cards (presented as "Gaming fees" under "Operating costs and expenses") (see Note 24).

The agreement provides, among others, that all capital and operating expenditure (including the prizes) related to the bingo operation shall be for the sole account of the Parent Company.

3. **Basis of Preparation and Statement of Compliance**

Basis of Preparation

The parent company financial statements are prepared using the historical cost basis. The parent company financial statements are presented in Philippine Peso (Peso or ₱), which is the Parent Company's functional and presentation currency. All amounts are rounded off to the nearest Peso, except when otherwise indicated.

Statement of Compliance

The parent company financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS). PFRS includes both standard titles PFRS and Philippine Accounting Standards (PAS), and Philippine Interpretations based on equivalent interpretations from International Financial Reporting Interpretations Committee (IFRIC) as issued by the Philippine Financial Reporting Standards Council (FRSC).

4. **Summary of Changes in Accounting Policies and Disclosures**

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except that the Parent Company has adopted the following new accounting pronouncements starting January 1, 2018:

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*

The amendments to PFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash-settled to equity-settled. Entities are required to apply the amendments to: (1) share-based payment transactions that are unvested or vested but unexercised as of January 1, 2018, (2) share-based payment transactions granted on or after January 1, 2018 and to (3) modifications of share-based payments that occurred on or after January 1, 2018. Retrospective application is permitted if elected for all three amendments and if it is possible to do so without hindsight.

These amendments have no impact on the parent company financial statements since the Parent Company has no share-based payment options.

• PFRS 9, *Financial Instruments*

PFRS 9, *Financial Instruments*, replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting.

The Parent Company chose not to restate comparative figures as permitted by the transitional provisions of PFRS 9, thereby resulting in the following impact:

- Comparative information for prior periods will not be restated. The classification and measurement requirements previously applied in accordance with PAS 39 and disclosures required in PFRS 7 will be retained for the comparative periods. Accordingly, the information presented for 2017 and 2016 does not reflect the requirements of PFRS 9.
- The Parent Company will disclose the accounting policies for both the current period and the comparative periods, one applying PFRS 9 beginning January 1, 2018 and one applying PAS 39 as of December 31, 2017.
- The difference between the previous carrying amount and the carrying amount at the beginning of the annual reporting period that includes the date of initial application will be recognized in the opening retained earnings or other component of equity, as applicable.
- As comparative information is not restated, the Parent Company is not required to provide a third statement of financial position at the beginning of the earliest comparative period presented.

As of January 1, 2018, the Parent Company has reviewed and assessed all of its existing financial assets. The table below illustrates the classification and measurement of financial assets and financial liabilities under PFRS 9 and PAS 39 at the date of initial application. The accounting policies adopted by the Parent Company in its evaluation of the classification and measurement categories under PFRS 9 are discussed in Note 6.

The following table reconciles the carrying amounts of financial assets, from their previous measurement category in accordance with PAS 39 to their new measurement categories upon transition to PFRS 9 on January 1, 2018:

Financial Assets	PAS 39		Reclassification	PFRS 9		
	Category	Amount		Expected Credit Loss (ECL)	Amount	Category
	Loans and					Amortized Cost
Cash in banks	Receivables (L&R)	P553,215,966	P-	P-	P553,215,966	(AC)
Receivables	L&R	233,826,414	-	-	233,826,414	AC
Trade		24,815,346	-	-	24,815,346	
Advances to related parties		53,664,747	-	-	53,664,747	
Receivable arising from PTO		45,019,839	-	-	45,019,839	
Nontrade		110,326,482	-	-	163,991,229	
Deposits	L&R	7,190,495	-	-	7,190,495	AC
Long-term deposit	L&R	6,161,000	-	-	6,161,000	AC
		P800,393,875	P-	P-	P800,393,875	

The Parent Company does not have financial assets and financial liabilities which had previously been designated at fair value through profit or loss (FVTPL) to reduce an accounting mismatch in accordance with PAS 39 which had been reclassified to AC or fair value through other comprehensive income (FVOCI) upon transition to PFRS 9.

The Parent Company does not have impairment allowance in 2017 measured in accordance with PAS 39 that needs to be reconciled to the opening impairment allowance determined in accordance with PFRS 9 as of January 1, 2018.

Under PFRS 9, the level of provision for credit and impairment losses has generally increased due to the incorporation of a more forward-looking approach in determining provisions. Further, since the implementation of PFRS 9, all financial assets except receivables and those measured at FVTPL are assessed for at least 12-month ECL and the population of financial assets to which the lifetime ECL applies is larger than the population for which there is objective evidence of impairment in accordance with PAS 39.

- Amendments to PFRS 4, *Applying PFRS 9 Financial Instruments with PFRS 4 Insurance Contracts*

The amendments address concerns arising from implementing PFRS 9, the new financial instruments standard before implementing the new insurance contracts standard. The amendments introduce two options for entities issuing insurance contracts: a temporary exemption from applying PFRS 9 and an overlay approach. The temporary exemption is first applied for reporting periods beginning on or after January 1, 2018. An entity may elect the overlay approach when it first applies PFRS 9 and apply that approach retrospectively to financial assets designated on transition to PFRS 9. The entity restates comparative information reflecting the overlay approach if, and only if, the entity restates comparative information when applying PFRS 9.

These amendments are not applicable to the Parent Company since none of the Parent Company's activities are predominantly connected with insurance or issue insurance contracts.

- PFRS 15, *Revenue from Contracts with Customers*

PFRS 15 supersedes PAS 11, *Construction Contracts*, PAS 18, *Revenue*, and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with its customers. PFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The five-step model is as follows:

1. Identify the contracts with a customer
2. Identify the performance obligations in the contract
3. Determine the transaction price
4. Allocate the transaction price to the performance obligations in the contract
5. Recognize revenue as the entity satisfies a performance obligation.

PFRS 15 requires entities to exercise judgment, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Parent Company adopted PFRS 15 using the modified retrospective method of adoption with the date of initial application of January 1, 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Parent Company elected to apply the standard to all contracts as at January 1, 2018. Therefore, the comparative information was not restated and were reported under PAS 18 and related Interpretations.

The Parent Company has concluded that it is acting as principal in all of its revenue arrangements because the Parent Company is the primary obligor who is responsible for providing the goods and services to the customers and the Parent Company bears the credit risk.

The impact of adopting PFRS 15 are disclosed in Note 5 to the parent company financial statements.

- Amendments to PAS 28, *Investments in Associates and Joint Ventures, Measuring an Associate or Joint Venture at Fair Value* (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)

The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. They also clarify that if an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which (a) the investment entity associate or joint venture is initially recognized; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. Retrospective application is required.

These amendments did not have any impact on the Parent Company's financial statements.

- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use. Retrospective application of the amendments is not required and is only permitted if this is possible without the use of hindsight.

These amendments did not have any impact on the Parent Company's financial statements.

- Philippine Interpretation IFRIC-22, *Foreign Currency Transactions and Advance Consideration*

The interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the nonmonetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the date of the transaction for each payment or receipt of advance consideration. Retrospective application of this interpretation is not required.

These amendments did not have any significant impact on the Parent Company's financial statements.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Parent Company does not expect that the future adoption of the said pronouncements will have a significant impact on its parent company financial statements. The Parent Company intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2019

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*

Under PFRS 9, a debt instrument can be measured at AC or at FVOCI, provided that the contractual cash flows represent solely payments of principal and interest (SPPI) on the principal amount outstanding (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to PFRS 9 clarify that a financial asset passes the SPPI criterion regardless of the event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. The amendments should be applied retrospectively and are effective from January 1, 2019, with earlier application permitted.

- PFRS 16, *Leases*

PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, *Leases*. The standard includes two recognition exemptions for lessees – leases of ‘low-value’ assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will also be required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PFRS 16 is substantially unchanged from today’s accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases: operating and finance leases.

PFRS 16 also requires lessees and lessors to make more extensive disclosures than under PAS 17.

A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard’s transition provisions permit certain reliefs.

As of December 31, 2018, the Parent Company does not have lease arrangement wherein the Parent Company is the lessee, therefore the Parent Company does not expect PFRS 16 to impact its parent company financial statements.

- Amendments to PAS 19, *Employee Benefits, Plan Amendment, Curtailment or Settlement*

The amendments to PAS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments specify that when a plan amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to:

- Determine current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined

benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event

- Determine net interest for the remainder of the period after the plan amendment, curtailment or settlement using: the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event; and the discount rate used to remeasure that net defined benefit liability (asset).

The amendments also clarify that an entity first determines any past service cost, or a gain or loss on settlement, without considering the effect of the asset ceiling. This amount is recognized in profit or loss. An entity then determines the effect of the asset ceiling after the plan amendment, curtailment or settlement. Any change in that effect, excluding amounts included in the net interest, is recognized in OCI.

The amendments apply to plan amendments, curtailments, or settlements occurring on or after the beginning of the first annual reporting period that begins on or after January 1, 2019, with early application permitted. These amendments will apply only to any future plan amendments, curtailments, or settlements of the Parent Company.

- Amendments to PAS 28, *Long-term Interests in Associates and Joint Ventures*

The amendments clarify that an entity applies PFRS 9 to long-term interests in an associate or joint venture to which the equity method is not applied but that, in substance, form part of the net investment in the associate or joint venture (long-term interests). This clarification is relevant because it implies that the ECL model in PFRS 9 applies to such long-term interests.

The amendments also clarified that, in applying PFRS 9, an entity does not take account of any losses of the associate or joint venture, or any impairment losses on the net investment, recognized as adjustments to the net investment in the associate or joint venture that arise from applying PAS 28, *Investments in Associates and Joint Ventures*.

The amendments should be applied retrospectively and are effective from January 1, 2019, with early application permitted. Since the Parent Company does not have such long-term interests in its associate and joint venture, the amendments will not have an impact on its parent company financial statements.

- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*

The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12, *Income Taxes*, and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

The interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

The Parent Company is currently assessing the impact of adopting this interpretation.

Annual Improvements to PFRSs 2015-2017 Cycle

- Amendments to PFRS 3, *Business Combinations*, and PFRS 11, *Joint Arrangements, Previously Held Interest in a Joint Operation*

The amendments clarify that, when an entity obtains control of a business that is a joint operation, it applies the requirements for a business combination achieved in stages, including remeasuring previously held interests in the assets and liabilities of the joint operation at fair value. In doing so, the acquirer remeasures its entire previously held interest in the joint operation.

A party that participates in, but does not have joint control of, a joint operation might obtain joint control of the joint operation in which the activity of the joint operation constitutes a business as defined in PFRS 3. The amendments clarify that the previously held interests in that joint operation are not remeasured.

An entity applies those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2019 and to transactions in which it obtains joint control on or after the beginning of the first annual reporting period beginning on or after January 1, 2019, with early application permitted.

These amendments are currently not applicable to the Parent Company but may apply to future transactions.

- Amendments to PAS 12, *Income Tax Consequences of Payments on Financial Instruments Classified as Equity*

The amendments clarify that the income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity recognizes the income tax consequences of dividends in profit or loss, OCI or equity according to where the entity originally recognized those past transactions or events.

An entity applies those amendments for annual reporting periods beginning on or after January 1, 2019, with early application is permitted. These amendments are not relevant to the Parent Company because dividends declared by the Parent Company do not give rise to tax obligations under the current tax laws.

- Amendments to PAS 23, *Borrowing Costs, Borrowing Costs Eligible for Capitalization*

The amendments clarify that an entity treats as part of general borrowings any borrowing originally made to develop a qualifying asset when substantially all of the activities necessary to prepare that asset for its intended use or sale are complete.

An entity applies those amendments to borrowing costs incurred on or after the beginning of the annual reporting period in which the entity first applies those amendments. An entity applies those

amendments for annual reporting periods beginning on or after January 1, 2019, with early application permitted.

These amendments are currently not applicable to the Parent Company but may apply to future transactions.

Effective beginning on or after January 1, 2020

- Amendments to PFRS 3, *Definition of a Business*

The amendments to PFRS 3 clarify the minimum requirements to be a business, remove the assessment of a market participant's ability to replace missing elements, and narrow the definition of outputs. The amendments also add guidance to assess whether an acquired process is substantive and add illustrative examples. An optional fair value concentration test is introduced which permits a simplified assessment of whether an acquired set of activities and assets is not a business.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

These amendments will apply on future business combinations of the Parent Company.

- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

The amendments refine the definition of material in PAS 1 and align the definitions used across PFRSs and other pronouncements. They are intended to improve the understanding of the existing requirements rather than to significantly impact an entity's materiality judgments.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

Effective beginning on or after January 1, 2021

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

PFRS 17 is effective for reporting periods beginning on or after January 1, 2021, with comparative figures required. Early application is permitted.

PFRS 17 is not expected to impact the financial statements of the Parent Company.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the FRSC deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

5. Effect of Adoption of PFRS 15 and Other Adjustments

As of January 1, 2018, the Parent Company adopted PFRS 15 using the modified retrospective method of adoption. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Parent Company elected to apply the standard to all contracts as at January 1, 2018. Therefore, the comparative information were not restated and were reported under PAS 18 and related interpretations. In addition, adjustments related to the accounting for the gaming equipment were adjusted to the opening deficit. The impact of these adjustments on the prior year financial statements were not material, thus, comparative information were not restated.

The nature of the adjustments as at January 1, 2018 and the reasons for the significant changes in the parent company statement of financial position as at December 31, 2018 and the parent company statement of comprehensive income for the year ended December 31, 2018 are described below:

- (a) Hotel, food and beverage are recognized when services are performed or the goods are sold. The Parent Company offers promos or package deal to customers to avail of their hotel rooms. These promos or package deal typically include hotel room services, complimentary breakfast, use of function room services and catering services. The Parent Company applies a practical expedient by accounting for its hotel, food and beverage transactions on a portfolio basis versus an individual basis as all transactions have similar characteristics.

Upon adoption of PFRS 15, for hotel room transactions that include complimentary breakfast, use of function room services and catering services provided by the Parent Company, the Parent Company allocates the standalone selling price of each good or service to the appropriate revenue type based on the good or service provided. The transaction price is the net amount collected from customers for such goods and services and is recorded when the goods are provided or services are performed. Revenue from contracts with multiple goods or services are allocated to each good or service based on its relative standalone selling price.

- (b) The Parent Company has noncash transactions with various advertising service providers in which the Parent Company offers voucher that covers function rooms usage, hotel rooms and catering services in exchange for advertising services. The vouchers have no expiration and is

not convertible to cash. The Parent Company applies a practical expedient by accounting for noncash transactions on a portfolio basis versus an individual basis as all transactions have similar characteristics.

Upon adoption of PFRS 15, transactions with noncash considerations with various advertising service providers are recorded as prepayments for advertising services received and contract liability for the Parent Company's obligations to provide goods or services to be performed in the future. The transaction price is the fair value of advertising services less considerations paid. The Parent Company records revenue when the goods are provided or services are performed.

- (c) There may be a difference between the timing of cash receipts from the customer and the recognition of revenue, resulting in a contract related-liability. The Parent Company generally has two types of liabilities related to contracts with customers: (1) advance payments on hotel rooms and banquet events, and (2) pre-selling of bingo cards for monthly/quarterly event. The Parent Company applies for practical expedient for advance payments received. The Parent Company will not adjust the amount of consideration for the effect of financing component in contracts since the period between the time the customer pays for the good or service and when the Parent Company transfers that promised good or service to the customer will be one year or less.

Upon adoption of PFRS 15, the Parent Company records the advance payments received as contract liability. The transaction price is the amount collected in advance from customers for good or service to be provided in the future. The Parent Company records revenue when the goods are provided or services are performed.

- (d) The Parent Company charged its customers service charge for hotel room accommodation and sale of food and beverage. The Parent Company distributed 85% of the total collected service charge to its employees. The 15% is used to cover for breakages incurred by the hotel and is retained under "Accounts payable and other current liabilities".

Under PFRS 15, revenue is measured at the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer and should exclude amounts collected on behalf of third parties.

- (e) For accounting purposes, the Parent Company accounted for the use of gaming equipment as finance lease. The Parent Company derecognized its gaming equipment and recorded a receivable arising from PTO related to gaming equipment.

6. Summary of Significant Accounting and Financial Reporting Policies, Significant Accounting Judgments, Estimates and Assumptions

Current versus Noncurrent Classification

The Parent Company presents assets and liabilities in the parent company statements of financial position based on current or noncurrent classification.

An asset is current when it is:

- expected to be realized or intended to be sold or consumed in the normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or

- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when:

- it is expected to be settled in the normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Parent Company classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

Fair Value Measurement

The Parent Company measures financial instruments at each reporting date. Additional fair value related disclosures including fair values of financial instruments measured at AC are disclosed in Note 26.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Parent Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Parent Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the parent company financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Parent Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Financial Instruments - Classification and Measurement (applicable starting January 1, 2018 upon the adoption of PFRS 9)

Classification of financial assets

Financial assets are classified in their entirety based on the contractual cash flows characteristics of the financial assets and the Parent Company's business model for managing the financial assets. The Parent Company classifies its financial assets into the following measurement categories:

- financial assets measured at AC
- financial assets measured at FVTPL
- financial assets measured at FVOCI, where cumulative gains or losses previously recognized are reclassified to profit or loss
- financial assets measured at FVOCI, where cumulative gains or losses previously recognized are not reclassified to profit or loss

Contractual Cash Flows Characteristics

If the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, the Parent Company assesses whether the cash flows from the financial asset represent SPPI on the principal amount outstanding.

In making this assessment, the Parent Company determines whether the contractual cash flows are consistent with a basic lending arrangement, i.e., interest includes consideration only for the time value of money, credit risk and other basic lending risks and costs associated with holding the financial asset for a particular period of time. In addition, interest can include a profit margin that is consistent with a basic lending arrangement. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual terms that introduce exposure to risks or volatility in the contractual cash flows that is unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI on the principal amount outstanding.

Business Model

The Parent Company's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Parent Company's business model does not depend on management's intentions for an individual instrument.

The Parent Company's business model refers to how it manages its financial assets in order to generate cash flows. The Parent Company's business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both. Relevant factors considered by the Parent Company in determining the business model for a group of financial assets include how the performance of the business model and the financial assets held within that business model are evaluated and reported to the Parent Company's key management personnel, the risks that affect the performance of the business model (and the financial assets held within that business model) and how these risks are managed and how managers of the business are compensated.

Financial assets at AC

A financial asset is measured at amortized cost if (i) it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and (ii) the contractual terms of the

financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding. Financial assets at AC are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Parent Company's financial assets at AC include cash in banks, receivables, deposits and long-term deposits.

Financial assets at FVTPL

Financial assets at FVTPL are measured at fair value unless these are measured at AC or at FVOCI. Included in this classification are equity investments held for trading and debt instruments with contractual terms that do not represent SPPI. Financial assets held at FVTPL are initially recognized at fair value, with transaction costs recognized in the parent company statements of comprehensive income as incurred. Subsequently, they are measured at fair value and any gains or losses are recognized in the parent company statements of comprehensive income.

Additionally, even if the asset meets the AC or the FVOCI criteria, the Parent Company may choose at initial recognition to designate the financial asset at FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency (an accounting mismatch) that would otherwise arise from measuring financial assets on a different basis.

Trading gains or losses are calculated based on the results arising from trading activities of the Parent Company, including all gains and losses from changes in fair value for financial assets and financial liabilities at FVTPL, and the gains or losses from disposal of financial investments.

As of December 31, 2018, the Parent Company does not have financial assets at FVTPL.

Financial assets at FVOCI

Debt Instruments

A debt financial asset is measured at FVOCI if (i) it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and (ii) its contractual terms give rise on specified dates to cash flows that are SPPI on the principal amount outstanding. These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest income and foreign exchange gains and losses are recognized in profit and loss until the financial asset is derecognized. Upon derecognition, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. This reflects the gain or loss that would have been recognized in profit or loss upon derecognition if the financial asset had been measured at amortized cost. Impairment is measured based on the ECL model.

As of December 31, 2018, the Parent Company does not have debt instruments at FVOCI.

Equity instruments

The Parent Company may also make an irrevocable election to measure at FVOCI on initial recognition investments in equity instruments that are neither held for trading nor contingent consideration recognized in a business combination in accordance with PFRS 3. Amounts recognized in OCI are not subsequently transferred to profit or loss. However, the Parent Company may transfer the cumulative gain or loss within equity. Dividends on such investments are recognized in profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment.

As of December 31, 2018, the Parent Company does not have equity instruments at FVOCI.

Classification of financial liabilities

Financial liabilities are measured at AC, except for the following:

- financial liabilities measured at FVTPL;
- financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the Parent Company retains continuing involvement;
- financial guarantee contracts;
- commitments to provide a loan at a below-market interest rate; and
- contingent consideration recognized by an acquirer in accordance with PFRS 3.

A financial liability may be designated at FVTPL if it eliminates or significantly reduces a measurement or recognition inconsistency (an accounting mismatch) or:

- if a host contract contains one or more embedded derivatives; or
- if a group of financial liabilities or financial assets and liabilities is managed and its performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

Where a financial liability is designated at FVTPL, the movement in fair value attributable to changes in the Parent Company's own credit quality is calculated by determining the changes in credit spreads above observable market interest rates and is presented separately in other comprehensive income.

Reclassifications of Financial Instruments (applicable starting January 1, 2018 upon the adoption of PFRS 9)

The Parent Company reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. Reclassifications shall be applied prospectively by the Parent Company and any previously recognized gains, losses or interest shall not be restated. The Parent Company does not reclassify its financial liabilities.

Impairment of Financial Assets (applicable starting January 1, 2018 upon the adoption of PFRS 9)

PFRS 9 introduces a single, forward-looking "expected loss" impairment model, replacing the "incurred loss" impairment model under PAS 39.

No ECL is recognized for the Parent Company's financial assets at AC.

ECLs are measured in a way that reflects the following:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial assets migrate through the following three stages based on the change in credit quality since initial recognition:

Stage 1: 12-month ECL

For credit exposures where there have not been significant increases in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of lifetime ECLs that represent the ECLs that result from default events that are possible within the 12-months after the reporting date are recognized.

Stage 2: Lifetime ECL - not credit-impaired

For credit exposures where there have been significant increases in credit risk since initial recognition on an individual or collective basis but are not credit-impaired, lifetime ECLs representing the ECLs that result from all possible default events over the expected life of the financial asset are recognized.

Stage 3: Lifetime ECL - credit-impaired

Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of those financial assets have occurred. For these credit exposures, lifetime ECLs are recognized and interest revenue is calculated by applying the credit-adjusted EIR to the amortized cost of the financial asset.

Loss Allowance

For cash in banks, the Parent Company applies a general approach in calculating ECLs. The Parent Company recognizes a loss allowance based on either 12-month ECL or lifetime ECL, depending on whether there has been a significant increase in credit risk on its cash since initial recognition.

For receivables, deposits and long-term deposits, the Parent Company applies a simplified approach in calculating ECLs. Therefore, the Parent Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Parent Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Parent Company considers a financial asset in default when contractual payments are 120 days past due. However, in certain cases, the Parent Company may also consider a financial asset to be in default when internal or external information indicates that the Parent Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Parent Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Write-off Policy

The Parent Company writes-off a financial asset, in whole or in part, when the asset is considered uncollectible, it has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

Financial Assets and Liabilities (prior to adoption of PFRS 9)

Date of Recognition

The Parent Company recognizes a financial asset or a financial liability in the parent company statements of financial position when it becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, are done using trade date accounting.

Initial and Subsequent Recognition of Financial Instruments

Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those at fair value through profit or loss, includes transaction cost.

The Parent Company classifies its financial assets in the following categories: financial assets at FVTPL, L&R, held-to-maturity investments and available-for-sale financial assets. Financial liabilities are classified as financial liabilities at FVTPL or other financial liabilities. The classification depends on the purpose for which the instruments were acquired or liabilities incurred and whether they are quoted in an active market. Management determines the classification at initial recognition and, where allowed and appropriate, re-evaluates this classification at every balance sheet date. The

Parent Company has no financial assets or liabilities at FVTPL, held-to-maturity investments and available-for-sale financial assets as of December 31, 2017.

Determination of Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either i) in the principal market for the asset or liability; or ii) in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Parent Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The Parent Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

"Day 1" Profit

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable markets, the Parent Company recognizes the difference between the transaction price and fair value (a "Day 1" profit) in the parent company statements of comprehensive income unless it qualifies for recognition as some other type of asset. In cases where unobservable data is used, the difference between the transaction price and model value is only recognized in the parent company statements of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Parent Company determines the appropriate method of recognizing the "Day 1" profit amount.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. After initial measurement, loans and receivables are subsequently carried at amortized cost using the effective interest method, less any allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and includes fees and costs that are an integral part of the effective interest. Gains and losses are recognized in the parent company statements of comprehensive income when the L&R are derecognized or impaired, as well as through the amortization process. Loans and receivables are included in current assets if maturity is within 12 months from the balance sheet date, otherwise, these are classified as noncurrent assets.

This category includes cash in banks, receivables, deposits and long-term deposits.

Other Financial Liabilities

This category pertains to financial liabilities that are not held for trading or not designated as at fair value through profit or loss upon the inception of the liability. These include liabilities arising from operations and loans and borrowings.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the parent company statements of comprehensive income when the liabilities are derecognized, as well as through the amortization process. Other financial liabilities are included in current liabilities if maturity is within 12 months from the balance sheet date, otherwise, these are classified as noncurrent liabilities.

This category includes accounts payable and other current liabilities (excluding "withholding taxes payable"), retention payable, interest payable and loans payable.

Impairment of Financial Assets

The Parent Company assesses, at each balance sheet date, whether there is any objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Objective evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Assets Carried at AC

If there is objective evidence that an impairment loss on loans and receivables carried at AC has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original EIR. The carrying amount of the asset shall be reduced either directly or through the use of an allowance account. The amount of loss shall be charged to current operations. Interest income continues to be accrued on the reduced carrying amount based on the original EIR of the asset. Loans and receivables together with the associated allowance are written off at each balance sheet date when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Parent Company. The Parent Company first assesses whether an objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the parent company statements of comprehensive income to the extent that the carrying value of the asset does not exceed its AC at the reversal date.

Derecognition of Financial Assets and Liabilities

Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Parent Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Parent Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Parent Company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Parent Company's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Parent Company could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged, canceled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the parent company statements of comprehensive income.

Offsetting of Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the parent company statement of financial position if, and only if, there is currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Parent Company assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Parent Company and all of the counterparties.

Cash

Cash in the parent company statements of financial position comprises of cash on hand and cash in banks.

Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Costs incurred in bringing each product to its present location and condition are accounted for using the first-in/first-out basis. NRV is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

Prepayments

Prepayments are carried at cost and are amortized on a straight-line basis, over the period of intended usage, which is equal to or less than 12 months of within the normal operating cycle.

Advances to Contractors and Suppliers

Advances to contractors and suppliers are noninterest-bearing down payments which are applied against final billings by the contractors and suppliers. Advances to contractors and suppliers are presented under "Other noncurrent assets" in the parent company statements of financial position.

Creditable Withholding Taxes (CWT)

CWT represents the amount of tax withheld by counterparties from the Parent Company. These are recognized upon collection and are utilized as tax credits against income tax due as allowed by the Philippine taxation laws and regulations. CWT is presented under "Prepayment and other current assets" in the parent company statements of financial position. CWT is stated at its estimated NRV.

Property and Equipment

Property and equipment, except land, are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of equipment are required to be replaced at intervals, the Parent Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the parent company statements of comprehensive income as incurred and is stated at cost less accumulated impairment losses.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Building	30 years
Machinery	10 years
Gaming equipment	8 years
Non-gaming equipment	5 years
Kitchen and bar equipment, computer software and hardware	3 years

The residual values, useful lives and methods of depreciation of property and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the parent company statements of comprehensive income when the asset is derecognized.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Operating Equipment

Operating equipment (shown as part of "Other noncurrent assets") includes linens uniforms, and utensils, which are carried at cost. Bulk purchases of items of operating equipment with expected usage period of beyond one year are classified as noncurrent assets and are amortized over three years.

Impairment of Non-Financial Assets

The Parent Company assesses, at each reporting date, whether there is an indication that the non-financial assets may be impaired or whether there is an indication that a previously recognized impairment loss may no longer exist or may have decreased. If such indications exist, the Parent Company makes an estimate of the asset's recoverable amount. An assets' recoverable amount is the higher of the assets' or cash generating unit's fair value less costs to sell and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In cases where the impairment loss no longer exists or

may have decreased due to a change in estimates, the carrying amount of an asset is increased to its recoverable amount to the extent that the amount cannot exceed the carrying amount, net of depreciation or amortization, had no impairment loss been recognized in prior years. Impairment loss or its reversal is recognized in the parent company statements of comprehensive income in those expense categories consistent with the function of the impaired asset.

Contract Liabilities (applicable starting January 1, 2018 upon the adoption of PFRS 15)

A contract liability is the obligation to transfer goods or services to a customer for which the Parent Company has received consideration (or an amount of consideration is due) from customer. If a customer pays consideration before the Parent Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Parent Company performs the obligation under the contract.

Contract liabilities include payments received by the Parent Company from the customers for which revenue recognition has not yet commenced. Accordingly, deposits by hotel, banquet customers, advance collection for purchase of bingo cards, services received from customers, and lessees are recorded as contract liabilities until services or goods are provided or sold to the customers.

Retention Payable

Retention payable represents the portion of contractor billings which will be paid upon satisfaction by the contractors of the conditions specified in the contracts or until the defects have been corrected.

Deposit for Future Stock Subscription

Deposit for future stock subscription represents amounts received that will be applied as payment in exchange for a fixed number of the Parent Company's own equity instruments, and presented in the noncurrent liabilities section of the parent company statements of financial position. These are measured at cost and are reclassified to capital stock upon issuance of shares.

In accordance with Financial Reporting Bulletin (FRB) No. 6 issued by the SEC, the following elements should be present as of the reporting date in order for the deposits for future stock subscriptions to qualify as equity:

- The unissued authorized capital stock of the entity is insufficient to cover the amount of shares indicated in the contract;
- There is a BOD approval on the proposed increase in authorized capital stock (for which a deposit was received by the corporation);
- There is stockholders' approval of said proposed increase; and
- The application for the approval of the proposed increase has been presented for filing or filed with the Commission.

If any or all of the foregoing elements are not present, the transaction should be recognized as a liability.

Capital Stock

Capital stock is measured at par value for all shares issued. When the Parent Company issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued. Incremental costs incurred that are directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Deficit

Deficit pertains to accumulated gains and losses, and may also include effect of changes in accounting policies as may be required by the standards' transitional provisions.

Revenue Recognition (applicable for both periods presented)

Revenue Share in Gaming Operations

Revenue share in gaming operations represents a certain percentage share of gross winnings after deducting the players' winnings/prizes, franchise tax and applicable subsidies and rebates. The revenue share in gaming operations comprise of the revenue from allowing PAGCOR to use the Parent Company's gaming facilities and gaming equipment.

Rental Income

Rental revenue from the leasing of certain areas of the hotel held under operating lease are recognized on a straight-line basis over the periods of the respective leases.

Other Revenue

Other revenue consists of tobacco sales, laundry services, parking fees, charges for utilities consumed by lessee and income from junket operations.

Interest Income

Interest income is recognized as it accrues on a time proportion basis taking into account the principal amount outstanding and the EIR. Interest income represents interest earned from cash and advances to related parties.

Loyalty Program Points

The Parent Company operates loyalty program to encourage repeat business mainly from loyal slot machine customers and table game patrons. Members earn points primarily based on gaming activities and such points can be redeemed for goods and services. The loyalty points give rise to a separate performance obligation as they provide a material right to the customer. The Parent Company's customer is able to use the points as a currency (i.e., currency value has been fixed and can no longer be changed by the Parent Company). A portion of the transaction price is allocated to the loyalty points awarded to customers based on relative stand-alone selling price and recognized as a financial liability until the points are redeemed.

Revenue Recognition (applicable starting January 1, 2018 upon the adoption of PFRS 15)

The Parent Company's revenue from contracts with customers primarily consist of hotel accommodation services, food and beverage, bingo services and other revenue. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Parent Company expects to be entitled in exchange for those goods or services. The Parent Company has generally concluded that it is the principal in its revenue arrangements.

Revenue from Contracts with Customer

Revenue from Hotel

Revenue from hotel is recognized over time as the service is rendered to the customer, generally when the hotel services are performed. Deposits received from customers in advance on rooms are recorded under "Contract liabilities" until services are provided to the customers.

Revenue from Food and Beverage

Revenue from food and beverage is recognized at point in time when the control of the goods is transferred to the customer, generally when the goods are delivered.

Revenue from, Bingo Operations

Revenue from bingo operations represents net sales from the conduct of bingo operations. Net sales is defined as the total gross receipts from sale of bingo tickets and cards and daubers less prizes/winnings. Revenue is recognized at point in time upon the conduct of the bingo operations.

Revenue Recognition (applicable until December 31, 2017 prior to the adoption of PFRS 15)

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Parent Company and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The Parent Company assesses its revenue arrangements against specific criteria to determine whether it is acting as principal or agent.

The specific recognition criteria described below must also be met before revenue is recognized.

Hotel, Food and Beverage

Hotel, food and beverage are recognized when services are performed or the goods are sold. Deposits received from customers in advance on rooms are recorded under "Accounts payable and other current liabilities" until services are provided to the customers.

Revenue from Bingo Operations

Revenue from bingo operations represents net sales from the conduct of bingo operations. Net sales is defined as the total gross receipts from sale of bingo tickets and cards and daubers less prizes/winnings.

Operating Costs and Expenses

Costs and expenses are recognized in the parent company statements of comprehensive income upon utilization of the service or at the date they are incurred.

Gaming Fees

As a grantee of PAGCOR, the Parent Company is required to pay PAGCOR a percentage of its gross receipts from bingo operations. These fees are recorded as part of "Gaming fees" under "Operating costs and expenses".

Income Tax

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Parent Company operates and generates taxable income.

Current income tax relating to items recognized directly in equity is recognized in equity and not in the parent company statements comprehensive income. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income (OCI) or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if and only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Retirement Benefits Cost

The Parent Company does not have an established retirement plan and only conform with Republic Act (RA) 7641, Retirement Pay Law, which is a defined benefit type.

The cost of providing benefits under the defined benefit plans is determined separately for each plan using the projected unit credit actuarial valuation method. Projected unit credit method reflects services rendered by employees to the date of valuation and incorporates assumptions concerning employees' projected salaries.

Defined benefit costs comprise service cost, net interest on the net defined benefit liability or asset and re-measurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Re-measurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Re-measurements are not reclassified to profit or loss in subsequent periods.

Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that asset is or those assets are not explicitly specified in an arrangement.

Parent Company as a Lessee

Lease where the Parent Company retains substantially all the risks and benefits of ownership of the assets are classified as operating leases. Operating lease payments are charged against profit or loss.

Parent Company as a Lessor - Operating lease

Lease in which the Parent Company does not transfer substantially all the risks and benefits of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized as an expense over the lease term on the same basis as the lease income. Contingent rents are recognized as revenue in the period in which they are earned.

Parent Company as a Lessor - Finance lease

Lease in which the Parent Company transfers substantially all the risks and benefits of ownership of the assets are classified as finance lease. Lease collections are apportioned between the finance income and the reduction of the outstanding receivable so as to achieve a constant periodic rate of interest on the remaining balance of the receivable for each period. Finance income are charged directly against profit or loss. A combination of the following would normally lead to a lease being classified as finance lease:

- a. ownership of the asset to the lessee by the end of the lease term.
- b. the lessee has the option to purchase the asset at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable for it to be reasonably certain, at the inception of the lease, that the option will be exercised.
- c. the lease term is for the major part of the economic life of the asset even if title is not transferred.
- d. at the inception of the lease the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset.
- e. the leased assets are of such a specialized nature that only the lessee can use them without major modifications.

VAT

Revenues, expenses, and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the parent company statements of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the parent company statements of financial position to the extent of the recoverable amount.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of the "Input VAT," "Deferred input VAT," or "Accounts payables and other current liabilities" in the parent company statements of financial position.

Provisions

Provisions are recognized when the Parent Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Parent Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the parent company statements of comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Earnings (Loss) Per Share

Earnings (loss) per share is computed by dividing net income (loss) for the year by the weighted average number of shares outstanding during the year adjusted to give retroactive effect to any stock dividends declared during the year.

Basic earnings (loss) per share is calculated by dividing net income (loss) for the year by the weighted average number of shares outstanding during the year.

Diluted earnings (loss) per share is computed by dividing net income (loss) for the year by the weighted average number of shares taking into account the effects of all potential dilutive common shares.

Segment Reporting

For management purposes, the Parent Company is organized and managed separately according to the nature of the business. These operating businesses are the basis upon which the Parent Company reports its segment information presented in Note 25.

An operating segment is a component of an entity:

- a. that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- b. with operating results regularly reviewed by the entity's chief of operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance; and
- c. for which discrete financial information is available.

Significant Accounting Judgments, Estimates and Assumptions

The preparation of the parent company financial statements in accordance with PFRS requires the Parent Company to make estimates and assumptions that affect the amounts reported in the parent company financial statements and accompanying notes. The judgments, estimates and assumptions used are based on management's evaluation of relevant facts and circumstances as of the date of the parent company financial statements. Actual results could differ from the estimates and assumptions used. The effects of any change in estimates or assumptions are reflected in the parent company financial statements when these become reasonably determinable.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Parent Company's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on amounts recognized in the parent company financial statements.

Evaluating Lease Commitments (see Note 17)

The evaluation of whether an arrangement contains a lease is based on its substance. An arrangement is, or contains, a lease when the fulfilment of the arrangement depends on a specific asset or assets and the arrangement conveys a right to use the asset.

Parent Company as the Lessor - Operating Lease Commitments

The Parent Company has entered into various operating lease agreements as a lessor. The Parent Company has determined that it has retained substantially all the risks and benefits of ownership of the assets. The ownership of the asset is not transferred to the lessee by the end of the lease term, the lessee has no option to purchase the asset at a price that is expected to be sufficiently lower than the fair value at the date the option is exercisable, and, the lease term is not for the major part of the asset's economic life. Accordingly, the lease is accounted for as an operating lease.

Parent Company as the Lessor - Finance Lease Commitments

The Parent Company has entered into agreements with PAGCOR involving its gaming equipment. The Parent Company has determined that the lease term is for the major part of the asset's economic life. In calculating the present value of the minimum lease payments to measure the finance lease receivable at initial recognition, the discount factor used is the interest rate implicit in the lease, when it is practicable to determine it; otherwise, the lessee's incremental borrowing rate is used. Initial direct costs incurred, if any, are included as part of the asset.

Revenue from Contracts with Customers (applicable starting January 1, 2018 upon adoption of PFRS 15)

The Parent Company applied the following judgments that significantly affect the determination of the amount and timing of revenue from contracts with customers:

- *Identifying of contracts with customers under PFRS 15*
The Parent Company applied PFRS 15 guidance to a portfolio of contracts with similar characteristics as the Parent Company reasonably expects that the effects on the parent company financial statements of applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts within that portfolio.
- *Identifying performance obligations*
The Parent Company provides hotel services, food and beverage sales, bingo services and other sales and services to its customers. The Parent Company has determined that each of the services are capable of being distinct.

Recognition of Deferred Tax Assets

The Parent Company makes an estimate and judgment of its future taxable income and reviews the carrying amount of the deferred tax assets at each reporting date.

From its hotel operations as of December 31, 2018 and 2017, no deferred tax assets were recognized as management believes that the Parent Company may not have sufficient future taxable income against which the deferred tax asset may be applied (see Note 19).

From the casino operations, no deferred tax assets will be recognized since the Parent Company's income from casino operations is exempt from income tax in accordance with Section 13 of P.D. 1869, as amended (see Note 2).

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial years are discussed below.

Definition of Default and Credit-Impaired Financial Assets (applicable starting January 1, 2018 upon adoption of PFRS 9)

Upon adoption of PFRS 9, the Parent Company defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

- *Quantitative Criteria*
The borrower is more than 120 days past due on its contractual payments, which is consistent with the Parent Company's definition of default.
- *Qualitative Criteria*
The borrower meets unlikeliness to pay criteria, which indicates the borrower is in significant financial difficulty. These are instances where:
 - a) The borrower is experiencing financial difficulty or is insolvent;
 - b) The borrower is in breach of financial covenant(s);
 - c) Concessions have been granted by the Parent Company, for economic or contractual reasons relating to the borrower's financial difficulty; or
 - d) It is becoming probable that the borrower will enter bankruptcy or other financial reorganization.

The criteria above have been applied to all financial instruments held by the Parent Company and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the probability of default (PD), loss given default (LGD) and exposure at default (EAD) throughout the Parent Company's ECL calculation.

Simplified Approach for Receivables

The Parent Company uses a provision matrix to calculate ECLs for receivables. The provision rates are based on days past due for groupings of various patron segments that have similar loss patterns. The provision matrix is initially based on the Parent Company's historical observed default rates. The Parent Company calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At every financial reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

Grouping of Instruments for Losses Measured on Collective Basis

For ECL provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

Macro-economic Forecasts and Forward-looking Information

Macro-economic forecasts are determined by evaluating a range of possible outcomes and using reasonable and supportable information that is available without undue cost and effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Parent Company takes into consideration using different macro-economic variables to ensure linear

relationship between internal rates and outside factors. Regression analysis was used to objectively determine which variables to use.

Predicted relationship between the key indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past three years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

Provision for doubtful accounts recognized in 2018 amounted to ₱55.2 million. The carrying amount of receivables amounted to ₱302.6 million as at December 31, 2018 (see Note 8).

Estimation of Allowance for Doubtful Accounts of Receivables (applicable until December 31, 2017 prior to adoption of PFRS 9)

The Parent Company assesses whether objective evidence of impairment exists for receivables that are individually significant and collectively for receivables that are not individually significant. Allowance for impairment losses on receivables is maintained at a level considered adequate to provide for potentially uncollectible receivables. Allowance for impairment losses on receivables is recognized for the difference between the outstanding principal amount and recoverable amount which is the present value of future cash flows expected to be received from collection of receivables.

There was no provision for doubtful accounts on receivables recognized in 2017. The carrying amounts of receivables are disclosed in Note 8 to the parent company financial statements.

Estimation of the Useful Lives of Property and Equipment

The useful lives of each of the Parent Company's property and equipment are estimated based on the period over which the assets are expected to be available for use. Such estimation is based on a collective assessment of industry practice, internal technical evaluation and experience with similar assets. The estimated useful lives of each asset are reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. It is possible, however, that future financial performance could be materially affected by changes in the amounts and timing of recorded expenses brought about by the changes in the factors mentioned above. A reduction in the estimated useful lives of any property and equipment would increase the recorded operating expenses and decrease noncurrent assets.

There were no changes in the estimated useful lives of property and equipment in 2018 and 2017. The carrying value of property and equipment as of December 31, 2018 and 2017 are disclosed in Note 12 to the parent company financial statements.

Determination of Indicators of Impairment of Non-Financial Assets

The Parent Company determines whether its non-financial assets are impaired whenever events or changes in circumstances indicate that the carrying values of the assets may not be recoverable. The factors that the Parent Company considers important which could trigger an impairment review include the following, among others:

- significant underperformance relative to expected historical or projected operating results;
- significant changes in the manner of use of acquired assets or the overall business strategy; and
- significant negative industry or economic trends.

Management assessed that, there are no indicators or circumstances that indicate that the carrying values of the Parent Company's non-financial assets may not be recoverable. Accordingly, no provision for impairment losses was recognized in 2018 and 2017.

The net book values of the Parent Company's non-financial assets pertaining to input VAT, property and equipment and other noncurrent assets are disclosed in Notes 10, 12 and 13 to the parent company financial statements, respectively.

7. Cash

This account consists of:

	2018	2017
Cash in banks	₱464,859,307	₱553,215,966
Cash on hand	6,501,858	4,598,279
	₱471,361,165	₱557,814,245

Cash in banks generally earns interest at the respective bank deposit rates. Total interest income earned from cash in banks amounted to ₱0.5 million and ₱0.3 million in 2018 and 2017, respectively.

8. Receivables

This account consists of:

	2018	2017
Trade:		
Non-related parties	₱53,962,725	₱24,421,046
Related parties (Note 21)	1,943,276	394,300
Nontrade	110,381,917	110,326,482
Advances to related parties (Note 21)	90,119,753	53,664,747
Receivable arising from PTO related to:		
Gaming equipment (Notes 5 and 17)	57,122,087	—
Gaming facility (Note 17)	42,774,147	45,019,839
Advances to employees (Note 21)	1,423,517	883,997
	357,727,422	234,710,411
Less: allowance for doubtful accounts (Note 24)	55,177,100	—
	₱302,550,322	₱234,710,411

Trade receivables consist mainly of claims against the lessees of the building spaces for commercial operations and claims against the travel agencies for the hotel accommodations. These receivables are usually collected within 30 to 60 days.

Nontrade receivables mainly pertain to noninterest-bearing receivable from a third party for consideration related to certain disposed assets.

Receivable arising from PTO pertains to the outstanding balance of the Parent Company's revenue share in gaming operations related to gaming facility and gaming equipment after deducting the players' winnings and prizes, the taxes that may be imposed on these winnings/prizes, franchise tax, and applicable subsidies and rebates, which shall be remitted to the Parent Company within 15 days of the following month in accordance with the PTO.

In 2018, management provided allowance for doubtful accounts amounting to ₱55.2 million pertaining to nontrade receivables.

9. Inventories

This account consists of:

	2018	2017
At cost:		
Operating supplies	₱17,121,808	₱24,945,725
Food, beverage, and tobacco	3,474,161	3,322,971
	₱20,595,969	₱28,268,696

Operating supplies include cards, seals and dice.

No allowance for inventory obsolescence was recognized in 2018 and 2017.

10. Input VAT

	2018	2017
Input VAT - current	₱33,300,077	₱24,774,189
Noncurrent:		
Input VAT - noncurrent	351,131,565	321,116,092
Deferred input VAT	15,948,407	16,677,993
	367,079,972	337,794,085
	₱400,380,049	₱362,568,274

Input VAT pertains mainly to the Parent Company's purchase of goods and services which can be claimed as credit against the future output VAT liabilities without prescription.

Deferred input VAT pertains to the VAT related to certain retention payable and noncurrent portion of input VAT related to acquisition of capital goods exceeding ₱1.0 million.

11. Prepayments and Other Current Assets

This account consists of:

	2018	2017
Deposits	₱14,191,752	₱7,488,371
Prepayments	2,989,201	3,881,956
CWT	2,279,223	1,009,868
Prepaid taxes	—	29,598,205
	₱19,460,176	₱41,978,400

Deposits pertain to deposit for electricity connection, security deposit for billboard, and advance payments for operating supplies and television advertisements.

Prepayments pertain to advance payments for software maintenance and health insurance.

CWT pertains to the taxes withheld by the withholding agent from the payment to the Parent Company.

Prepaid taxes paid in 2017 pertain to the real property tax for 2018.

12. Property and Equipment

This account consists of:

2018							
	Land	Building	Machinery	Gaming equipment (Note 5)	Non-gaming equipment	Kitchen and bar equipment, computer software and hardware	Total

As of December 31, 2018 and 2017, land and building with an aggregate carrying values of ₱4.6 billion and ₱4.5 billion, respectively, were pledged as collateral for the loan facility (see Note 15).

13. Other Noncurrent Assets

This account consists of:

	2018	2017
Receivable arising from PTO related to gaming equipment - net of current portion (Notes 5 and 17)	₱382,234,308	₱-
Operating equipment	23,024,896	55,682,994
Advances to contractors and suppliers	9,851,791	62,750,524
Long-term deposits	6,161,000	6,161,000
	₱421,271,995	₱124,594,518

Long-term deposits pertain to guarantee payment for utility bills.

Movement in operating equipment are as follows:

	2018			
	Utensils	Linens	Uniforms	Total
Cost				
Balance at beginning of year	₱23,562,076	₱70,667,222	₱4,367,083	₱98,596,381
Additions	-	250,275	30,835	281,110

Balance at end of year	12,737,713	28,757,814	1,417,860	42,913,387
Net book value	₱10,824,363	₱41,909,408	₱2,949,223	₱55,682,994

14. Accounts Payable and Other Current Liabilities

This account consists of:

	2018	2017
Accounts payable	₱429,415,044	₱213,104,250
Accrued expenses	61,693,012	53,817,707
Gaming liabilities	27,600,511	19,344,013
Withholding taxes payable	6,395,327	2,259,155
Advances from related parties (Note 21)	4,970,819	4,970,819
Others	24,091,220	17,338,537
	₱554,165,933	₱310,834,481

Accounts payable are noninterest-bearing and are normally settled within 30 to 60 days after the billing was received.

Accrued expenses pertain to accrual of payroll, other employee benefits, utilities, travel and transportation, meeting and conferences, security services and service fees, professional fees, among others, which are normally settled in the next financial year.

Gaming liabilities include provision for progressive jackpot on slot machine and for points earned from point loyalty programs.

Withholding tax payable pertains to taxes withheld by the Parent Company from its contractors and suppliers from payments made mainly in relation to the construction of building.

Others include deposits which shall be applied as payment for future bookings of hotel rooms, statutory liabilities and other various individually insignificant items.

15. Loans Payable

This account consists of:

	2018	2017
Principal	₱2,800,000,000	₱3,500,000,000
Less unamortized debt discount	(13,490,413)	(20,593,018)
	2,786,509,587	3,479,406,982
Less current portion of long-term debt	(694,286,996)	(692,879,656)
	₱2,092,222,591	₱2,786,527,326

The movements in unamortized debt discount follow:

	2018	2017
Unamortized debt discount at beginning of year	₱20,593,018	₱28,025,253
Less: amortization*	(7,102,605)	(7,432,235)
Unamortized debt discount at end of year	₱13,490,413	₱20,593,018

*Included in "Interest expense" in the parent company statements of comprehensive income.

Future repayment of the principal as follows:

	2018	2017
Within one year	₱700,000,000	₱700,000,000
After one year but not more than five years	2,100,000,000	2,800,000,000
	₱2,800,000,000	₱3,500,000,000

In 2015, the Parent Company signed a 7-year loan agreement with a local bank for a ₱3.5 billion loan facility with an interest rate of 7-year Philippine Dealing System Treasury Reference Rates 2 (PDST-R2) plus 125 basis points at drawdown date, plus gross receipts tax. Interest on the outstanding principal amount shall be paid on each quarterly interest payment date. The proceeds from the loan was initially availed of to fund the acquisition of gaming system and equipment, hotel furniture and equipment and permanent working capital of the Parent Company. In November 2015, the Parent Company drew ₱2.5 billion from the loan facility, receiving proceeds of ₱2.5 billion, net of related debt issue cost of ₱30.0 million. The debt issue cost includes documentary stamp tax amounting to ₱12.5 million and upfront fees amounting to ₱17.5 million.

In April 2016, the Parent Company drew the remaining ₱1.0 billion from the loan facility, receiving proceeds of ₱995.0 million, net of documentary stamp tax amounting ₱5.0 million. Both loans will mature on November 27, 2022.

The related interest recognized amounted to ₱189.5 million and ₱209.3 million in 2018 and 2017, respectively. Total interest paid amounted to ₱185.5 million and ₱201.9 million in 2018 and 2017, respectively.

The loan is secured by the Parent Company's land and building with an aggregate carrying value of ₱4.6 billion and ₱4.5 billion as of December 31, 2018 and 2017, respectively (see Note 12).

Loan covenants

The loan imposes certain restrictions with respect to corporate reorganization, debt to equity ratio, disposition of all or substantial part of the Parent Company's assets, declaration or payments of dividends to its shareholders (other than dividends payable solely in share of capital stock) and payments of loans or advances from its shareholders, affiliates, subsidiaries or related entities when the Parent Company is in default. As of December 31, 2018 and 2017, the Parent Company has complied with the loan covenants.

16. Retirement Benefits

The Parent Company does not have an established retirement plan and only conforms to the minimum regulatory benefit under the Retirement Pay Law (RA 7641) which is of the defined benefit type and provides a retirement equal to 22.5 days' pay for every year of credited service. The regulatory benefit is paid in a lump sum upon retirement. The Parent Company liability for retirement benefits is based solely on the requirement under RA 7641. Benefits are based on the employee's final salary and years of service.

The table below summarizes the components of retirement cost recognized under "Operating costs and expenses" in the parent company statements of comprehensive income (see Note 24):

	2018	2017
Current service cost	₱4,185,692	₱1,588,272
Net interest cost	102,083	47,625
	₱4,287,775	₱1,635,897

Movements in the cumulative actuarial gain in the parent company statements of comprehensive income are as follows:

	2018	2017
Balance at beginning of year	₱688,566	₱-
Actuarial gain recognized in other comprehensive income	1,645,945	688,566
	₱2,334,511	₱688,566

The movements in the retirement liability are as follows:

	2018	2017
Balance at beginning of year	₱1,760,049	₱812,718
Total retirement expense for the year	4,287,775	1,635,897
Defined benefit income recognized in OCI	(1,645,945)	(688,566)
Balance at end of year	₱4,401,879	₱1,760,049

Movement in defined benefit obligation are as follows:

	2018	2017
Balance at beginning of year	₱1,760,049	₱812,718
Current service cost	4,185,692	1,588,272
Interest cost	102,083	47,625
Actuarial loss (gain) on:		
Experience adjustments	-	87,942
Change in demographic assumptions	-	(1,277,912)
Changes in financial assumptions	(1,645,945)	501,404
Balance at end of year	₱4,401,879	₱1,760,049

The cost of the retirement plan and the present value of the defined benefit obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions. The principal assumptions used in determining the retirement liability of the Parent Company are shown below:

	2018	2017
Discount rate	7.61%	5.80%
Salary increase rate	5.00%	5.00%

The Parent Company does not maintain a fund for its retirement benefit obligation. While funding is not a requirement of the law, there is a cash flow risk that the Parent Company may be exposed to if several employees retire within the same year.

Shown below are the maturity profile of the undiscounted benefit payments as of December 31, 2018 and 2017 are as follows:

	2018	2017
Less than one year	P-	P-
One to less than five years	568,824	755,226
Five to less than 10 years	845,504	309,837
10 to less than 15 years	2,386,405	10,126,839
15 to less than 20 years	4,243,737	17,587,343
20 years and above	13,140,844	57,056,448
	P21,185,314	P85,835,693

The average duration of the expected benefit payments as of December 31, 2018 and 2017 is 25.85 years and 22.92 years, respectively.

The defined benefit obligation is subject to several key assumptions. The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant. Established on historical data, the behavior in error of the standard deviation is within the range:

	Effect on retirement liability	
Discount rate	8.61% (Actual + 1.00%)	(P666,284)
	6.61% (Actual - 1.00%)	826,412
Salary increase rate	6.00% (Actual + 1.00%)	P840,401
	4.00% (Actual - 1.00%)	(686,977)

17. Significant Commitments

PTO

As discussed in Notes 1 and 2, the Parent Company was granted a PTO by PAGCOR for the establishment, maintenance and operation of PAGCOR San Lazaro on March 18, 2010. The PTO shall be for a period of fifteen (15) years commencing on January 6, 2016, the date of actual operation.

Under this arrangement, the Parent Company shall acquire, install, maintain and upgrade to keep abreast with the worldwide industry of casino gaming the following to be used for the operation of PAGCOR San Lazaro as approved and deemed necessary by PAGCOR:

- (1) Certain number of gaming tables, table layout, chairs and other equipment and paraphernalia.
- (2) A minimum number of new slot machines and an online tokenless system of linking and networking all slot machines.

The use of slot machines and gaming tables ("Gaming Equipment") by PAGCOR will be for the major part of the Gaming Equipment's economic life.

In addition, the Parent Company shall also establish the gaming facility, including furnishings; undertake and shoulder the cost of designing, furnishing and maintaining PAGCOR San Lazaro.

The use of certain floors in the Parent Company's building as gaming facility did not substantially transfer the risk and benefits related to the ownership of the building.

The Parent Company requested PAGCOR to manage PAGCOR San Lazaro and PAGCOR shall exclusively and directly control, supervise and manage PAGCOR San Lazaro.

The Parent Company's share from gross gaming revenue of PAGCOR San Lazaro amounted to ₱413.4 million in 2018 and ₱283.2 million in 2017, respectively. Portion of the share from gross gaming revenue of PAGCOR San Lazaro related to gaming equipment was applied as payment for receivable arising from PTO in 2018 amounting to ₱47.5 million. Accordingly, revenue share in gaming operations for the year ended December 31, 2018 and 2017, presented in the parent company statements of comprehensive income, amounted to ₱365.9 million and ₱283.2 million, respectively. The details of the revenue share in gaming operations for the years ended December 31, 2018 and 2017 are as follows:

	2018	2017
Revenue share from gaming operations related to:		
Gaming facility	₱322,178,581	₱283,196,090
Gaming equipment	43,693,744	—
	<u>₱365,872,325</u>	<u>₱283,196,090</u>

The future minimum collection related to the gaming equipment follows:

	2018
Within one year	₱100,557,388
After one year but not more than five years	402,229,553
More than five years	93,932,612
	<u>596,719,553</u>
Less: unamortized portion of discount	<u>(157,363,158)</u>
	439,356,395
Less: current portion (Note 8)	<u>(57,122,087)</u>
Noncurrent portion (Note 13)	<u>₱382,234,308</u>

Operating Lease Commitment - the Parent Company as Lessor

- The Parent Company entered into a lease contract with CBTC Bank (Philippines) Corp. to lease a space in Winford Hotel, ground floor with an area of 3 square meter (sqm.). The lease term is for a period of one year commencing on February 2018 and was subsequently renewed. The monthly payment amounts to ₱30,000, inclusive of electrical consumption but exclusive of VAT. The terms of the contract also state that rental payment shall escalate by 10% per annum.
- The Parent Company also entered into an agreement of lease with Ifoods Group Inc. to lease a 315.5 sqm. area of Winford Hotel and Casino for a lease term of five years from the commencement of operations of the lessee, unless sooner terminated in accordance with the termination clause. Rental rates shall be ₱600 per sqm. per month exclusive of VAT plus 10% of gross sales for the period commencing from the execution of the lease agreement until completion of all hotel rooms and ₱600 per sqm. per month exclusive of VAT plus 7% of gross sales upon completion of all the hotel rooms. The contract also states that base rent shall escalate at a rate to be agreed by both parties.
- The Parent Company entered into a lease contract with Golden Arches Development Corporation to lease a space in Winford Hotel and Casino with an area of 406.14 sqm. The lease term is upon

execution of the lease agreement until 10 years after the rental commencement date, unless sooner terminated in accordance with termination clause. Base rental rate is ₱750 per sqm. per month, exclusive of VAT, but subject to 5% withholding tax, or a percentage rental rate at the rate of 5% of gross sales, exclusive of VAT but subject to 5% withholding tax, whichever is higher. The lessee will pay an additional ₱13.78 for the common use service area. The contract also states that base rent shall escalate at a rate to be agreed by both parties.

- d. The Parent Company entered into a lease contract with Philippine Seven Corporation for five years commencing July 7, 2016 to lease an area of 45.09 sqm. for a basic rent of ₱1,300 per sqm. plus a percentage of gross sales (1.5% of gross sales) or minimum guaranteed rent (₱1,500 per sqm. per month), whichever is higher. Rent escalation shall separately apply to both basic rent and minimum guaranteed rent.
- e. The Parent Company also entered into an agreement of lease with SM Kenko Sauna Corporation to lease a 390 sqm. area of Winford Hotel and Casino to be used for spa and salon services. Rental rates shall be ₱650 per sqm. per month exclusive of VAT plus a percentage rental which is 10% of gross revenue from the operations. Rent shall escalate by 7.5% per annum commencing upon lapse of the first two years of lease. In 2018, the Parent Company agreed to amend the rental rates from ₱650 per sqm. to ₱200 per sqm. per month exclusive of VAT.
- f. The Parent Company entered into a lease contract with Banco de Oro (BDO) Unibank Inc. to lease a space in Winford Hotel, second floor with an area of 3 sqm. The lease term is for a period of two years commencing on February 1, 2016 and expiring on January 31, 2018. The lease contract was renewed in 2019. The monthly payment amounts to ₱20,000, inclusive of electrical consumption but exclusive of VAT.
- g. The Parent Company also entered into an agreement of lease with Choi Garden Manila Corporation for ten years commencing January 7, 2016 to lease a 927 sqm. area of Winford Hotel and Casino to be used for restaurant, dining and banqueting of Chinese food only services. The lessee is subject to 10% of gross sales exclusive of senior citizen discount and VAT.
- h. The Parent Company entered into a lease contract with Maybank Philippines Inc. to lease a space in Winford Hotel and Casino, second floor with an area of 3 sqm. The lease term is for a period of one year commencing on February 2018 and was subsequently renewed. The monthly payment amounts to ₱30,000, inclusive of electrical consumption but exclusive of VAT, for the first quarter of 2018 and ₱15,000 thereafter.
- i. The Parent Company also entered into an agreement of lease with Asian Integrated Gaming Solutions, Inc. to lease 81.28 sqm. area of Winford Hotel and Casino to be used for poker table games at the casino. Stated in the contract that the rental revenue basis would be 50% profit sharing or ₱200,000 minimum guaranteed fee per month, whichever is higher. This contract was terminated on November 2017 before the end of the contract.
- j. The Parent Company also entered into an agreement of lease with Orient Capital Venture for two years starting March 31, 2017 to lease a 10 sqm. area of Winford Hotel and Casino to be used for online sports betting. Stated in the contract that the rental revenue basis would be 50% profit sharing or ₱100,000 minimum guaranteed fee per month, whichever is higher.
- k. The Parent Company also entered into an agreement of lease with Globe Telecom, Inc. for ten years starting February 1, 2016 to lease a 6 sqm. area of Winford Hotel and Casino to be used as telecommunication site. The lease is payable at a monthly rate amounting to ₱36,700, net of all taxes and 5% escalation fee on the third year thereafter.

- l. The Parent Company also entered into an agreement of lease with Smart Communications, Inc. for five years commencing on November 10, 2016 to lease a 9 sqm. area of Winford Hotel and Casino to be used for satellite services. The lease is payable at a monthly rate amounting to ₱36,700, net of all taxes and 5% escalation fee on the third year thereafter.
- m. The Parent Company also entered into an agreement of lease with AIO FX Trade, Inc. for five years commencing on December 18, 2017 to lease a 5.06 sqm. area of Winford Hotel and Casino. AIO FX Trade, Inc is a money changer. The lease is payable at a monthly rate of ₱30,000, inclusive of VAT for the first year, ₱37,000, inclusive of VAT for the second year and 10% escalation fee on the third year thereafter applied on the second-year monthly rate.
- n. The Parent Company also entered into an agreement of lease with Andresons Global, Inc. for three years commencing on April 8, 2018 to lease a 14.09 sqm. area of Winford Hotel and Casino to sell high end liquors. The lease is payable at a monthly rate of ₱20,000 exclusive of VAT and no escalation during the lease term.

The estimated future minimum lease payments for the above agreements are as follows:

	2018	2017
Within one year	₱29,894,591	₱11,218,022
After one year but not more than five years	51,730,920	38,994,097
Five years onwards	17,384,971	40,926,122
	₱99,010,482	₱91,138,241

Rent income amounted to ₱27.4 million and ₱22.3 million in 2018 and 2017.

Operating Lease Commitment - the Parent Company as Lessee

- a. On July 15, 2014, the Parent Company entered into a lease agreement with EEG Development Corporation to lease a property located at 1774 Consuelo Street, Sta. Cruz, Manila consisting of a floor area of 225 sqm. for the purposes of the mockup of Winford Hotel and Casino project. The lease term is for a period of two years commencing July 15, 2014 and expiring on July 14, 2016, renewable under such terms and conditions mutually agreed upon by the parties. The monthly rate for rental amounted to ₱45,000, exclusive of VAT and subject to withholding tax, which is payable every 15th day of each calendar month. No renewal was made on July 14, 2016.

Service Agreements

- a. The Parent Company also entered into an agreement with a service provider, engaging the latter to provide consultancy, advisory and technical services in relation to the operation, management and development of the hotel including recommendation or proposals on the activities or matters relating to the hotel. The agreement took effect on November 1, 2015 and will continue until terminated in accordance with the provisions of the agreement.
- b. The Parent Company also entered into an agreement with a service provider, engaging the latter to provide consultancy, advisory, and technical services in relation to the operation, management and development of the casino. The agreement took effect on November 1, 2015 and will continue until terminated in accordance with the provisions of the agreement.
- c. The Parent Company also entered into an agreement with a service provider, engaging the latter to provide communication strategy and planning development, conceptualization, production of advertising materials and marketing of the Parent Company's banquet and hotel rooms.

Total service fees recognized in 2018 and 2017 under these agreements amounted to ₱31.6 million and ₱25.7 million, respectively (see Note 24).

18. Deposit for Future Stock Subscription

The Parent Company presented the deposit amounting to ₱2.1 billion and ₱1.1 billion as “Deposit for future stock subscription” under noncurrent liabilities in the parent company statements of financial position as of December 31, 2018 and 2017, respectively, in accordance with FRB No. 6 as issued by the SEC.

19. Income Taxes

For income tax purposes, as the entity was granted the permit to operate PAGCOR San Lazaro, the Parent Company’s income from casino operations is exempt from income tax in accordance with Section 13 of P.D. 1869, as amended, otherwise known as the PAGCOR Charter. Under P.D. 1869, earnings derived from the operation of casinos shall be imposed a 5% franchise tax, in lieu of all kinds of taxes, levies, fees or assessments of any kind, nature or description, levied, established or collected by any municipal, provincial, or national government authority (see Note 2).

The provision for income tax consists of final tax amounting to ₱94,395 and ₱54,252 in 2018 and 2017, respectively.

As of December 31, 2018 and 2017, no deferred tax assets were recognized as management believes that the Parent Company may not have sufficient future taxable income from its hotel operations against which the deferred tax assets may be applied.

No deferred tax assets will be recognized as it relates to the casino operations since the Parent Company’s income from casino operations is exempt from income tax in accordance with Section 13 of P.D. 1869, as amended (see Note 2).

As of December 31, 2018 and 2017, net unrecognized deferred tax assets from its operations other than gaming are composed of the following:

	2018	2017
Deferred tax assets:		
Net operating loss carry over (NOLCO)	₱560,907,136	₱367,663,292

Movement in unrecognized deferred tax assets	208,863,490	221,674,192
Expired NOLCO and MCIT	17,263,101	9,622,022
Loss (income) from gaming operations exempt from income tax	(15,401,943)	(7,066,562)
Nondeductible expenses and others	2,232,402	2,869,874
Interest income subjected to final tax	(47,266)	(26,484)
Provision for income tax	P94,395	P54,252

20. PEZA Registration

On February 10, 2015, the Parent Company's registration as an Ecozone Tourism Enterprise for the development and operation of tourist, leisure and entertainment facilities is approved by Philippine Economic Zone Authority (PEZA).

As provided in its Registration Agreement dated February 24, 2015, the Parent Company shall be entitled only to tax and duty-free importation and zero-VAT rating on local purchases of capital equipment in accordance with PEZA Board Resolution No. 12-610 dated November 13, 2012, except for casino operations and other gaming/gambling operations, if any, subject to all evaluation and/or processing requirements and procedures prescribed under PEZA Rules and Regulations, pertinent circulars and directives.

21. Related Party Transactions

Entities and individuals that directly, or indirectly through one or more intermediaries, control or are controlled by or under common control with the Parent Company, including holding companies, subsidiaries and fellow subsidiaries, are related parties of the Parent Company. Entities and individuals owning, directly or indirectly, an interest in the voting power of the Parent Company that gives them significant influence over the entity, key management personnel, including directors and officers of the Parent Company and close members of the family of these individuals, and companies associated with these individuals also constitute related parties. In considering each possible related entity relationship, attention is directed to the substance of the relationship and not merely the legal form.

Transactions with Related Parties

In the ordinary course of business, the Parent Company has significant transactions with related parties as follows:

Entity	Relationship	Nature	2018		2017		Terms	Condition
			Amount	Receivable (Payable)	Amount	Receivable (Payable)		
TSLC	Subsidiary	Advances ^(a) (Note 8)	₱36,455,006	₱90,119,753	₱24,477,943	₱53,664,747	Noninterest-bearing; payable upon call	Unsecured, unimpaired
Manila Jockey Club, Inc. (MJCI)	Stockholder	Deposit for future stock subscription (Note 18)	84,979,217	(237,233,646)	152,254,429	(152,254,429)	Noninterest-bearing	Unsecured, unguaranteed
		Advances ^(b) (Note 14)	-	(4,970,819)	-	(4,970,819)	Noninterest-bearing; due and demandable	Unsecured, unguaranteed
		Commission from the off-track betting ^(c) (Note 8)	167,932	371,013	293,962	304,099	Noninterest-bearing; due and demandable	Unsecured, unimpaired
Various Shareholders	Stockholder	Deposit for future stock subscription (Note 18)	971,089,239	(1,904,967,451)	933,878,212	(933,878,212)	Noninterest-bearing	Unsecured, unguaranteed
Manilacockers Club, Inc. (MCI)	Affiliate	Commission from the off-track betting ^{(d)(e)} (Note 8)	4,367,699	1,572,263	701,543	90,201	Noninterest-bearing; due and demandable	Unsecured, unimpaired

^(a) Advances of the Parent Company to its subsidiary were provided to fund the payment of license fees to PAGCOR in consideration of the grant given by PAGCOR authorizing TSLC to bring in pre-registered foreign players to play in the designated junket gaming areas within PAGCOR San Lazaro.

^(b) The Parent Company obtains advances for expenses such as office rental, utilities and other allowances of the Parent Company's employees.

^(c) Share of the Parent Company on horse racing gross bets from off track betting station of MJCI located at Winford Hotel and Casino.

^(d) Share of the Parent Company on cockfighting gross bets from off track betting station of MCI located at Winford Hotel and Casino.

^(e) MCI is an affiliate through a common stockholder, MJCI.

Key Management Personnel

Total key management personnel compensation of the Parent Company amounted to ₱33.5 million and ₱13.2 million as of December 31, 2018 and 2017, respectively. The compensations are short-term employee benefits.

The Parent Company has no standard arrangement with regard to the remuneration of its directors. In 2018 and 2017, the BOD received directors' fees aggregating ₱0.7 million and ₱0.8 million, respectively (Note 24).

The Parent Company's advances to its employees amounted to ₱1.4 million and ₱0.9 million as of December 31, 2018 and 2017, respectively (see Note 8).

22. Equity

Capital Stock

The Parent Company has a total of 5,000,000,000 authorized shares, 3,174,405,821 issued and subscribed shares at ₱1.00 par value. The total issued, outstanding, and subscribed capital are held by 434 and 446 equity holders for the years 2018 and 2017, respectively.

On April 12, 2018, the BOD approved the conduct of a stock rights offering in order to raise additional capital. The total number of shares to be issued is 1,587,202,910 common shares and the stock offer price shall be at ₱1.00 per share. The entitlement ratio shall be one rights share for every two common shares held as of record date.

On September 17, 2018, the BOD approved the offer price for the rights shall be ₱1.00 rights per share, if paid in full upon submission on the application to subscribe, or ₱2.00 per rights share, if paid on installment basis. As of April 3, 2019, the stock rights offering is still pending approval of SEC.

23. Basic/Diluted Loss Per Share

	2018	2017
Net loss for the year	₱709,479,026	₱756,783,553
Divided by weighted average number of outstanding common shares	3,174,405,821	3,174,405,821
Basic/diluted losses per share	₱0.223	₱0.238

The Parent Company has no potential dilutive common shares as of December 31, 2018 and 2017. Therefore, the basic and diluted loss per share are the same as of those dates.

24. Operating Costs and Expenses

25. Operating Segment Information

The Parent Company has two operating segments in 2018 and 2017. Gaming segment pertains to casino operations while non-gaming pertains to hotel operations. Management monitors the operating results of its operating segments for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on net income or loss and is measured consistently with the total comprehensive loss on the parent company financial statements. The Parent Company's asset-producing revenues are located in the Philippines (i.e., one geographical location). Therefore, geographical segment information is no longer presented.

Segment Revenue and Expenses

The segment results for the years ended December 31, 2018 and 2017 are as follows:

	2018		
	Gaming	Non-gaming	Total
Revenue	₱411,677,559	₱211,357,200	₱623,034,759

26. Financial Risk Management Objectives and Policies and Fair Value Measurement

The Parent Company's financial instruments comprise of cash in banks, receivables (excluding "advances from employees"), deposits (presented as part of "Prepayments and other current assets" in the parent company financial statements), noncurrent portion of receivable arising from PTO and long-term deposits (presented as part of "Other noncurrent assets" in the parent company financial statements), accounts payable and other current liabilities (excluding "withholding taxes payable"), retention payable, interest payable and loans payable. The main purpose of these financial instruments is to finance the Parent Company's operations. The main risks arising from the use of these financial instruments include credit risk and liquidity risk. The Parent Company's BOD reviews and approves the policies for managing these risks and these are summarized below.

Credit Risk

Credit risk arises because the counterparty may fail to discharge its contractual obligations. As a matter of policy, the Parent Company limits its maximum exposure to credit risk to the amount of carrying value of the instruments. The Parent Company transacts only with related parties and with recognized and creditworthy third parties. Receivable balances are monitored on an ongoing basis. Further, management intensifies its collection efforts to collect from defaulting third parties.

The table below shows the maximum exposure to credit risk of the Parent Company as at December 31, 2018 and 2017 as follows:

	2018	2017
At amortized cost/loans and receivables:		
Cash in banks (Note 7)	P464,859,307	P553,215,966
Receivables* (Note 8)	301,126,805	233,826,414
Deposits** (Note 11)	7,404,740	7,190,495
Long-term deposits (Note 13)	6,161,000	6,161,000
Receivable arising from PTO related to gaming equipment - net of current portion (Note 13)	382,234,308	-
	P1,161,786,160	P800,393,875

*Excluding advances to employees

**Excluding security deposit to be applied at the end of the contract and advance payments for operating supplies and television advertisements.

As of December 31, 2018 and 2017, the aging analysis of receivables is as follows:

2018	Total	Neither past due nor impaired	Past due but not impaired					Impaired
			Less than 30 days past due	31 to 60 days past due	61 to 90 days past due	91 to 180 days past due	More than 180 days past due	
Trade:

	₱102,736,894	₱2,198,162	₱5,834,517	₱110,769,573

The credit quality of the financial assets was determined as follows:

- **Grade A**
This includes cash deposited with banks having good reputation and bank standing and receivables from customers or affiliates that always pay on time or even before the maturity date.
- **Grade B**
This includes receivables that are collected on their due dates provided that they were reminded or followed up by the Parent Company.
- **Grade C**
This includes receivables which are still collected within their extended due dates.

Liquidity Risk

Liquidity risk is defined as the risk that the Parent Company would not be able to settle or meet its obligations on time or at a reasonable price. The Parent Company's objective is to maintain a balance between continuity of funding and flexibility by regularly evaluating its projected and actual cash flows and through the use of bank loans and extension of suppliers' credit terms. The Parent Company maximizes the net cash inflows from operations to finance its working capital requirements.

The tables below summarize the maturity profile of the Parent Company's financial liabilities as at December 31, 2018 and 2017 based on contractual undiscounted payments.

	2018			
	Due and Demandable	Less than 1 year	1 year or above	Total
Loans payable*	₱—	₱901,993,406	₱2,164,441,498	₱3,066,434,904

Interest payable	19,055,836	(201,867,966)	201,867,966	19,055,836
Total liabilities from financing activities	P3,491,030,583	P884,264,675	P209,300,201	P4,584,595,459

*Others includes accrual of interest from interest-bearing loans and accretion of loans payable.

Fair Value Measurement

The carrying values of cash in banks, receivables, deposits, accounts payable and other current liabilities (excluding "withholding taxes payable") approximate their fair values due to the short-term nature of these accounts.

The fair values of receivable arising from PTO related to gaming equipment, long-term deposits and loans payable were based on the present value of estimated future cash flows using interest rates that approximate the interest rates prevailing at the reporting date. The carrying values and fair value of receivable arising from PTO related to gaming equipment, long-term deposits and loans payable are as follows:

	2018		2017	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial Assets				
Receivable arising from PTO				
related to gaming equipment	P439,356,395	P484,729,339	P-	P-
Long-term deposits	6,161,000	6,161,000	6,161,000	6,161,000
	P445,517,395	P490,890,339	P6,161,000	P6,161,000
Financial Liabilities				
Loans payable	P2,786,509,587	P2,739,441,141	P3,479,406,982	P3,620,808,095

As of December 31, 2018 and 2017, the Parent Company's financial assets and liabilities are measured at fair value under the Level 2 hierarchy. There were no financial instruments carried at fair value as of December 31, 2018 and 2017.

27. Working Capital and Capital Management

The primary objective of the Parent Company's working capital and capital management is to ensure that the Parent Company has sufficient funds in order to support its business, pay existing obligation and maximize stockholders' value. The Parent Company considers its total equity, including deposit for future stock subscription, amounting to P3.3 billion and P2.9 billion as its capital as of December 31, 2018 and 2017, respectively.

The Parent Company maintains a capital base to cover risks inherent in the business. The Parent Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Parent Company may return capital to shareholders or issue capital securities. No changes were made in the objectives, policies and processes from the previous years.

The Parent Company monitors working capital and capital on the basis of current ratio and debt-to-equity ratio in order to comply with loan covenants (see Note 15).

In computing the debt-to-equity ratio, the 'deposits for future stock subscription' formed part of the Consolidated Net Worth, as the deposits are considered as future additional shareholders' interest in the Parent Company.

Current ratio and debt-to-equity ratio of the Parent Company are as follows:

	2018	2017
Total current assets	₱847,267,709	₱887,545,941
Total current liabilities	1,415,373,642	1,301,944,166
Current ratio	0.60	0.68
<hr/>		
Total liabilities, excluding deposit for future stock subscription	₱3,515,819,131	₱4,094,052,561
Total equity	3,272,540,908	2,906,176,174
Debt-to-equity ratio	1.07	1.41

The Parent Company's strategy is to maintain a sustainable current ratio and debt-to-equity ratio.

28. Supplementary Information Required Under Revenue Regulations (RR) 15-2010

On November 25, 2010, the Bureau of Internal Revenue issued RR 15-2010 to amend certain provisions of RR 21-2002 prescribing the matter of compliance with any documentary and/or procedural requirements in connection with the preparation and submission of financial statements accompanying the tax returns. It requires the disclosure of taxes, duties and licenses paid or accrued during the year.

The Parent Company also reported and/or paid the following types of taxes for the year ended December 31, 2018.

- a. The Parent Company has VAT output tax declaration of ₱21.2 million in 2018 based on the amount reflected in the revenue from hotel and food and beverage and other revenue arising from sale of tobacco amounting to ₱176.7 million.

The Parent Company's revenue share in gaming operations is exempt from VAT as mentioned in P.D. 1869. The Parent Company is subject to 5% franchise tax, which shall be in lieu of all other taxes, including income tax and value added tax.

The following table shows the sources of input VAT claimed:

Balance at beginning of the year	₱345,890,281
Purchases of:	
Goods other than for resale	6,899,680
Services lodged under other accounts	52,893,925
Claims for tax credit/refund and other adjustments	(21,202,244)
Balance at end of the year	₱384,481,642

b. Other taxes and licenses

Details consist of the following:

National	
Filing and Listing fees	₱3,104,720
Documentary stamp taxes	801,897
Public performance license	79,542
Custom duties and taxes	41,883
Trademark fees	3,152
BIR registration	500
	<hr/> 4,031,694
Local	
Real property tax	29,592,766
PEZA permit	630,291
Business permit	575,960
Inspection fee	69,653
Barangay clearance certificate	46,518
Advertising billboard permit	41,900
Notarial services	3,400
Hotel permit	1,000
Others	132,083
	<hr/> 31,093,571
Total	<hr/> <hr/> ₱35,125,265

The Parent Company incurred franchise tax amounting to ₱25,735,517 from its gaming operations and is offset against "Revenue share in gaming operations" account.

The Parent Company did not have any importations or purchases of any products subject to excise tax. Details of the Parent Company's withholding taxes in 2018 are as follows:

Expanded withholding taxes	₱18,660,739
Withholding taxes on compensation	7,876,445
Final withholding tax	14,328,709
Total	<hr/> ₱40,865,893

Tax Assessments or Tax Cases

The Parent Company is currently not involved in any tax cases, preliminary investigations, litigations and/or prosecution in courts outside of BIR.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR CONSOLIDATED FINANCIAL STATEMENTS

The management of **MJC INVESTMENTS CORPORATION** Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino and Subsidiary ("the Group") is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein, for the years ended December 31, 2018, 2017 and 2016, in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders.

SyCip, Gorres, Velayo & Co., the independent auditors appointed by the stockholders, has audited the consolidated financial statements of the Group in accordance with Philippine Standards on Auditing, and its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Stockholders
MJC INVESTMENTS CORPORATION
Doing business under the name and style of Winford Leisure
And Entertainment Complex and Winford Hotel and Casino
(Formerly MJC Investments Corporation)
Winford Hotel and Casino, MJC Drive,
Sta. Cruz, Manila

Opinion

We have audited the consolidated financial statements of MJC INVESTMENTS CORPORATION [Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino] (Formerly MJC Investments Corporation) and Subsidiary (the Group), which comprise the consolidated statements of financial position as at December 31, 2018 and 2017, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2018, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2018 and 2017, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2018 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Adeline D. Lumbres.

MJC INVESTMENTS CORPORATION

Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

MJC INVESTMENTS CORPORATION [Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino] (the Parent Company) and Trafalgar Square Leisure Corporation (TSLC) (collectively referred to as the "Group") are incorporated in the Philippines. The Parent Company was incorporated on July 15, 1955 as Palawan Consolidated Mining Company, Inc. and was listed in the Philippine Stock Exchange (PSE) on November 11, 1955. In 2005, the SEC approved the extension of the Parent Company's corporate life for another fifty (50) years starting July 2005.

The Parent Company's primary purpose is to acquire by purchase, lease or otherwise, lands or interest in lands and realty, and to own, hold, improve or develop said land or real estate so acquired, and to build or cause to be built on any lands owned, held, occupied or acquired, buildings, facilities, and other structures with their appurtenances, for residential, commercial, mixed-use, leisure, gaming, amusement and entertainment purposes.

The following are the series of changes in corporate name of the Parent Company and their effective dates of change as approved by the Philippine Securities and Exchange Commission (SEC):

Date	Corporate Name
February 12, 1997	Ebecom Holdings, Inc.
September 25, 2003	Aries Prime Resources, Inc.
September 30, 2008	MJCI Investments, Inc.
October 15, 2009	MJC Investments Corporation
June 29, 2015	MJC INVESTMENTS CORPORATION Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino

The registered office address of the Parent Company is Winford Hotel and Casino, MJC Drive, Sta. Cruz, Manila.

On March 18, 2010, the Parent Company was granted a permit to operate (PTO) by the Philippine Amusement and Gaming Corporation (PAGCOR) for the establishment, maintenance and operation of a casino, PAGCOR San Lazaro, within the San Lazaro Tourism and Business Park in Sta. Cruz, Manila. The permit shall be for a period of ten (10) years, commencing on January 6, 2016, the date of actual operation of PAGCOR San Lazaro. On November 25, 2015, PAGCOR extended the term of the PTO to fifteen (15) years commencing from the start of commercial operations of PAGCOR San Lazaro (see Note 2).

On April 21, 2016, the Parent Company incorporated its wholly owned subsidiary, TSLC, in the Philippines and registered it with the SEC. The authorized and subscribed capital stock of TSLC is ₱20.0 million with a par value of ₱1.00 per share. TSLC's primary purpose is to establish, engage, operate and manage, gaming enterprises, amusement, entertainment and recreation centers, as well as providing services including but not limited to business process outsourcing services to foreign clients, support solutions, such as back office technology support, call or contact center activities, data entry and encoding, data management, general human resource functions, business planning, accounts receivable management, general financial support services, customer support services and customer

relationship management, sales support and other industry specific purposes, and to companies and operations, and other clients, and to do any and all things necessary for or conducive to the attainment of such purposes, including, articles of merchandise necessary or desirable in its operations, the provision of professional, consulting and other related services, and the licensing of application, software and other solutions required or related to the above services. The principal place of business of TSLC is at Winford Hotel and Casino, MJC Drive, Sta. Cruz, Manila. On May 16, 2016, TSLC was granted the authority by PAGCOR to bring in pre-registered foreign players to play in designated junket gaming areas within PAGCOR San Lazaro (see Note 2).

Authorization for the Issuance of Consolidated financial statements

The consolidated financial statements were approved and authorized for issuance by the Board of Directors (BOD) on April 3, 2019.

2. Agreements with PAGCOR

The following are the significant contracts entered by the Group with PAGCOR:

a. PTO granted to the Parent Company

As discussed in Note 1 to the consolidated financial statements, the Parent Company was granted a PTO by PAGCOR for the establishment, maintenance and operation of PAGCOR San Lazaro on March 18, 2010. The PTO shall be for a period of fifteen (15) years commencing on January 6, 2016, the date of actual operation of PAGCOR San Lazaro. Management has assessed that the Parent Company is the operator of PAGCOR San Lazaro, in accordance with the provisions of the PTO.

The agreement provides that while the Parent Company is in the process of forming its own management team and is cognizant of PAGCOR's expertise, experience and competence in gaming operations, the Parent Company requested PAGCOR to manage PAGCOR San Lazaro by giving PAGCOR an exclusive and direct control to supervise and manage PAGCOR San Lazaro's casino operations.

For the duration of the agreement, the Parent Company shall receive forty percent (40%) of PAGCOR San Lazaro's monthly gross gaming revenues after deducting the players' winnings/prizes, the taxes that may be imposed on these winnings/prizes, franchise tax, and applicable subsidies and rebates.

Upon revocation, termination or expiration of the PTO, the Parent Company undertakes to ship out of the Philippine territory, the gaming equipment and gaming paraphernalia in pursuance of Presidential Decree (P.D.) 519 and Letter of Instruction 1176 within 60 calendar days from the date of receipt or possession of the gaming equipment and gaming paraphernalia.

For income tax purposes, the Parent Company's revenue share in gaming operations is exempt from income tax in accordance with Section 13 of P.D. 1869, as amended, otherwise known as the "PAGCOR Charter". Under P.D. 1869, earnings derived from the operation of casinos shall be imposed a 5% franchise tax, in lieu of all kinds of taxes, levies, fees or assessments of any kind, nature or description, levied, established or collected by any municipal, provincial, or national government authority.

b. *Traditional Bingo Operation of the Parent Company*

On January 19, 2016, the Parent Company was granted by PAGCOR the right to operate a traditional bingo operation at Winford Hotel and Casino. The terms of the bingo operation shall be coterminous with the term of the PTO. Under the agreement, the Parent Company shall remit, on a monthly basis, to PAGCOR 15% of the total gross receipt from sale of bingo tickets and cards, including electronically stored bingo cards played through an electronic device, instant game tickets and bingo game variant cards (presented as "Gaming fees" under "Operating costs and expenses") (see Note 24).

The agreement provides, among others, that all capital and operating expenditure (including the prizes) related to the bingo operation shall be for the sole account of the Parent Company.

c. *Junket Agreement granted to TSLC*

On May 16, 2016, TSLC was granted by PAGCOR the authority to bring in pre-registered foreign players to play in designated junket gaming areas in Winford Hotel and Casino with an initial four (4) junket gaming tables. Operation of gaming tables in excess of the initial four junket gaming tables shall be subject to PAGCOR's approval. The agreement is effective for a period of three years, commencing on day 1 of the gaming operation at the junket area but not later than six months from the date of the agreement.

In consideration of the grant by PAGCOR, the TSLC shall pay PAGCOR higher of (a) monthly Minimum Guarantee Fee (MGF) of US\$10,000 per table or (b) ten percent (10%) of the monthly gross winnings generated from the junket gaming operations. The MGF shall be subject to an annual escalation at the rate of ten percent (10%) commencing on the second year of operation. The Group shall bear all salaries and other benefits in full of the junket monitoring personnel of PAGCOR who will be assigned to monitor the junket gaming operations. These expenses are presented as part of "Gaming fees" recorded under "Operating costs and expenses" (see Note 24). In addition to the monthly fee, TSLC shall remit five percent (5%) of the monthly gross winnings of the junket gaming operations to PAGCOR as franchise tax.

In compliance with the junket agreement, TSLC shall also deposit to PAGCOR the following:

- a) an amount equivalent to six (6) months of the minimum guaranteed fee for gaming tables for the junket gaming operations prior to the actual operation of the junket tables amounting to ₱17.0 million, which are recorded as part of "Long-term deposits" under "Other noncurrent assets" in the consolidated statements of financial position (see Note 13).
- b) an administrative charge deposit in the amount equivalent to six months manpower cost of PAGCOR's monitoring team for the junket gaming operation prior to the actual operation amounting to ₱2.9 million, which shall be made to cover TSLC's share in the cost of salaries and benefits of PAGCOR personnel assigned at the junket area in case the junket operations are suspended for reasons other than force majeure or fortuitous event. The Administrative Charge Deposit is recorded as part of the "Long-term deposits" under Other noncurrent assets in the consolidated statements of financial position (see Note 13).
- c) a cash bond in the amount of ₱1.0 million upon execution of the Junket Agreement in favor of PAGCOR to ensure and secure TSLC's compliance with the terms and conditions of the agreement and PAGCOR's pre-operating requirements which are recorded as part of "Long-term deposits" under "Other noncurrent assets" in the consolidated statements of financial position (see Note 13).

All interest income accruing out of the above deposits shall pertain to PAGCOR.

Should TSLC cease operations, for reasons such as violation of terms or conditions as stated in the agreement with PAGCOR, one year or more after the commencement of the agreement but before the end of its term, only TSLC's cash bond and administrative charge deposit shall be forfeited in favor of PAGCOR. The gaming deposit shall be returned to TSLC after deducting any unpaid fees owed by the TSLC to PAGCOR.

TSLC generated revenue of nil for the years ended December 31, 2018 and 2017, and ₱1.4 million for the year ended December 31, 2016, respectively (presented as part of "Other revenue").

3. Basis of Preparation and Statement of Compliance

Basis of Preparation

The consolidated financial statements are prepared using the historical cost basis. The consolidated financial statements are presented in Philippine Peso (Peso or ₱), which is the Group's functional and presentation currency. All amounts are rounded off to the nearest Peso, except when otherwise indicated.

Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS). PFRS includes both standard titles PFRS and Philippine Accounting Standards (PAS), and Philippine Interpretations based on equivalent interpretations from International Financial Reporting Interpretations Committee (IFRIC) as issued by the Philippine Financial Reporting Standards Council (FRSC).

4. Summary of Changes in Accounting Policies and Disclosures

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except that the Group has adopted the following new accounting pronouncements starting January 1, 2018:

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*

The amendments to PFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash-settled to equity-settled. Entities are required to apply the amendments to: (1) share-based payment transactions that are unvested or vested but unexercised as of January 1, 2018, (2) share-based payment transactions granted on or after January 1, 2018 and to (3) modifications of share-based payments that occurred on or after January 1, 2018. Retrospective application is permitted if elected for all three amendments and if it is possible to do so without hindsight.

These amendments have no impact on the consolidated financial statements since the Group has no share-based payment options.

• PFRS 9, *Financial Instruments*

PFRS 9, *Financial Instruments*, replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting.

The Group chose not to restate comparative figures as permitted by the transitional provisions of PFRS 9, thereby resulting in the following impact:

- Comparative information for prior periods will not be restated. The classification and measurement requirements previously applied in accordance with PAS 39 and disclosures required in PFRS 7 will be retained for the comparative periods. Accordingly, the information presented for 2017 and 2016 does not reflect the requirements of PFRS 9.
- The Group will disclose the accounting policies for both the current period and the comparative periods, one applying PFRS 9 beginning January 1, 2018 and one applying PAS 39 as of December 31, 2017.
- The difference between the previous carrying amount and the carrying amount at the beginning of the annual reporting period that includes the date of initial application will be recognized in the opening retained earnings or other component of equity, as applicable.
- As comparative information is not restated, the Group is not required to provide a third statement of financial position at the beginning of the earliest comparative period presented.

As of January 1, 2018, the Group has reviewed and assessed all of its existing financial assets. The table below illustrates the classification and measurement of financial assets and financial liabilities under PFRS 9 and PAS 39 at the date of initial application. The accounting policies adopted by the Group in its evaluation of the classification and measurement categories under PFRS 9 are discussed in Note 6.

The following table reconciles the carrying amounts of financial assets, from their previous measurement category in accordance with PAS 39 to their new measurement categories upon transition to PFRS 9 on January 1, 2018:

Financial Assets	PAS 39		Reclassification	PFRS 9		
	Category	Amount		Expected Credit Losses (ECL)	Amount	Category
	Loans and					Amortized Cost
Cash in banks	Receivables (L&R)	P554,257,499	P-	P-	P554,257,499	(AC)
Receivables	L&R	180,161,667	-	-	180,161,667	AC
Trade		24,815,346	-	-	24,815,346	
Receivable arising from PTO		45,019,839	-	-	45,019,839	
Nontrade		110,326,482	-	-	110,326,482	
Deposits	L&R	7,190,495	-	-	7,190,495	AC
Long-term deposits	L&R	27,103,000	-	-	27,103,000	AC
		P768,712,661	P-	P-	P768,712,661	

The Group does not have financial assets and financial liabilities which had previously been designated at fair value through profit or loss (FVTPL) to reduce an accounting mismatch in accordance with PAS 39 which had been reclassified to AC or fair value through other comprehensive income (FVOCI) upon transition to PFRS 9.

The Group does not have impairment allowance in 2017 measured in accordance with PAS 39 that needs to be reconciled to the opening impairment allowance determined in accordance with PFRS 9 as of January 1, 2018.

Under PFRS 9, the level of provision for credit and impairment losses has generally increased due to the incorporation of a more forward-looking approach in determining provisions. Further, since the implementation of PFRS 9, all financial assets except receivables and those measured at FVTPL are assessed for at least 12-month ECL and the population of financial assets to which the lifetime ECL applies is larger than the population for which there is objective evidence of impairment in accordance with PAS 39.

- Amendments to PFRS 4, *Applying PFRS 9 Financial Instruments with PFRS 4 Insurance Contracts*

The amendments address concerns arising from implementing PFRS 9, the new financial instruments standard before implementing the new insurance contracts standard. The amendments introduce two options for entities issuing insurance contracts: a temporary exemption from applying PFRS 9 and an overlay approach. The temporary exemption is first applied for reporting periods beginning on or after January 1, 2018. An entity may elect the overlay approach when it first applies PFRS 9 and apply that approach retrospectively to financial assets designated on transition to PFRS 9. The entity restates comparative information reflecting the overlay approach if, and only if, the entity restates comparative information when applying PFRS 9.

These amendments are not applicable to the Group since none of the entities within the Group have activities that are predominantly connected with insurance or issue insurance contracts.

- PFRS 15, *Revenue from Contracts with Customers*

PFRS 15 supersedes PAS 11, *Construction Contracts*, PAS 18, *Revenue*, and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with its customers. PFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The five-step model is as follows:

1. Identify the contracts with a customer
2. Identify the performance obligations in the contract
3. Determine the transaction price
4. Allocate the transaction price to the performance obligations in the contract
5. Recognize revenue as the entity satisfies a performance obligation.

PFRS 15 requires entities to exercise judgment, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Group adopted PFRS 15 using the modified retrospective method of adoption with the date of initial application of January 1, 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Group elected to apply the standard to all contracts as at January 1, 2018. Therefore, the comparative information was not restated and were reported under PAS 18 and related Interpretations.

The Group has concluded that it is acting as principal in all of its revenue arrangements because the Group is the primary obligor who is responsible for providing the goods and services to the customers and the Group bears the credit risk.

The impact of adopting PFRS 15 are disclosed in Note 5 to the consolidated financial statements.

- Amendments to PAS 28, *Investments in Associates and Joint Ventures, Measuring an Associate or Joint Venture at Fair Value* (Part of *Annual Improvements to PFRSs 2014 - 2016 Cycle*)

The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. They also clarify that if an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which (a) the investment entity associate or joint venture is initially recognized; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. Retrospective application is required.

These amendments did not have any impact on the Group's consolidated financial statements.

- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use. Retrospective application of the amendments is not required and is only permitted if this is possible without the use of hindsight.

These amendments did not have any impact on the Group's consolidated financial statements.

- Philippine Interpretation IFRIC-22, *Foreign Currency Transactions and Advance Consideration*

The interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the nonmonetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the date of the transaction for each payment or receipt of advance consideration. Retrospective application of this interpretation is not required.

These amendments did not have any significant impact on the Group's consolidated financial statements.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2019

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*

Under PFRS 9, a debt instrument can be measured at AC or at FVOCI, provided that the contractual cash flows represent solely payments of principal and interest (SPPI) on the principal amount outstanding (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to PFRS 9 clarify that a financial asset passes the SPPI criterion regardless of the event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. The amendments should be applied retrospectively and are effective from January 1, 2019, with earlier application permitted.

- PFRS 16, *Leases*

PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, *Leases*. The standard includes two recognition exemptions for lessees – leases of ‘low-value’ assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will also be required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PFRS 16 is substantially unchanged from today’s accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases: operating and finance leases.

PFRS 16 also requires lessees and lessors to make more extensive disclosures than under PAS 17.

A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard’s transition provisions permit certain reliefs.

As of December 31, 2018, the Group does not have lease arrangement wherein the Group is the lessee, therefore the Group does not expect PFRS 16 to impact its consolidated financial statements.

- Amendments to PAS 19, *Employee Benefits, Plan Amendment, Curtailment or Settlement*

The amendments to PAS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments specify that when a plan amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to:

- Determine current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event

- Determine net interest for the remainder of the period after the plan amendment, curtailment or settlement using: the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event; and the discount rate used to remeasure that net defined benefit liability (asset).

The amendments also clarify that an entity first determines any past service cost, or a gain or loss on settlement, without considering the effect of the asset ceiling. This amount is recognized in profit or loss. An entity then determines the effect of the asset ceiling after the plan amendment, curtailment or settlement. Any change in that effect, excluding amounts included in the net interest, is recognized in OCI.

The amendments apply to plan amendments, curtailments, or settlements occurring on or after the beginning of the first annual reporting period that begins on or after January 1, 2019, with early application permitted. These amendments will apply only to any future plan amendments, curtailments, or settlements of the Group.

- Amendments to PAS 28, *Long-term Interests in Associates and Joint Ventures*

The amendments clarify that an entity applies PFRS 9 to long-term interests in an associate or joint venture to which the equity method is not applied but that, in substance, form part of the net investment in the associate or joint venture (long-term interests). This clarification is relevant because it implies that the ECL model in PFRS 9 applies to such long-term interests.

The amendments also clarified that, in applying PFRS 9, an entity does not take account of any losses of the associate or joint venture, or any impairment losses on the net investment, recognized as adjustments to the net investment in the associate or joint venture that arise from applying PAS 28, *Investments in Associates and Joint Ventures*.

The amendments should be applied retrospectively and are effective from January 1, 2019, with early application permitted. Since the Group does not have such long-term interests in its associate and joint venture, the amendments will not have an impact on its consolidated financial statements.

- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*

The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12, *Income Taxes*, and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

The interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

The Group is currently assessing the impact of adopting this interpretation.

Annual Improvements to PFRSs 2015-2017 Cycle

- Amendments to PFRS 3, *Business Combinations*, and PFRS 11, *Joint Arrangements, Previously Held Interest in a Joint Operation*

The amendments clarify that, when an entity obtains control of a business that is a joint operation, it applies the requirements for a business combination achieved in stages, including remeasuring previously held interests in the assets and liabilities of the joint operation at fair value. In doing so, the acquirer remeasures its entire previously held interest in the joint operation.

A party that participates in, but does not have joint control of, a joint operation might obtain joint control of the joint operation in which the activity of the joint operation constitutes a business as defined in PFRS 3. The amendments clarify that the previously held interests in that joint operation are not remeasured.

An entity applies those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2019 and to transactions in which it obtains joint control on or after the beginning of the first annual reporting period beginning on or after January 1, 2019, with early application permitted.

These amendments are currently not applicable to the Group but may apply to future transactions.

- Amendments to PAS 12, *Income Tax Consequences of Payments on Financial Instruments Classified as Equity*

The amendments clarify that the income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity recognizes the income tax consequences of dividends in profit or loss, OCI or equity according to where the entity originally recognized those past transactions or events.

An entity applies those amendments for annual reporting periods beginning on or after January 1, 2019, with early application is permitted. These amendments are not relevant to the Group because dividends declared by the Group do not give rise to tax obligations under the current tax laws.

- Amendments to PAS 23, *Borrowing Costs, Borrowing Costs Eligible for Capitalization*

The amendments clarify that an entity treats as part of general borrowings any borrowing originally made to develop a qualifying asset when substantially all of the activities necessary to prepare that asset for its intended use or sale are complete.

An entity applies those amendments to borrowing costs incurred on or after the beginning of the annual reporting period in which the entity first applies those amendments. An entity applies those amendments for annual reporting periods beginning on or after January 1, 2019, with early application permitted.

These amendments are currently not applicable to the Group but may apply to future transactions.

Effective beginning on or after January 1, 2020

- Amendments to PFRS 3, *Definition of a Business*

The amendments to PFRS 3 clarify the minimum requirements to be a business, remove the assessment of a market participant's ability to replace missing elements, and narrow the definition of outputs. The amendments also add guidance to assess whether an acquired process is substantive and add illustrative examples. An optional fair value concentration test is introduced which permits a simplified assessment of whether an acquired set of activities and assets is not a business.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

These amendments will apply on future business combinations of the Group.

- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

The amendments refine the definition of material in PAS 1 and align the definitions used across PFRSs and other pronouncements. They are intended to improve the understanding of the existing requirements rather than to significantly impact an entity's materiality judgments.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

Effective beginning on or after January 1, 2021

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

PFRS 17 is effective for reporting periods beginning on or after January 1, 2021, with comparative figures required. Early application is permitted.

PFRS 17 is not applicable to the Group.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the FRSC deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

5. Effect of Adoption of PFRS 15 and Other Adjustments

As of January 1, 2018, the Group adopted PFRS 15 using the modified retrospective method of adoption. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Group elected to apply the standard to all contracts as at January 1, 2018. Therefore, the comparative information were not restated and were reported under PAS 18 and related interpretations. In addition, adjustments related to the accounting for the gaming equipment were adjusted to the opening deficit. The impact of these adjustments on the prior year financial statements were not material, thus, comparative information were not restated.

The nature of the adjustments as at January 1, 2018 and the reasons for the significant changes in the consolidated statement of financial position as at December 31, 2018 and the consolidated statement of comprehensive income for the year ended December 31, 2018 are described below:

- (a) Hotel, food and beverage are recognized when services are performed or the goods are sold. The Group offers promos or package deal to customers to avail of their hotel rooms. These promos or package deal typically include hotel room services, complimentary breakfast, use of function room services and catering services. The Group applies a practical expedient by accounting for its hotel, food and beverage transactions on a portfolio basis versus an individual basis as all transactions have similar characteristics.

Upon adoption of PFRS 15, for hotel room transactions that include complimentary breakfast, use of function room services and catering services provided by the Group, the Group allocates the standalone selling price of each good or service to the appropriate revenue type based on the good or service provided. The transaction price is the net amount collected from customers for such goods and services and is recorded when the goods are provided or services are performed. Revenue from contracts with multiple goods or services are allocated to each good or service based on its relative standalone selling price.

- (b) The Group has noncash transactions with various advertising service providers in which the Group offers voucher that covers function rooms usage, hotel rooms and catering services in exchange for advertising services. The vouchers have no expiration and is not convertible to cash. The Group applies a practical expedient by accounting for noncash transactions on a portfolio basis versus an individual basis as all transactions have similar characteristics.

Upon adoption of PFRS 15, transactions with noncash considerations with various advertising service providers are recorded as prepayments for advertising services received and contract liability for the Group's obligations to provide goods or services to be performed in the future. The transaction price is the fair value of advertising services less considerations paid. The Group records revenue when the goods are provided or services are performed.

- (c) There may be a difference between the timing of cash receipts from the customer and the recognition of revenue, resulting in a contract related-liability. The Group generally has two types of liabilities related to contracts with customers: (1) advance payments on hotel rooms and banquet events, and (2) pre-selling of bingo cards for monthly/quarterly event. The Group applies for practical expedient for advance payments received. The Group will not adjust the amount of consideration for the effect of financing component in contracts since the period between the time the customer pays for the good or service and when the Group transfers that promised good or service to the customer will be one year or less.

Upon adoption of PFRS 15, the Group records the advance payments received as contract liability. The transaction price is the amount collected in advance from customers for good or service to be provided in the future. The Group records revenue when the goods are provided or services are performed.

- (d) The Group charged its customers service charge for hotel room accommodation and sale of food and beverage. The Group distributed 85% of the total collected service charge to its employees. The 15% is used to cover for breakages incurred by the hotel and is retained under "Accounts payable and other current liabilities".

Under PFRS 15, revenue is measured at the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer and should exclude amounts collected on behalf of third parties.

- (e) For accounting purposes, the Parent Company accounted for the use of gaming equipment as finance lease. The Parent Company derecognized its gaming equipment and recorded a receivable arising from PTO related to gaming equipment.

6. Summary of Significant Accounting and Financial Reporting Policies, Significant Accounting Judgments, Estimates and Assumptions

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiary where the parent has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if, and only if, the Group has:

- power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiary

Subsidiary is an entity controlled by the Parent Company. Subsidiary is consolidated from the date of acquisition or incorporation, being the date on which the Group obtains control, and continue to be consolidated until the date such control ceases.

Transactions Eliminated on Consolidation

All intragroup transactions and balances including income and expenses, and unrealized gains and losses are eliminated in full.

Accounting Policies of Subsidiaries

The financial statements of subsidiary are prepared for the same reporting year using uniform accounting policies as those of the Parent Company.

Functional and Presentation Currency

The consolidated financial statements are presented in Philippine Peso, which is the Group's functional and presentation currency. Each entity in the Group determines its own functional currency, which is the currency that best reflects the economic substance of the underlying transactions, events and conditions relevant to that entity, and items included in the consolidated financial statements of each entity are measured using that functional currency.

Current versus Noncurrent Classification

The Group presents assets and liabilities in the consolidated statements of financial position based on current or noncurrent classification.

An asset is current when it is:

- expected to be realized or intended to be sold or consumed in the normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when:

- it is expected to be settled in the normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

Fair Value Measurement

The Group measures financial instruments at each reporting date. Additional fair value related disclosures including fair values of financial instruments measured at AC are disclosed in Note 26.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Financial Instruments - Classification and Measurement (applicable starting January 1, 2018 upon the adoption of PFRS 9)

Classification of financial assets

Financial assets are classified in their entirety based on the contractual cash flows characteristics of the financial assets and the Group's business model for managing the financial assets. The Group classifies its financial assets into the following measurement categories:

- financial assets measured at AC
- financial assets measured at FVTPL

- financial assets measured at FVOCI, where cumulative gains or losses previously recognized are reclassified to profit or loss
- financial assets measured at FVOCI, where cumulative gains or losses previously recognized are not reclassified to profit or loss

Contractual Cash Flows Characteristics

If the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, the Group assesses whether the cash flows from the financial asset represent SPPI on the principal amount outstanding.

In making this assessment, the Group determines whether the contractual cash flows are consistent with a basic lending arrangement, i.e., interest includes consideration only for the time value of money, credit risk and other basic lending risks and costs associated with holding the financial asset for a particular period of time. In addition, interest can include a profit margin that is consistent with a basic lending arrangement. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual terms that introduce exposure to risks or volatility in the contractual cash flows that is unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI on the principal amount outstanding.

Business Model

The Group's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Group's business model does not depend on management's intentions for an individual instrument.

The Group's business model refers to how it manages its financial assets in order to generate cash flows. The Group's business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both. Relevant factors considered by the Group in determining the business model for a group of financial assets include how the performance of the business model and the financial assets held within that business model are evaluated and reported to the Group's key management personnel, the risks that affect the performance of the business model (and the financial assets held within that business model) and how these risks are managed and how managers of the business are compensated.

Financial assets at AC

A financial asset is measured at amortized cost if (i) it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and (ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding. Financial assets at AC are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Group's financial assets at AC include cash in banks, receivables, deposits and long-term deposits.

Financial assets at FVTPL

Financial assets at FVTPL are measured at fair value unless these are measured at AC or at FVOCI. Included in this classification are equity investments held for trading and debt instruments with contractual terms that do not represent SPPI. Financial assets held at FVTPL are initially recognized at fair value, with transaction costs recognized in the consolidated statements of comprehensive income as incurred. Subsequently, they are measured at fair value and any gains or losses are recognized in the consolidated statements of comprehensive income.

Additionally, even if the asset meets the AC or the FVOCI criteria, the Group may choose at initial recognition to designate the financial asset at FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency (an accounting mismatch) that would otherwise arise from measuring financial assets on a different basis.

Trading gains or losses are calculated based on the results arising from trading activities of the Group, including all gains and losses from changes in fair value for financial assets and financial liabilities at FVTPL, and the gains or losses from disposal of financial investments.

As of December 31, 2018, the Group does not have financial assets at FVTPL.

Financial assets at FVOCI

Debt Instruments

A debt financial asset is measured at FVOCI if (i) it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and (ii) its contractual terms give rise on specified dates to cash flows that are SPPI on the principal amount outstanding. These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest income and foreign exchange gains and losses are recognized in profit and loss until the financial asset is derecognized. Upon derecognition, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. This reflects the gain or loss that would have been recognized in profit or loss upon derecognition if the financial asset had been measured at amortized cost. Impairment is measured based on the ECL model.

As of December 31, 2018, the Group does not have debt instruments at FVOCI.

Equity instruments

The Group may also make an irrevocable election to measure at FVOCI on initial recognition investments in equity instruments that are neither held for trading nor contingent consideration investments in a business combination in accordance with PFRS 3. Amounts recognized in OCI are not subsequently transferred to profit or loss. However, the Group may transfer the cumulative gain or loss within equity. Dividends on such investments are recognized in profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment.

As of December 31, 2018, the Group does not have equity instruments at FVOCI.

Classification of financial liabilities

Financial liabilities are measured at AC, except for the following:

- financial liabilities measured at FVTPL;
- financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the Group retains continuing involvement;
- financial guarantee contracts;
- commitments to provide a loan at a below-market interest rate; and
- contingent consideration recognized by an acquirer in accordance with PFRS 3.

A financial liability may be designated at FVTPL if it eliminates or significantly reduces a measurement or recognition inconsistency (an accounting mismatch) or:

- if a host contract contains one or more embedded derivatives; or
- if a group of financial liabilities or financial assets and liabilities is managed and its performance

evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

Where a financial liability is designated at FVTPL, the movement in fair value attributable to changes in the Group's own credit quality is calculated by determining the changes in credit spreads above observable market interest rates and is presented separately in other comprehensive income.

Reclassifications of Financial Instruments (applicable starting January 1, 2018 upon the adoption of PFRS 9)

The Group reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. Reclassifications shall be applied prospectively by the Group and any previously recognized gains, losses or interest shall not be restated. The Group does not reclassify its financial liabilities.

Impairment of Financial Assets (applicable starting January 1, 2018 upon the adoption of PFRS 9)
PFRS 9 introduces a single, forward-looking "expected loss" impairment model, replacing the "incurred loss" impairment model under PAS 39.

No ECL is recognized for the Group's financial assets at AC.

ECLs are measured in a way that reflects the following:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial assets migrate through the following three stages based on the change in credit quality since initial recognition:

Stage 1: 12-month ECL

For credit exposures where there have not been significant increases in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of lifetime ECLs that represent the ECLs that result from default events that are possible within the 12-months after the reporting date are recognized.

Stage 2: Lifetime ECL - not credit-impaired

For credit exposures where there have been significant increases in credit risk since initial recognition on an individual or collective basis but are not credit-impaired, lifetime ECLs representing the ECLs that result from all possible default events over the expected life of the financial asset are recognized.

Stage 3: Lifetime ECL - credit-impaired

Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of those financial assets have occurred. For these credit exposures, lifetime ECLs are recognized and interest revenue is calculated by applying the credit-adjusted EIR to the amortized cost of the financial asset.

Loss Allowance

For cash in banks, the Group applies a general approach in calculating ECLs. The Group recognizes a loss allowance based on either 12-month ECL or lifetime ECL, depending on whether there has been a significant increase in credit risk on its cash since initial recognition.

For receivables, deposits and long-term deposits, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 120 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Write-off Policy

The Group writes-off a financial asset, in whole or in part, when the asset is considered uncollectible, it has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

Financial Assets and Liabilities (prior to adoption of PFRS 9)

Date of Recognition

The Group recognizes a financial asset or a financial liability in the consolidated statements of financial position when it becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, are done using trade date accounting.

Initial and Subsequent Recognition of Financial Instruments

Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those at fair value through profit or loss, includes transaction cost.

The Group classifies its financial assets in the following categories: financial assets at FVTPL, L&R, held-to-maturity investments and available-for-sale financial assets. Financial liabilities are classified as financial liabilities at FVTPL or other financial liabilities. The classification depends on the purpose for which the instruments were acquired or liabilities incurred and whether they are quoted in an active market. Management determines the classification at initial recognition and, where allowed and appropriate, re-evaluates this classification at every balance sheet date. The Group has no financial assets or liabilities at FVTPL, held-to-maturity investments and available-for-sale financial assets as of December 31, 2017.

Determination of Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either i) in the principal market for the asset or liability; or ii) in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

"Day 1" Profit

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable markets, the Group recognizes the difference between the transaction price and fair value (a "Day 1" profit) in the consolidated statements of comprehensive income unless it qualifies for recognition as some other type of asset. In cases where unobservable data is used, the difference between the transaction price and model value is only recognized in the consolidated statements of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the "Day 1" profit amount.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. After initial measurement, loans and receivables are subsequently carried at amortized cost using the effective interest method, less any allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and includes fees and costs that are an integral part of the effective interest. Gains and losses are recognized in the consolidated statements of comprehensive income when the L&R are derecognized or impaired, as well as through the amortization process. Loans and receivables are included in current assets if maturity is within 12 months from the balance sheet date, otherwise, these are classified as noncurrent assets.

This category includes cash in banks, receivables, deposits and long-term deposits.

Other Financial Liabilities

This category pertains to financial liabilities that are not held for trading or not designated as at fair value through profit or loss upon the inception of the liability. These include liabilities arising from operations and loans and borrowings.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the consolidated statements of comprehensive income when the liabilities are derecognized, as well as through the amortization process. Other financial liabilities are included in current liabilities if maturity is within 12 months from the balance sheet date, otherwise, these are classified as noncurrent liabilities.

This category includes accounts payable and other current liabilities (excluding "withholding taxes payable"), retention payable, interest payable and loans payable.

Impairment of Financial Assets

The Group assesses, at each balance sheet date, whether there is any objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Objective evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Assets Carried at AC

If there is objective evidence that an impairment loss on loans and receivables carried at AC has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original EIR. The carrying amount of the asset shall be reduced either directly or through the use of an allowance account. The amount of loss shall be charged to current operations. Interest income continues to be accrued on the reduced carrying amount based on the original EIR of the asset. Loans and receivables together with the associated allowance are written off at each balance sheet date when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Group. The Group first assesses whether an objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the consolidated statements of comprehensive income to the extent that the carrying value of the asset does not exceed its AC at the reversal date.

Derecognition of Financial Assets and Liabilities

Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged, canceled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statements of comprehensive income.

Offsetting of Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated statement of financial position if, and only if, there is currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group and all of the counterparties.

Cash

Cash in the consolidated statements of financial position comprises of cash on hand and cash in banks.

Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Costs incurred in bringing each product to its present location and condition are accounted for using the first-in/first-out basis. NRV is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

Prepayments

Prepayments are carried at cost and are amortized on a straight-line basis, over the period of intended usage, which is equal to or less than 12 months of within the normal operating cycle.

Advances to Contractors and Suppliers

Advances to contractors and suppliers are noninterest-bearing down payments which are applied against final billings by the contractors and suppliers. Advances to contractors and suppliers are presented under "Other noncurrent assets" in the consolidated statements of financial position.

Creditable Withholding Taxes (CWT)

CWT represents the amount of tax withheld by counterparties from the Group. These are recognized upon collection and are utilized as tax credits against income tax due as allowed by the Philippine taxation laws and regulations. CWT is presented under "Prepayment and other current assets" in the consolidated statements of financial position. CWT is stated at its estimated NRV.

Property and Equipment

Property and equipment, except land, are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the consolidated statements of comprehensive income as incurred and is stated at cost less accumulated impairment losses.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Building	30 years
Machinery	10 years
Gaming equipment	8 years
Non-gaming equipment	5 years
Kitchen and bar equipment, computer software and hardware	3 years

The residual values, useful lives and methods of depreciation of property and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statements of comprehensive income when the asset is derecognized.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Operating Equipment

Operating equipment (shown as part of "Other noncurrent assets") includes linens uniforms, and utensils, which are carried at cost. Bulk purchases of items of operating equipment with expected usage period of beyond one year are classified as noncurrent assets and are amortized over three years.

Impairment of Non-Financial Assets

The Group assesses, at each reporting date, whether there is an indication that the non-financial assets may be impaired or whether there is an indication that a previously recognized impairment loss may no longer exist or may have decreased. If such indications exist, the Group makes an estimate of the asset's recoverable amount. An assets' recoverable amount is the higher of the assets' or cash generating unit's fair value less costs to sell and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In cases where the impairment loss no longer exists or may have decreased due to a change in estimates, the carrying amount of an asset is increased to its recoverable amount to the extent that the amount cannot exceed the carrying amount, net of depreciation or amortization, had no impairment loss been recognized in prior years. Impairment loss or its reversal is recognized in the consolidated statements of comprehensive income in those expense categories consistent with the function of the impaired asset.

Contract Liabilities (applicable starting January 1, 2018 upon the adoption of PFRS 15)

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from a customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs the obligation under the contract.

Contract liabilities include payments received by the Group from the customers for which revenue recognition has not yet commenced. Accordingly, deposits by hotel, banquet customers, advance collection for purchase of bingo cards, services received from customers, and lessees are recorded as contract liabilities until services or goods are provided or sold to the customers.

Retention Payable

Retention payable represents the portion of contractor billings which will be paid upon satisfaction by the contractors of the conditions specified in the contracts or until the defects have been corrected.

Deposit for Future Stock Subscription

Deposit for future stock subscription represents amounts received that will be applied as payment in exchange for a fixed number of the Group's own equity instruments, and presented in the noncurrent liabilities section of the consolidated statements of financial position. These are measured at cost and are reclassified to capital stock upon issuance of shares.

In accordance with Financial Reporting Bulletin (FRB) No. 6 issued by the SEC, the following elements should be present as of the reporting date in order for the deposits for future stock subscriptions to qualify as equity:

- The unissued authorized capital stock of the entity is insufficient to cover the amount of shares indicated in the contract;
- There is a BOD approval on the proposed increase in authorized capital stock (for which a deposit was received by the corporation);
- There is stockholders' approval of said proposed increase; and
- The application for the approval of the proposed increase has been presented for filing or filed with the Commission.

If any or all of the foregoing elements are not present, the transaction should be recognized as a liability.

Capital Stock

Capital stock is measured at par value for all shares issued. When the Group issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued. Incremental costs incurred that are directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Deficit

Deficit pertains to accumulated gains and losses, and may also include effect of changes in accounting policies as may be required by the standards' transitional provisions.

Revenue Recognition (applicable for both periods presented)

Revenue Share in Gaming Operations

Revenue share in gaming operations represents a certain percentage share of gross winnings after deducting the players' winnings/prizes, franchise tax and applicable subsidies and rebates. The revenue share in gaming operations comprise of the revenue from allowing PAGCOR to use the Group's gaming facilities and gaming equipment.

Rental Income

Rental revenue from the leasing of certain areas of the hotel held under operating lease are recognized on a straight-line basis over the periods of the respective leases.

Other Revenue

Other revenue consists of tobacco sales, laundry services, parking fees, charges for utilities consumed by lessee and income from junket operations.

Interest Income

Interest income is recognized as it accrues on a time proportion basis taking into account the principal amount outstanding and the EIR. Interest income represents interest earned from cash and advances to related parties.

Loyalty Program Points

The Group operates loyalty program to encourage repeat business mainly from loyal slot machine customers and table game patrons. Members earn points primarily based on gaming activities and such points can be redeemed for goods and services. The loyalty points give rise to a separate performance obligation as they provide a material right to the customer. The Group's customer is able to use the points as a currency (i.e., currency value has been fixed and can no longer be changed by the Group). A portion of the transaction price is allocated to the loyalty points awarded to customers based on relative stand-alone selling price and recognized as a financial liability until the points are redeemed.

Revenue Recognition (applicable starting January 1, 2018 upon the adoption of PFRS 15)

The Group's revenue from contracts with customers primarily consist of hotel accommodation services, food and beverage, bingo services and other revenue. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements.

Revenue from Contracts with Customer

Revenue from Hotel

Revenue from hotel is recognized over time as the service is rendered to the customer, generally when the hotel services are performed. Deposits received from customers in advance on rooms are recorded under "Contract liabilities" until services are provided to the customers.

Revenue from Food and Beverage

Revenue from food and beverage is recognized at point in time when the control of the goods is transferred to the customer, generally when the goods are delivered.

Revenue from Bingo Operations

Revenue from bingo operations represents net sales from the conduct of bingo operations. Net sales is defined as the total gross receipts from sale of bingo tickets and cards and daubers less prizes/winnings. Revenue is recognized at point in time upon the conduct of the bingo operations.

Revenue Recognition (applicable until December 31, 2017 prior to the adoption of PFRS 15)

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The Group assesses its revenue arrangements against specific criteria to determine whether it is acting as principal or agent.

The specific recognition criteria described below must also be met before revenue is recognized.

Hotel, Food and Beverage

Hotel, food and beverage are recognized when services are performed or the goods are sold. Deposits received from customers in advance on rooms are recorded under "Accounts payable and other current liabilities" until services are provided to the customers.

Revenue from Bingo Operations

Revenue from bingo operations represents net sales from the conduct of bingo operations. Net sales is defined as the total gross receipts from sale of bingo tickets and cards and daubers less prizes/winnings.

Operating Costs and Expenses

Costs and expenses are recognized in the consolidated statements of comprehensive income upon utilization of the service or at the date they are incurred.

Gaming Fees

As a grantee of PAGCOR, the Group is required to pay PAGCOR a percentage of its gross receipts from bingo operations. These fees are recorded as part of "Gaming fees" under "Operating costs and expenses".

Income Tax

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognized directly in equity is recognized in equity and not in the consolidated statements comprehensive income. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred

tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income (OCI) or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if and only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Retirement Benefits Cost

The Group does not have an established retirement plan and only conform with Republic Act (RA) 7641, Retirement Pay Law, which is a defined benefit type.

The cost of providing benefits under the defined benefit plans is determined separately for each plan using the projected unit credit actuarial valuation method. Projected unit credit method reflects services rendered by employees to the date of valuation and incorporates assumptions concerning employees' projected salaries.

Defined benefit costs comprise service cost, net interest on the net defined benefit liability or asset and re-measurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Re-measurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Re-measurements are not reclassified to profit or loss in subsequent periods.

Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that asset is or those assets are not explicitly specified in an arrangement.

Parent Company as a Lessee

Lease where the Parent Company retains substantially all the risks and benefits of ownership of the assets are classified as operating leases. Operating lease payments are charged against profit or loss.

Parent Company as a Lessor - Operating lease

Lease in which the Parent Company does not transfer substantially all the risks and benefits of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized as an expense over the lease term on the same basis as the lease income. Contingent rents are recognized as revenue in the period in which they are earned.

Parent Company as a Lessor - Finance lease

Lease in which the Parent Company transfers substantially all the risks and benefits of ownership of the assets are classified as finance lease. Lease collections are apportioned between the finance income and the reduction of the outstanding receivable so as to achieve a constant periodic rate of interest on the remaining balance of the receivable for each period. Finance income are charged directly against profit or loss. A combination of the following would normally lead to a lease being classified as finance lease:

- a. ownership of the asset to the lessee by the end of the lease term.
- b. the lessee has the option to purchase the asset at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable for it to be reasonably certain, at the inception of the lease, that the option will be exercised.
- c. the lease term is for the major part of the economic life of the asset even if title is not transferred.
- d. at the inception of the lease the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset.
- e. the leased assets are of such a specialized nature that only the lessee can use them without major modifications.

VAT

Revenues, expenses, and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the consolidated statements of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the consolidated statements of financial position to the extent of the recoverable amount.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of the "Input VAT," "Deferred input VAT," or "Accounts payables and other current liabilities" in the consolidated statements of financial position.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statements of comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Earnings (Loss) Per Share

Earnings (loss) per share is computed by dividing net income (loss) for the year by the weighted average number of shares outstanding during the year adjusted to give retroactive effect to any stock dividends declared during the year.

Basic earnings (loss) per share is calculated by dividing net income (loss) for the year by the weighted average number of shares outstanding during the year.

Diluted earnings (loss) per share is computed by dividing net income (loss) for the year by the weighted average number of shares taking into account the effects of all potential dilutive common shares.

Segment Reporting

For management purposes, the Group is organized and managed separately according to the nature of the business. These operating businesses are the basis upon which the Group reports its segment information presented in Note 25.

An operating segment is a component of an entity:

- a. that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- b. with operating results regularly reviewed by the entity's chief of operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance; and
- c. for which discrete financial information is available.

Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with PFRS requires the Group to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The judgments, estimates and assumptions used are based on management's evaluation of relevant facts and circumstances as of the date of the consolidated financial statements. Actual results could differ from the estimates and assumptions used. The effects of any change in estimates or assumptions are reflected in the consolidated financial statements when these become reasonably determinable.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on amounts recognized in the consolidated financial statements.

Evaluating Lease Commitments (see Note 17)

The evaluation of whether an arrangement contains a lease is based on its substance. An arrangement is, or contains, a lease when the fulfilment of the arrangement depends on a specific asset or assets and the arrangement conveys a right to use the asset.

Parent Company as the Lessor - Operating Lease Commitments

The Parent Company has entered into various operating lease agreements as a lessor. The Parent Company has determined that it has retained substantially all the risks and benefits of ownership of the assets. The ownership of the asset is not transferred to the lessee by the end of the lease term, the lessee has no option to purchase the asset at a price that is expected to be sufficiently lower than the

fair value at the date the option is exercisable, and, the lease term is not for the major part of the asset's economic life. Accordingly, the lease is accounted for as an operating lease.

Parent Company as the Lessor - Finance Lease Commitments

The Parent Company has entered into agreements with PAGCOR involving its gaming equipment. The Parent Company has determined that the lease term is for the major part of the asset's economic life. In calculating the present value of the minimum lease payments to measure the finance lease receivable at initial recognition, the discount factor used is the interest rate implicit in the lease, when it is practicable to determine it; otherwise, the lessee's incremental borrowing rate is used. Initial direct costs incurred, if any, are included as part of the asset.

Revenue from Contracts with Customers (applicable starting January 1, 2018 upon adoption of PFRS 15)

The Group applied the following judgments that significantly affect the determination of the amount and timing of revenue from contracts with customers:

- *Identifying of contracts with customers under PFRS 15*
The Group applied PFRS 15 guidance to a portfolio of contracts with similar characteristics as the Group reasonably expects that the effects on the consolidated financial statements of applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts within that portfolio.
- *Identifying performance obligations*
The Group provides hotel services, food and beverage sales, bingo services and other sales and services to its customers. The Parent Company has determined that each of the services are capable of being distinct.

Recognition of Deferred Tax Assets

The Group makes an estimate and judgment of its future taxable income and reviews the carrying amount of the deferred tax assets at each reporting date.

From its hotel operations as of December 31, 2018 and 2017, no deferred tax assets were recognized as management believes that the Group may not have sufficient future taxable income against which the deferred tax asset may be applied (see Note 19).

From the casino operations, no deferred tax assets will be recognized since the Group's income from casino operations is exempt from income tax in accordance with Section 13 of P.D. 1869, as amended (see Note 2).

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial years are discussed below.

Definition of Default and Credit-Impaired Financial Assets (applicable starting January 1, 2018 upon adoption of PFRS 9)

Upon adoption of PFRS 9, the Group defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

- *Quantitative Criteria*
The borrower is more than 120 days past due on its contractual payments, which is consistent with the Group's definition of default.

- *Qualitative Criteria*

The borrower meets unlikeliness to pay criteria, which indicates the borrower is in significant financial difficulty. These are instances where:

- a) The borrower is experiencing financial difficulty or is insolvent;
- b) The borrower is in breach of financial covenant(s);
- c) Concessions have been granted by the Group, for economic or contractual reasons relating to the borrower's financial difficulty; or
- d) It is becoming probable that the borrower will enter bankruptcy or other financial reorganization.

The criteria above have been applied to all financial instruments held by the Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the probability of default (PD), loss given default (LGD) and exposure at default (EAD) throughout the Group's ECL calculation.

Simplified Approach for Receivables

The Group uses a provision matrix to calculate ECLs for receivables. The provision rates are based on days past due for groupings of various patron segments that have similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At every financial reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

Grouping of Instruments for Losses Measured on Collective Basis

For ECL provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

Macro-economic Forecasts and Forward-looking Information

Macro-economic forecasts are determined by evaluating a range of possible outcomes and using reasonable and supportable information that is available without undue cost and effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Group takes into consideration using different macro-economic variables to ensure linear relationship between internal rates and outside factors. Regression analysis was used to objectively determine which variables to use.

Predicted relationship between the key indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past three years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

Provision for doubtful accounts recognized in 2018 amounted to ₱55.2 million. The carrying amount of receivables amounted to ₱212.4 million as at December 31, 2018 (see Note 8).

Estimation of Allowance for Doubtful Accounts of Receivables (applicable until December 31, 2017 prior to adoption of PFRS 9)

The Group assesses whether objective evidence of impairment exists for receivables that are individually significant and collectively for receivables that are not individually significant. Allowance for impairment losses on receivables is maintained at a level considered adequate to provide for potentially uncollectible receivables. Allowance for impairment losses on receivables is recognized for

the difference between the outstanding principal amount and recoverable amount which is the present value of future cash flows expected to be received from collection of receivables.

There was no provision for doubtful accounts on receivables recognized in 2017. The carrying amounts of receivables are disclosed in Note 8 to the consolidated financial statements.

Estimation of the Useful Lives of Property and Equipment

The useful lives of each of the Group's property and equipment are estimated based on the period over which the assets are expected to be available for use. Such estimation is based on a collective assessment of industry practice, internal technical evaluation and experience with similar assets. The estimated useful lives of each asset are reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. It is possible, however, that future financial performance could be materially affected by changes in the amounts and timing of recorded expenses brought about by the changes in the factors mentioned above. A reduction in the estimated useful lives of any property and equipment would increase the recorded operating expenses and decrease noncurrent assets.

There were no changes in the estimated useful lives of property and equipment in 2018, 2017 and 2016. The carrying value of property and equipment as of December 31, 2018 and 2017 are disclosed in Note 12 to the consolidated financial statements.

Determination of Indicators of Impairment of Non-Financial Assets

The Group determines whether its non-financial assets are impaired whenever events or changes in circumstances indicate that the carrying values of the assets may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following, among others:

- significant underperformance relative to expected historical or projected operating results;
- significant changes in the manner of use of acquired assets or the overall business strategy; and
- significant negative industry or economic trends.

Management assessed that, there are no indicators or circumstances that indicate that the carrying values of the Group's non-financial assets may not be recoverable. Accordingly, no provision for impairment losses was recognized in 2018 and 2017.

The net book values of the Group's non-financial assets pertaining to input VAT, property and equipment and other noncurrent assets are disclosed in Notes 10, 12 and 13 to the consolidated financial statements, respectively.

7. Cash

This account consists of:

	2018	2017
Cash in banks	P465,901,982	P554,257,499
Cash on hand	6,501,858	4,598,279
	P472,403,840	P558,855,778

Cash in banks generally earns interest at the respective bank deposit rates. Total interest income earned from cash in banks amounted to P0.5 million, P0.3 million and P1.3 million in 2018, 2017 and 2016, respectively.

8. Receivables

This account consists of:

	2018	2017
Trade:		
Non-related parties	P53,962,725	P24,421,046
Related parties (Note 21)	1,943,276	394,300
Nontrade	110,381,917	110,326,482
Receivable arising from PTO related to:		
Gaming equipment (Notes 5 and 17)	57,122,087	—
Gaming facility (Note 17)	42,774,147	45,019,839
Advances to employees (Note 21)	1,423,517	883,997
	267,607,669	181,045,664
Less: allowance for doubtful accounts (Note 24)	55,177,100	—
	P212,430,569	P181,045,664

Trade receivables consist mainly of claims against the lessees of the building spaces for commercial operations and claims against the travel agencies for the hotel accommodations. These receivables are usually collected within 30 to 60 days.

Nontrade receivables mainly pertain to noninterest-bearing receivable from a third party for consideration related to certain disposed assets.

Receivable arising from PTO pertains to the outstanding balance of the Group's revenue share in gaming operations related to gaming facility and gaming equipment after deducting the players' winnings and prizes, the taxes that may be imposed on these winnings/prizes, franchise tax, and applicable subsidies and rebates, which shall be remitted to the Group within 15 days of the following month in accordance with the PTO.

In 2018, management provided allowance for doubtful accounts amounting to P55.2 million pertaining to nontrade receivables.

9. Inventories

This account consists of:

	2018	2017
At cost:		
Operating supplies	₱17,121,808	₱24,945,725
Food, beverage, and tobacco	3,474,161	3,322,971
	<u>₱20,595,969</u>	<u>₱28,268,696</u>

Operating supplies include cards, seals and dice.

No allowance for inventory obsolescence was recognized in 2018 and 2017.

10. Input VAT

	2018	2017
Input VAT- current	₱33,303,677	₱24,777,789
Noncurrent:		
Input VAT - noncurrent	351,181,565	321,116,092
Deferred input VAT	15,898,407	16,677,993
	<u>367,079,972</u>	<u>337,794,085</u>
	<u>₱400,383,649</u>	<u>₱362,571,874</u>

Input VAT pertains mainly to the Group's purchase of goods and services which can be claimed as credit against the future output VAT liabilities without prescription.

Deferred input VAT pertains to the VAT related to certain retention payable and noncurrent portion of input VAT related to acquisition of capital goods exceeding ₱1.0 million.

11. Prepayments and Other Current Assets

This account consists of:

	2018	2017
Deposits	₱14,191,752	₱7,488,371
Prepayments	3,231,339	4,124,093
CWT	2,279,223	1,009,868
Prepaid taxes	—	29,598,205
	<u>₱19,702,314</u>	<u>₱42,220,537</u>

Deposits pertain to deposit for electricity connection, security deposit for billboard, and advance payments for operating supplies and television advertisements.

Prepayments pertain to advance payments for software maintenance and health insurance.

CWT pertains to the taxes withheld by the withholding agent from the payment to the Group.

Prepaid taxes paid in 2017 pertain to the real property tax for 2018.

12. Property and Equipment

This account consists of:

2018

	Land	Building	Machinery	Gaming equipment (Note 5)	Non-gaming equipment	Kitchen and bar equipment, computer software and hardware	Total
Cost							
Balance at beginning of year	P600,800,000	P4,156,152,679	P207,348,587	P330,421,219	P431,964,951	P620,285,115	P6,346,972,551

As of December 31, 2018 and 2017, land and building with an aggregate carrying values of ₱4.6 billion and ₱4.5 billion, respectively, were pledged as collateral for the loan facility (see Note 15).

Gain on sale of non-gaming equipment amounted to nil in 2018, 2017, and ₱0.1 million in 2016.

13. Other Noncurrent Assets

This account consists of:

	2018	2017
Receivable arising from PTO related to gaming equipment - net of current portion (Notes 5 and 17)	₱382,234,308	₱-
Long-term deposits	27,103,000	27,103,000
Operating equipment	23,114,358	55,880,233
Advances to contractors and suppliers	9,851,791	62,750,524
	₱442,303,457	₱145,733,757

Long-term deposits pertain to guarantee payment for utility bills and deposits by TSLC to PAGCOR under Junket Agreement (see Note 2).

Movement in operating equipment are as follows:

	2018			
	Utensils	Linens	Uniforms	Total
Cost				
Balance at beginning of year	₱23,562,076	₱70,667,222	₱4,690,413	₱98,919,711

Balance at end of year	12,737,713	28,757,814	1,543,951	43,039,478
Net book value	₱10,824,363	₱41,909,408	₱3,146,462	₱55,880,233

14. Accounts Payable and Other Current Liabilities

This account consists of:

	2018	2017
Accounts payable	P429,415,044	P213,104,250
Accrued expenses	61,693,012	53,817,707
Gaming liabilities	27,600,511	19,344,013
Withholding taxes payable	6,395,327	2,259,155
Advances from related parties (Note 21)	4,970,819	4,970,819
Others	24,127,588	17,374,905
	P554,202,301	P310,870,849

Accounts payable are noninterest-bearing and are normally settled within 30 to 60 days after the billing was received.

Accrued expenses pertain to accrual of payroll, other employee benefits, utilities, travel and transportation, meeting and conferences, security services and service fees, professional fees, among others, which are normally settled in the next financial year.

Gaming liabilities include provision for progressive jackpot on slot machine and for points earned from point loyalty programs.

Withholding tax payable pertains to taxes withheld by the Group from its contractors and suppliers from payments made mainly in relation to the construction of building.

Others include deposits which shall be applied as payment for future bookings of hotel rooms, statutory liabilities and other various individually insignificant items.

15. Loans Payable

This account consists of:

	2018	2017
Principal	P2,800,000,000	P3,500,000,000
Less unamortized debt discount	(13,490,413)	(20,593,018)
	2,786,509,587	3,479,406,982
Less current portion of long-term debt	(694,286,996)	(692,879,656)
	P2,092,222,591	P2,786,527,326

The movements in unamortized debt discount follow:

	2018	2017
Unamortized debt discount at beginning of year	P20,593,018	P28,025,253
Less: amortization*	(7,102,605)	(7,432,235)
Unamortized debt discount at end of year	P13,490,413	P20,593,018

*Included in "Interest expense" in the consolidated statements of comprehensive income.

Future repayment of the principal as follows:

	2018	2017
Within one year	₱700,000,000	₱700,000,000
After one year but not more than five years	2,100,000,000	2,800,000,000
	₱2,800,000,000	₱3,500,000,000

In 2015, the Parent Company signed a 7-year loan agreement with a local bank for a ₱3.5 billion loan facility with an interest rate of 7-year Philippine Dealing System Treasury Reference Rates 2 (PDST-R2) plus 125 basis points at drawdown date, plus gross receipts tax. Interest on the outstanding principal amount shall be paid on each quarterly interest payment date. The proceeds from the loan was initially availed of to fund the acquisition of gaming system and equipment, hotel furniture and equipment and permanent working capital of the Parent Company. In November 2015, the Parent Company drew ₱2.5 billion from the loan facility, receiving proceeds of ₱2.5 billion, net of related debt issue cost of ₱30.0 million. The debt issue cost includes documentary stamp tax amounting to ₱12.5 million and upfront fees amounting to ₱17.5 million.

In April 2016, the Parent Company drew the remaining ₱1.0 billion from the loan facility, receiving proceeds of ₱995.0 million, net of documentary stamp tax amounting ₱5.0 million. Both loans will mature on November 27, 2022.

The related interest recognized amounted to ₱189.5 million, ₱209.3 million and ₱128.2 million in 2018, 2017, and 2016 respectively. Total interest paid amounted to ₱185.5 million, ₱201.9 million and ₱116.7 million in 2018, 2017 and 2016, respectively.

The loan is secured by the Parent Company's land and building with an aggregate carrying value of ₱4.6 billion and ₱4.5 billion as of December 31, 2018 and 2017, respectively (see Note 12).

Loan covenants

The loan imposes certain restrictions with respect to corporate reorganization, debt to equity ratio, disposition of all or substantial part of the Parent Company's assets, declaration or payments of dividends to its shareholders (other than dividends payable solely in share of capital stock) and payments of loans or advances from its shareholders, affiliates, subsidiaries or related entities when the Parent Company is in default. As of December 31, 2018 and 2017, the Parent Company has complied with the loan covenants.

16. Retirement Benefits

The Group does not have an established retirement plan and only conforms to the minimum regulatory benefit under the Retirement Pay Law (RA 7641) which is of the defined benefit type and provides a retirement equal to 22.5 days' pay for every year of credited service. The regulatory benefit is paid in a lump sum upon retirement. The Group liability for retirement benefits is based solely on the requirement under RA 7641. Benefits are based on the employee's final salary and years of service.

The table below summarizes the components of retirement cost recognized under "Operating costs and expenses" in the consolidated statements of comprehensive income (see Note 24):

	2018	2017
Current service cost	P4,185,692	P1,588,272
Net interest cost	102,083	47,625
	P4,287,775	P1,635,897

Movements in the cumulative actuarial gain in the consolidated statements of comprehensive income are as follows:

	2018	2017
Balance at beginning of year	P688,566	P-
Actuarial gain recognized in other comprehensive income	1,645,945	688,566
	P2,334,511	P688,566

The movements in the retirement liability are as follows:

	2018	2017
Balance at beginning of year	P1,760,049	P812,718
Total retirement expense for the year	4,287,775	1,635,897
Defined benefit income recognized in OCI	(1,645,945)	(688,566)
Balance at end of year	P4,401,879	P1,760,049

Movement in defined benefit obligation are as follows:

	2018	2017
Balance at beginning of year	P1,760,049	P812,718
Current service cost	4,185,692	1,588,272
Interest cost	102,083	47,625
Actuarial loss (gain) on:		
Experience adjustments	-	87,942
Change in demographic assumptions	-	(1,277,912)
Changes in financial assumptions	(1,645,945)	501,404
Balance at end of year	P4,401,879	P1,760,049

The cost of the retirement plan and the present value of the defined benefit obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions. The principal assumptions used in determining the retirement liability of the Group are shown below:

	2018	2017
Discount rate	7.61%	5.80%
Salary increase rate	5.00%	5.00%

The Group does not maintain a fund for its retirement benefit obligation. While funding is not a requirement of the law, there is a cash flow risk that the Group may be exposed to if several employees retire within the same year.

Shown below are the maturity profile of the undiscounted benefit payments as of December 31, 2018 and 2017 are as follows:

	2018	2017
	P=	P=
Less than one year	568,824	755,226
One to less than five years	845,504	309,837
Five to less than 10 years	2,386,405	10,126,839
10 to less than 15 years	4,243,737	17,587,343
15 to less than 20 years	13,140,844	57,056,448
20 years and above	P21,185,314	P85,835,693

The average duration of the expected benefit payments as of December 31, 2018 and 2017 is 25.85 years and 22.92 years, respectively.

The defined benefit obligation is subject to several key assumptions. The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant. Established on historical data, the behavior in error of the standard deviation is within the range:

	Effect on retirement liability	
Discount rate	8.61% (Actual + 1.00%)	(P666,284)
	6.61% (Actual - 1.00%)	826,412
Salary increase rate	6.00% (Actual + 1.00%)	P840,401
	4.00% (Actual - 1.00%)	(686,977)

17. Significant Commitments

PTO

As discussed in Notes 1 and 2, the Parent Company was granted a PTO by PAGCOR for the establishment, maintenance and operation of PAGCOR San Lazaro on March 18, 2010. The PTO shall be for a period of fifteen (15) years commencing on January 6, 2016, the date of actual operation.

Under this arrangement, the Parent Company shall acquire, install, maintain and upgrade to keep abreast with the worldwide industry of casino gaming the following to be used for the operation of PAGCOR San Lazaro as approved and deemed necessary by PAGCOR:

- (1) Certain number of gaming tables, table layout, chairs and other equipment and paraphernalia.
- (2) A minimum number of new slot machines and an online tokenless system of linking and networking all slot machines.

The use of slot machines and gaming tables ("Gaming Equipment") by PAGCOR will be for the major part of the Gaming Equipment's economic life.

In addition, the Parent Company shall also establish the gaming facility, including furnishings; undertake and shoulder the cost of designing, furnishing and maintaining PAGCOR San Lazaro.

The use of certain floors in the Parent Company's building as gaming facility did not substantially transfer the risk and benefits related to the ownership of the building.

The Parent Company requested PAGCOR to manage PAGCOR San Lazaro and PAGCOR shall exclusively and directly control, supervise and manage PAGCOR San Lazaro.

The Parent Company's share from gross gaming revenue of PAGCOR San Lazaro amounted to ₱413.4 million in 2018 and ₱283.2 million in 2017, respectively. Portion of the share from gross gaming revenue of PAGCOR San Lazaro related to gaming equipment was applied as payment for receivable arising from PTO in 2018 amounting to ₱47.5 million. Accordingly, revenue share in gaming operations for the year ended December 31, 2018 and 2017, presented in the consolidated statements of comprehensive income, amounted to ₱365.9 million and ₱283.2 million, respectively. The details of the revenue share in gaming operations for the years ended December 31, 2018 and 2017 are as follows:

	2018	2017
Revenue share from gaming operations related to:		
Gaming facility	₱322,178,581	₱283,196,090
Gaming equipment	43,693,744	—
	<u>₱365,872,325</u>	<u>₱283,196,090</u>

The future minimum collection related to the gaming equipment follows:

	2018
Within one year	₱100,557,388
After one year but not more than five years	402,229,553
More than five years	93,932,612
	<u>596,719,553</u>
Less: unamortized portion of discount	<u>(157,363,158)</u>
	439,356,395
Less: current portion (Note 8)	<u>(57,122,087)</u>
Noncurrent portion (Note 13)	<u>₱382,234,308</u>

Operating Lease Commitment - the Parent Company as Lessor

- a. The Parent Company entered into a lease contract with CBTC Bank (Philippines) Corp. to lease a space in Winford Hotel, ground floor with an area of 3 square meter (sqm.). The lease term is for a period of one year commencing on February 2018 and was subsequently renewed. The monthly payment amounts to ₱30,000, inclusive of electrical consumption but exclusive of VAT. The terms of the contract also state that rental payment shall escalate by 10% per annum.
- b. The Parent Company also entered into an agreement of lease with Ifoods Group Inc. to lease a 315.5 sqm. area of Winford Hotel and Casino for a lease term of five years from the commencement of operations of the lessee, unless sooner terminated in accordance with the termination clause. Rental rates shall be ₱600 per sqm. per month exclusive of VAT plus 10% of gross sales for the period commencing from the execution of the lease agreement until completion of all hotel rooms and ₱600 per sqm. per month exclusive of VAT plus 7% of gross sales upon completion of all the hotel rooms. The contract also states that base rent shall escalate at a rate to be agreed by both parties.
- c. The Parent Company entered into a lease contract with Golden Arches Development Corporation to lease a space in Winford Hotel and Casino with an area of 406.14 sqm. The lease term is upon

execution of the lease agreement until 10 years after the rental commencement date, unless sooner terminated in accordance with termination clause. Base rental rate is ₱750 per sqm. per month, exclusive of VAT, but subject to 5% withholding tax, or a percentage rental rate at the rate of 5% of gross sales, exclusive of VAT but subject to 5% withholding tax, whichever is higher. The lessee will pay an additional ₱13.78 for the common use service area. The contract also states that base rent shall escalate at a rate to be agreed by both parties.

- d. The Parent Company entered into a lease contract with Philippine Seven Corporation for five years commencing July 7, 2016 to lease an area of 45.09 sqm. for a basic rent of ₱1,300 per sqm. plus a percentage of gross sales (1.5% of gross sales) or minimum guaranteed rent (₱1,500 per sqm. per month), whichever is higher. Rent escalation shall separately apply to both basic rent and minimum guaranteed rent.
- e. The Parent Company also entered into an agreement of lease with SM Kenko Sauna Corporation to lease a 390 sqm. area of Winford Hotel and Casino to be used for spa and salon services. Rental rates shall be ₱650 per sqm. per month exclusive of VAT plus a percentage rental which is 10% of gross revenue from the operations. Rent shall escalate by 7.5% per annum commencing upon lapse of the first two years of lease. In 2018, the Parent Company agreed to amend the rental rates from ₱650 per sqm. to ₱200 per sqm. per month exclusive of VAT.
- f. The Parent Company entered into a lease contract with Banco de Oro (BDO) Unibank Inc. to lease a space in Winford Hotel, second floor with an area of 3 sqm. The lease term is for a period of two years commencing on February 1, 2016 and expiring on January 31, 2018. The lease contract was renewed in 2019. The monthly payment amounts to ₱20,000, inclusive of electrical consumption but exclusive of VAT.
- g. The Parent Company also entered into an agreement of lease with Choi Garden Manila Corporation for ten years commencing January 7, 2016 to lease a 927 sqm. area of Winford Hotel and Casino to be used for restaurant, dining and banqueting of Chinese food only services. The lessee is subject to 10% of gross sales exclusive of senior citizen discount and VAT.
- h. The Parent Company entered into a lease contract with Maybank Philippines Inc. to lease a space in Winford Hotel and Casino, second floor with an area of 3 sqm. The lease term is for a period of one year commencing on February 2018 and was subsequently renewed. The monthly payment amounts to ₱30,000, inclusive of electrical consumption but exclusive of VAT, for the first quarter of 2018 and ₱15,000 thereafter.
- i. The Parent Company also entered into an agreement of lease with Asian Integrated Gaming Solutions, Inc. to lease 81.28 sqm. area of Winford Hotel and Casino to be used for poker table games at the casino. Stated in the contract that the rental revenue basis would be 50% profit sharing or ₱200,000 minimum guaranteed fee per month, whichever is higher. This contract was terminated on November 2017 before the end of the contract.
- j. The Parent Company also entered into an agreement of lease with Orient Capital Venture for two years starting March 31, 2017 to lease a 10 sqm. area of Winford Hotel and Casino to be used for online sports betting. Stated in the contract that the rental revenue basis would be 50% profit sharing or ₱100,000 minimum guaranteed fee per month, whichever is higher.
- k. The Parent Company also entered into an agreement of lease with Globe Telecom, Inc. for ten years starting February 1, 2016 to lease a 6 sqm. area of Winford Hotel and Casino to be used as telecommunication site. The lease is payable at a monthly rate amounting to ₱36,700, net of all taxes and 5% escalation fee on the third year thereafter.

- l. The Parent Company also entered into an agreement of lease with Smart Communications, Inc. for five years commencing on November 10, 2016 to lease a 9 sqm. area of Winford Hotel and Casino to be used for satellite services. The lease is payable at a monthly rate amounting to ₱36,700, net of all taxes and 5% escalation fee on the third year thereafter.
- m. The Parent Company also entered into an agreement of lease with AIO FX Trade, Inc. for five years commencing on December 18, 2017 to lease a 5.06 sqm. area of Winford Hotel and Casino. AIO FX Trade, Inc is a money changer. The lease is payable at a monthly rate of ₱30,000, inclusive of VAT for the first year, ₱37,000, inclusive of VAT for the second year and 10% escalation fee on the third year thereafter applied on the second-year monthly rate.
- n. The Parent Company also entered into an agreement of lease with Andresons Global, Inc. for three years commencing on April 8, 2018 to lease a 14.09 sqm. area of Winford Hotel and Casino to sell high end liquors. The lease is payable at a monthly rate of ₱20,000 exclusive of VAT and no escalation during the lease term.

The estimated future minimum lease payments for the above agreements are as follows:

	2018	2017
Within one year	₱29,894,591	₱11,218,022
After one year but not more than five years	51,730,920	38,994,097
Five years onwards	17,384,971	40,926,122
	₱99,010,482	₱91,138,241

Rent income amounted to ₱27.4 million, ₱22.3 million and ₱2.8 million in 2018, 2017 and 2016.

Operating Lease Commitment - the Parent Company as Lessee

- a. On July 15, 2014, the Parent Company entered into a lease agreement with EEG Development Corporation to lease a property located at 1774 Consuelo Street, Sta. Cruz, Manila consisting of a floor area of 225 sqm. for the purposes of the mockup of Winford Hotel and Casino project. The lease term is for a period of two years commencing July 15, 2014 and expiring on July 14, 2016, renewable under such terms and conditions mutually agreed upon by the parties. The monthly rate for rental amounted to ₱45,000, exclusive of VAT and subject to withholding tax, which is payable every 15th day of each calendar month. No renewal was made on July 14, 2016.

Rent expense amounted to nil in 2018 and 2017 and ₱3.5 million in 2016.

Service Agreements

- a. The Parent Company also entered into an agreement with a service provider, engaging the latter to provide consultancy, advisory and technical services in relation to the operation, management and development of the hotel including recommendation or proposals on the activities or matters relating to the hotel. The agreement took effect on November 1, 2015 and will continue until terminated in accordance with the provisions of the agreement.
- b. The Parent Company also entered into an agreement with a service provider, engaging the latter to provide consultancy, advisory, and technical services in relation to the operation, management and development of the casino. The agreement took effect on November 1, 2015 and will continue until terminated in accordance with the provisions of the agreement.

- c. The Parent Company also entered into an agreement with a service provider, engaging the latter to provide communication strategy and planning development, conceptualization, production of advertising materials and marketing of the Group's banquet and hotel rooms.

Total service fees recognized in 2018, 2017 and 2016 under these agreements amounted to ₱31.6 million, ₱25.7 million and ₱17.4 million, respectively (see Note 24).

18. Deposit for Future Stock Subscription

The Group presented the deposit amounting to ₱2.1 billion and ₱1.1 billion as "Deposit for future stock subscription" under noncurrent liabilities in the consolidated statements of financial position as of December 31, 2018 and 2017, respectively, in accordance with FRB No. 6 as issued by the SEC.

19. Income Taxes

For income tax purposes, as the entity was granted the permit to operate PAGCOR San Lazaro, the Parent Company's income from casino operations is exempt from income tax in accordance with Section 13 of P.D. 1869, as amended, otherwise known as the PAGCOR Charter. Under P.D. 1869, earnings derived from the operation of casinos shall be imposed a 5% franchise tax, in lieu of all kinds of taxes, levies, fees or assessments of any kind, nature or description, levied, established or collected by any municipal, provincial, or national government authority (see Note 2).

The provision for income tax consists of final tax amounting to ₱94,656, ₱57,936 and ₱258,915 in 2018, 2017 and 2016, respectively.

As of December 31, 2018 and 2017, no deferred tax assets were recognized as management believes that the Group may not have sufficient future taxable income from its hotel operations against which the deferred tax assets may be applied.

No deferred tax assets will be recognized as it relates to the casino operations since the Group's income from casino operations is exempt from income tax in accordance with Section 13 of P.D. 1869, as amended (see Note 2).

As of December 31, 2018 and 2017, net unrecognized deferred tax assets from its operations other than gaming are composed of the following:

	2018	2017
Deferred tax assets:		
Net operating loss carry over (NOLCO)	₱560,907,136	₱367,663,292
Bad debts	16,553,130	—

Expired NOLCO and MCIT	17,263,101	9,622,022	12,048,420
Loss (income) from gaming operations exempt from income tax	(4,427,264)	2,973,345	(728,253)
Nondeductible expenses and others	2,232,402	2,869,874	10,837,907
Interest income subjected to final tax	(47,396)	(28,325)	(399,966)
Provision for income tax	P94,656	P57,936	P258,915

20. PEZA Registration

On February 10, 2015, the Parent Company's registration as an Ecozone Tourism Enterprise for the development and operation of tourist, leisure and entertainment facilities is approved by Philippine Economic Zone Authority (PEZA).

As provided in its Registration Agreement dated February 24, 2015, the Parent Company shall be entitled only to tax and duty-free importation and zero-VAT rating on local purchases of capital equipment in accordance with PEZA Board Resolution No. 12-610 dated November 13, 2012, except for casino operations and other gaming/gambling operations, if any, subject to all evaluation and/or processing requirements and procedures prescribed under PEZA Rules and Regulations, pertinent circulars and directives.

21. Related Party Transactions

Entities and individuals that directly, or indirectly through one or more intermediaries, control or are controlled by or under common control with the Group, including holding companies, subsidiaries and fellow subsidiaries, are related parties of the Group. Entities and individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the entity, key management personnel, including directors and officers of the Group and close members of the family of these individuals, and companies associated with these individuals also constitute related parties. In considering each possible related entity relationship, attention is directed to the substance of the relationship and not merely the legal form.

Transactions with Related Parties

In the ordinary course of business, the Group has significant transactions with related parties as follows:

Entity	Relationship	Nature	2018		2017		Terms	Condition
			Amount	Receivable (Payable)	Amount	Receivable (Payable)		
Manila Jockey Club, Inc. (MJCI)	Stockholder	Deposit for future stock subscription (Note 18)	₱84,979,217	(₱237,233,646)	₱152,254,429	(₱152,254,429)	Noninterest-bearing	Unsecured, unguaranteed
		Advances ^(a) (Note 14)	-	(4,970,819)	-	(4,970,819)	Noninterest-bearing; due and demandable	Unsecured, unguaranteed
		Commission from the off-track betting ^(b) (Note 8)	167,932	371,013	293,962	304,099	Noninterest-bearing; due and demandable	Unsecured, unimpaired
Various Shareholders	Stockholder	Deposit for future stock subscription (Note 18)	971,089,239	(1,904,967,451)	933,878,212	(933,878,212)	Noninterest-bearing	Unsecured, unguaranteed
Manilacockers Club, Inc. (MCI)	Affiliate	Commission from the off-track betting ^{(c)(d)} (Note 8)	4,367,699	1,572,263	701,543	90,201	Noninterest-bearing; due and demandable	Unsecured, unimpaired

^(a) The Parent Company obtains advances for expenses such as office rental, utilities and other allowances of the Parent Company's employees.

^(b) Share of the Parent Company on horse racing gross bets from off track betting station of MJCI located at Winford Hotel and Casino.

^(c) Share of the Parent Company on cockfighting gross bets from off track betting station of MCI located at Winford Hotel and Casino.

^(d) MCI is an affiliate through a common stockholder, MJCI.

Key Management Personnel

Total key management personnel compensation of the Group amounted to ₱33.5 million, ₱13.2 million, and ₱11.2 million as of December 31, 2018, 2017 and 2016, respectively. The compensations are short-term employee benefits.

The Group has no standard arrangement with regard to the remuneration of its directors. In 2018, 2017 and 2016, the BOD received directors' fees aggregating ₱0.7 million, ₱0.8 million and ₱0.6 million respectively (Note 24).

The Group's advances to its employees amounted to ₱1.4 million and ₱0.9 million as of December 31, 2018 and 2017, respectively (see Note 8).

22. Equity

Capital Stock

The Parent Company has a total of 5,000,000,000 authorized shares, 3,174,405,821 issued and subscribed shares at ₱1.00 par value. The total issued, outstanding, and subscribed capital are held by 434, 446, and 444 equity holders for the years 2018, 2017 and 2016, respectively.

In 2010 and 2013, the Parent Company received series of additional subscription aggregating 83,652,958 shares from shareholders in which ₱20.9 million were paid up. In 2015, ₱24.0 million of the subscription receivable was paid by the shareholder while the remaining balance amounting to ₱38.7 million was collected on May 30, 2016.

On April 12, 2018, the BOD approved the conduct of a stock rights offering in order to raise additional capital. The total number of shares to be issued is 1,587,202,910 common shares and the stock offer price shall be at ₱1.00 per share. The entitlement ratio shall be one rights share for every two common shares held as of record date.

On September 17, 2018, the BOD approved the offer price for the rights shall be ₱1.00 rights per share, if paid in full upon submission on the application to subscribe, or ₱2.00 per rights share, if paid on installment basis. As of April 3, 2019, the stock rights offering is still pending approval of SEC.

23. Basic/Diluted Loss Per Share

	2018	2017	2016
Net loss for the year	₱746,060,247	₱790,235,175	₱446,363,366
Divided by weighted average number of outstanding common shares	3,174,405,821	3,174,405,821	3,174,405,821
Basic/diluted losses per share	₱0.235	₱0.249	₱0.141

The Group has no potential dilutive common shares as of December 31, 2018, 2017 and 2016. Therefore, the basic and diluted loss per share are the same as of those dates.

24. Operating Costs and Expenses

This account consists of:

	2018	2017	2016

25. Operating Segment Information

The Group has two operating segments in 2018, 2017, and 2016. Gaming segment pertains to casino operations while non-gaming pertains to hotel operations. Management monitors the operating results of its operating segments for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on net income or loss and is measured consistently with the total comprehensive loss on the consolidated financial statements. The Group's asset-producing revenues are located in the Philippines (i.e., one geographical location). Therefore, geographical segment information is no longer presented.

Segment Revenue and Expenses

The segment results for the years ended December 31, 2018, 2017 and 2016 are as follows:

	2018		
	Gaming	Non-gaming	Total
Revenue	₱411,677,559	₱211,357,200	₱623,034,759

Depreciation and amortization	144,555,123	372,967,583	517,522,706

26. Financial Risk Management Objectives and Policies and Fair Value Measurement

The Group's consolidated financial instruments comprise of cash in banks, receivables (excluding "advances from employees"), deposits (presented as part of "Prepayments and other current assets" in the consolidated financial statements), noncurrent portion of receivable arising from PTO and long-term deposits (presented as part of "Other noncurrent assets" in the consolidated financial statements), accounts payable and other current liabilities (excluding "withholding taxes payable"), retention payable, interest payable and loans payable. The main purpose of these financial instruments is to finance the Group's operations. The main risks arising from the use of these financial instruments include credit risk and liquidity risk. The Group's BOD reviews and approves the policies for managing these risks and these are summarized below.

Credit Risk

Credit risk arises because the counterparty may fail to discharge its contractual obligations. As a matter of policy, the Group limits its maximum exposure to credit risk to the amount of carrying value of the instruments. The Group transacts only with related parties and with recognized and creditworthy third parties. Receivable balances are monitored on an ongoing basis. Further, management intensifies its collection efforts to collect from defaulting third parties.

The table below shows the maximum exposure to credit risk of the Group as at December 31, 2018 and 2017 as follows:

	2018	2017
At amortized cost/loans and receivables:		
Cash in banks (Note 7)	P465,901,982	P554,257,499
Receivables* (Note 8)	211,007,052	180,161,667
Deposits** (Note 11)	7,404,740	7,190,495
Long-term deposits (Note 13)	27,103,000	27,103,000
Receivable arising from PTO related to gaming equipment - net of current portion (Note 13)	382,234,308	-
	P1,093,651,082	P768,712,661

*Excluding advances to employees.

**Excluding security deposit to be applied at the end of the contract and advance payments for operating supplies and television advertisements.

As of December 31, 2018 and 2017, the aging analysis of receivables is as follows:

2018	Total	Neither past due nor impaired	Past due but not impaired					Impaired
			Less than 30 days past due	31 to 60 days past due	61 to 90 days past due	91 to 180 days past due	More than 180 days past due	
Trade:								
Non-related parties	P53,962,725	P6,790,829	P3,968,979	P6,097,486	P1,997,424	P35,108,007	P-	P-

Receivable arising from PTO	482,130,542	481,215,042	265,500	650,000	-	-	-	-
	P593,241,360	P488,574,541	P4,600,985	P7,109,530	P2,279,224	P35,527,698	P55,149,382	P55,177,100

2017	Total	Neither past due nor impaired	Past due but not impaired					Impaired
			Less than 30 days past due	31 to 60 days past due	61 to 90 days past due	91 to 180 days past due	More than 180 days past due	
Trade:								
Non-related parties	P24,421,046	P12,542,225	P2,203,084	P2,347,663	P2,465,559	P1,695,201	P3,167,314	P-
Related parties	394,300	394,300	-	-	-	-	-	-
Nontrade	110,326,482	55,435	-	-	-	-	110,271,047	-
Receivable arising from PTO	45,019,839	44,112,866	599,500	-	6,000	18,000	283,473	-
	P180,161,667	P57,104,826	P2,802,584	P2,347,663	P2,471,559	P1,713,201	P113,721,834	P-

The table below shows the credit quality of the Group's neither past due nor impaired receivables as of December 31, 2018 and 2017, based on the Group's experience with its debtor's ability to pay:

	2018			Total
	Grade A	Grade B	Grade C	
Trade:				
Non-related parties	P3,767,015	P1,715,819	P1,307,995	P6,790,829
Related parties	513,235	-	-	513,235
Nontrade	55,435	-	-	55,435
Receivable arising from PTO	481,215,042	-	-	481,215,042
	P485,550,727	P1,715,819	P1,307,995	P488,574,541

	2017			Total
	Grade A	Grade B	Grade C	
Trade:				
Non-related parties	P4,509,546	P2,198,162	P5,834,517	P12,542,225
Related parties	394,300	-	-	394,300
Nontrade	55,435	-	-	55,435
Receivable arising from PTO	44,112,866	-	-	44,112,866
	P49,072,147	P2,198,162	P5,834,517	P57,104,826

The credit quality of the financial assets was determined as follows:

- **Grade A**
This includes cash deposited with banks having good reputation and bank standing and receivables from customers or affiliates that always pay on time or even before the maturity date.
- **Grade B**
This includes receivables that are collected on their due dates provided that they were reminded or followed up by the Group.
- **Grade C**
This includes receivables which are still collected within their extended due dates.

Liquidity Risk

Liquidity risk is defined as the risk that the Group would not be able to settle or meet its obligations on time or at a reasonable price. The Group's objective is to maintain a balance between continuity of funding and flexibility by regularly evaluating its projected and actual cash flows and through the use of bank loans and extension of suppliers' credit terms. The Group maximizes the net cash inflows from operations to finance its working capital requirements.

The tables below summarize the maturity profile of the Group's financial liabilities as at December 31, 2018 and 2017 based on contractual undiscounted payments.

	2018			Total
	Due and Demandable	Less than 1 year	1 year or above	
Loans payable*	P-	P901,993,406	P2,164,441,498	P3,066,434,904
Accounts payable and other current liabilities**	4,970,819	542,836,155	-	547,806,974
Retention payable	138,453,425	-	-	138,453,425
Interest payable	-	15,925,877	-	15,925,877
	P143,424,244	P1,460,755,438	P2,164,441,498	P3,706,478,179

*Including interest.

**Excluding withholding taxes payable amounting to P6,395,327.

	2017			Total
	Due and Demandable	Less than 1 year	1 year or above	
Loans payable*	P-	P901,879,770	P3,127,760,382	P4,029,640,152
Accounts payable and other current liabilities**	4,970,819	303,640,875	-	308,611,694
Retention payable	279,174,193	-	-	279,174,193
Interest payable	-	19,055,836	-	19,055,836
	P284,145,012	P1,224,576,481	P3,127,760,382	P4,636,481,875

*Including interest.

**Excluding withholding taxes payable amounting to P2,259,155.

The following tables show the profile of financial assets used by the Group to manage its liquidity risk:

	2018			Total
	Due and Demandable	Less than 1 year	1 year or above	
At amortized cost:				
Cash in banks	P465,901,982	P-	P-	P465,901,982
Receivables	82,313,289	128,693,763	382,234,308	593,241,360
Deposits	-	-	7,404,740	7,404,740
Long-term deposits	-	-	27,103,000	27,103,000
	P548,215,271	P128,693,763	P416,742,048	P1,093,651,082

	2017			Total
	Due and Demandable	Less than 1 year	1 year or above	
Loans and receivables:				
Cash in banks	P554,257,499	P-	P-	P554,257,499
Receivables	123,056,841	57,104,826	-	180,161,667
Deposits	-	-	7,190,495	7,190,495
Long-term deposits	-	-	27,103,000	27,103,000
	P677,314,340	P57,104,826	P34,293,495	P768,712,661

As discussed in Note 22, the Group's BOD approved the conduct of a stock rights offering in order to raise additional capital which will be used for debt servicing requirements. In addition, the Group will consider raising additional cash from shareholders or long-term loans.

Changes in liabilities arising from financing activities

	December 31, 2017	Cash flows	Others*	December 31, 2018
Loans payable	P3,479,406,982	(P700,000,000)	P7,102,605	P2,786,509,587
Deposit for future stock subscription	1,086,132,641	1,056,068,456	-	2,142,201,097
Interest payable	19,055,836	(185,505,520)	182,375,561	15,925,877
Total liabilities from financing activities	P4,584,595,459	P170,562,936	P189,478,166	P4,944,636,561

*Others includes accrual of interest from interest-bearing loans and accretion of loans payable.

	December 31, 2016	Cash flows	Others*	December 31, 2017
Loans payable	P3,471,974,747	P-	P7,432,235	P3,479,406,982
Deposit for future stock subscription	-	1,086,132,641	-	1,086,132,641
Interest payable	19,055,836	(201,867,966)	201,867,966	19,055,836
Total liabilities from financing activities	P3,491,030,583	P884,264,675	P209,300,201	P4,584,595,459

*Others includes accrual of interest from interest-bearing loans and accretion of loans payable.

Fair Value Measurement

The carrying values of cash in banks, receivables, deposits, accounts payable and other current liabilities (excluding "withholding taxes payable") approximate their fair values due to the short-term nature of these accounts.

The fair values of receivable arising from PTO related to gaming equipment, long-term deposits and loans payable were based on the present value of estimated future cash flows using interest rates that approximate the interest rates prevailing at the reporting date. The carrying values and fair value of receivable arising from PTO related to gaming equipment, long-term deposits and loans payable are as follows:

	2018		2017	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial Assets				
Receivable arising from PTO related to gaming equipment	P439,356,395	P484,729,339	P-	P-
Long-term deposits	27,103,000	27,103,000	27,103,000	27,103,000
	P466,459,395	P511,832,339	P27,103,000	P27,103,000
Financial Liabilities				
Loans payable	P2,786,509,587	P2,739,441,141	P3,479,406,982	P3,620,808,095

As of December 31, 2018 and 2017, the Group's consolidated financial assets and liabilities are measured at fair value under the Level 2 hierarchy. There were no financial instruments carried at fair value as of December 31, 2018 and 2017.

27. Working Capital and Capital Management

The primary objective of the Group's working capital and capital management is to ensure that the Group has sufficient funds in order to support its business, pay existing obligation and maximize stockholders' value. The Group considers its total equity, including deposit for future stock subscription, amounting to P3.2 billion and P2.9 billion as its capital as of December 31, 2018 and 2017, respectively.

The Group maintains a capital base to cover risks inherent in the business. The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may return capital to shareholders or issue capital securities. No changes were made in the objectives, policies and processes from the previous years.

The Group monitors working capital and capital on the basis of current ratio and debt-to-equity ratio in order to comply with loan covenants (see Note 15).

In computing the debt-to-equity ratio, the 'deposits for future stock subscription' formed part of the Consolidated Net Worth, as the deposits are considered as future additional shareholders' interest in the Group.

Current ratio and debt-to-equity ratio of the Group are as follows:

	2018	2017
Total current assets	₱758,436,369	₱835,168,464
Total current liabilities	1,415,410,010	1,301,980,534
Current ratio	0.54	0.64
<hr/>		
Total liabilities, excluding deposit for future stock subscription	₱3,515,855,499	₱4,094,088,929
Total equity	3,184,719,346	2,854,935,833
Debt-to-equity ratio	1.1	1.43

The Group's strategy is to maintain a sustainable current ratio and debt-to-equity ratio.

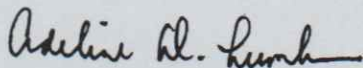

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES

The Board of Directors and Stockholders
MJC INVESTMENTS CORPORATION
Doing business under the name and style of Winford Leisure
And Entertainment Complex and Winford Hotel and Casino
(Formerly MJC Investments Corporation)
Winford Hotel and Casino, MJC Drive,
Sta. Cruz, Manila

We have audited in accordance with Philippine Standards on Auditing, the accompanying consolidated financial statements of MJC INVESTMENTS CORPORATION [Doing business under the name and style of Winford Leisure and Entertainment Complex and Winford Hotel and Casino] (Formerly MJC Investments Corporation) and Subsidiary (the Group) as at December 31, 2018 and 2017 and for each of the three years in the period ended December 31, 2018 included in this Form 17-A and have issued our report thereon dated April 3, 2019. Our audits were made for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The schedules listed in the Index to Consolidated Financial Statements and Supplementary Schedules are the responsibility of the management of the Group. These schedules are presented for purposes of complying with Securities Regulation Code Rule 68, As Amended (2011), and are not part of the consolidated financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, fairly state, in all material respects, the information required to be set forth therein in relation to the consolidated financial statements taken as a whole.

Item 9. Other Matters

Please be informed that at the regular meeting of the Board of Directors of MJC Investments Corporation ("MJIC") held on April 12, 2018, the following matters were unanimously approved:

1. Setting of Annual Stockholders' Meeting and Record Date

- The Board set the Annual Stockholders' Meeting (ASM) on June 28, 2018 at 2:00 P.M. at Winford Hotel and Casino, MJC Drive, Sta. Cruz, Manila. The Board also set May 2, 2018 as the record date for determining the stockholders entitle to notice of, and to vote at, the ASM.
- Below is the agenda for the ASM:
 - 1. Call to Order
 - 2. Determination and Declaration of Quorum
 - 3. Approval of the Minutes of the Annual Stockholder's Meeting held on June 29, 2017
 - 4. President's Report
 - 5. Ratification of Past Acts of the Board and Management
 - 6. Election of Directors
 - 7. Appointment of External Auditor
 - 8. Adjournment

2. Stock Rights Offering

- The Board approved the conduct of a stock rights offering (the "Rights Offering") in order to raise additional capital for its debt servicing requirements. The Rights Offering shall be in lieu of the Warrants Issuance previously approved during the Annual Stockholders' Meeting held last June 29, 2017.
- Below are the details of the Rights Offering:

Entitlement Ratio	One (1) Rights Share fro every Two (2) Common Shares held as of Record Date
Offer Price	Php 1.00 per share
Number of Shares to be Offered	1,587,202,910
Ex-Rights Date	TBA
Record Date	TBA
Offer Period	TBA
